The Bible describes the day in which we live. At the time of the end many shall run to and fro and knowledge shall be increased. The Antichrist shall come describes as the king of the North and at that time shall Michael come to deliver His people. {see Daniel 11:40-12:4}

Following 9-11 there was verily an explosion in knowledge, one source was WikiLeaks that removed the curtain to see what was behind the scenes and they were but an instrument for many who would have the truth told about what had been in the pipeline for a long time called the New World order. The information was all there but a correct knowledge of Bible prophecy is needed to pull it all together.

For Assange it was a high personal toll. Exposing the death of innocent journalists in Iraq was the beginning of a series of revelations that had to be stopped in the information war. There was so much present disinformation that our only guide to truth is understand the gospel in relation to the prophecies of Daniel and Revelation.

Pompeo, CIA Officials Reportedly Had Discussions About Kidnapping or Assassinating Julian Assange

A new report claims that the CIA plotted to kidnap and possibly assassinate Wikileaks founder **Julian Assange** years ago, and **Mike Pompeo** 'spearheaded' these discussions.

Obama surrounded by Roman catholic/ Jesuit Trained Intelligence Leaders

President Barack Obama meets with Director of National Intelligence James Clapper, right (Alma Mater St. Mary's University, Texas), in the Oval Office, Sept. 9, 2010. Also attending are, clockwise from left, Robert Cardillo, DIA Deputy Director (and now Director of National Intelligence for Intelligence Integration and schooled at Georgetown), Deputy National Security Advisor Tom Donilon (Donilon attended La Salle Academy, earned a B.A. at The Catholic University of America in 1977 and is connected personally to the Biden family), Rodney Snyder, Senior Director for Intelligence Program, NSS (Can not find any kind of BIO on him), John Brennan, Assistant to the President for Homeland Security and Counterterrorism (Attended private catholic schools from his youth, is Alma mater at Fordham University and is former CIA), and National Security Advisor Gen. James L. Jones (Alma Mater Georgetown University). (Official White House Photo by Pete Souza)

Obama was a very pleasant orator but he leant himself to drone operation in which many lives were lost and fought against whistle blowers. He was surrounded by Jesuits with the new world order in mind which was really starting to grate on public opinion because of job loss and things such as privatization. In his

final meeting in Europe, he gives to us words of comfort that the new world order has not disintegrated but will endure despite the change of direction for the nation, something that Hilary has also alluded to. The structure behind new world order such as the world bank, Vatican influences, the policy changes and its theology in the universities is not going to go away.

In 2014 President Barack Obama has named Jesuit Father Thomas J. Reese as the newest member of the United States Commission on International Religious Freedom (USCIRF),” and in 2016 Reese “will take over as the chair of the organization, an independent, , bipartisan commission that monitors and reviews religious freedom violations around the world, and makes policy recommendations to the Secretary of State, Congress and the president.” How well does that fit with the history of the Jesuits who took over the reins of

the inquisition! Reese had previous come under fire as editor of the magazine *America* for its position on condoms to prevent HIV/AIDS, religious pluralism, homosexual priests, and supporting pro-choice Catholic politicians.

New York City Mayor Michael Bloomberg endorsed President Barack Obama for president on Thursday, citing his positions on climate change, abortion and marriage equality as major factors in his decision.

There were many whistle-blowers during the Obama presidency. Most notable to gain public attention were Chelsea Manning, Julian Assange and Edward Snowden.

Assange gave us idea of the corruption and extent of American globalization. Edward Snowden gave us the extent of NSA spying on a worldwide scale and gave us an idea of the coming power of American to control the world. Snowden showed us that the NSA were infiltrating personal devices and storing information of individuals worldwide.

*Obama stated this, though 'globalization had fueled a "sense of injustice" and needed a "course correction" to address growing inequality.....**"there will not be a return to a world before globalization."***

"Germans and Americans must take the opportunity to shape globalization according to our values and ideas. We are committed to broadening and deepening our cooperation with our businesses and our citizens, indeed the whole of the world community,"

'So as part of that magnificent global dream Merkel would rather give up data protection and gather citizens personal details. Philipp Albrecht, a member of the German Green Party said proposed legislation change is a violation of EU law. It is plain that many citizens of the west are

thoroughly sick of their leadership and their own agenda for globalist plans as seen in the change of leadership at the ballot box.'

As the Vatican insider Malachi Martin Jesuit Priest stated in 'Keys of this Blood,' 'there is no way it can be reversed or called off. **our way of life as individuals and as citizens of the nations; our families and our jobs; our trade and commerce and money; our educational systems and our religious and our cultures; even the badges of our national identity, which most of us have always taken for granted – all will have been powerfully and radically altered forever.**' He is right for they are the conspirators of such plans.

'People, governments and economies of all nations must serve the needs of multinational banks and corporations.' Zbigniew Brzezinski

I think people were tired of what little they know of the whole plan, it's an ideology that springs from Romanism with the unknown consent of the people.

'The enemy moves upon his servants to propose measures that would greatly impede the work of God; but statesmen who fear the Lord are influenced by holy angels to oppose such propositions with unanswerable arguments. God also has His agents among the leading men of the nation. Thus a few men will hold in check a powerful current of evil.' Dr Ron

Paul went up against Obama & big business in the run for president (2008, 2012). To his credit integrity was more important than the win. His message- mind our own business, look after Americans and bring the troops back home. The USA lost a golden opportunity for change, to stop its aggression against other nations and to care for its own people. The call for liberty as God made all men free continues to this day at the age of 82. Ron Paul practices and uphold his Christian principals.

Pope in session 2015

2015 is a pinnacle year for the Papacy and for the US. The Pope having prepared his encyclical in 2015 with his chosen name envisioning his mission he would present to congress his outline of the New World Order which would become the basis for the Paris Agreement on Climate change. Central to his work, in the document is Sabbath rest, the key to Papal power through its own times and laws which are in opposition to the commandments of God. {Daniel 7:25.}

Millions flocked to see Pope Francis on US visit. What was different about this visit from other visiting Pope's was the chain of events that would follow his encyclical and the Paris Agreement.

Life, liberty, freedom that was so dear and fought so hard for, would come under a tremendous struggle following the Pope's US visit. Think of the turmoil since that point which we shall cover.

There was no Ian Paisley in congress to protest and represent the reformation. He called John Paul out as the antichrist as he began his speech in the EU parliament.

The Papacy was growing in influence over the decades as shown by US state officials

representing the United States at the funeral of John Paul II. The Papacy as we have recounted was part of US fabric and almost essential to the success of their military campaigns.

Notice how many paid their respects to the passing of John Paul II. It represented a real change in where Protestant America had been and where it was going.

'Pictured from left, President George W. Bush, Laura Bush, former President George H.

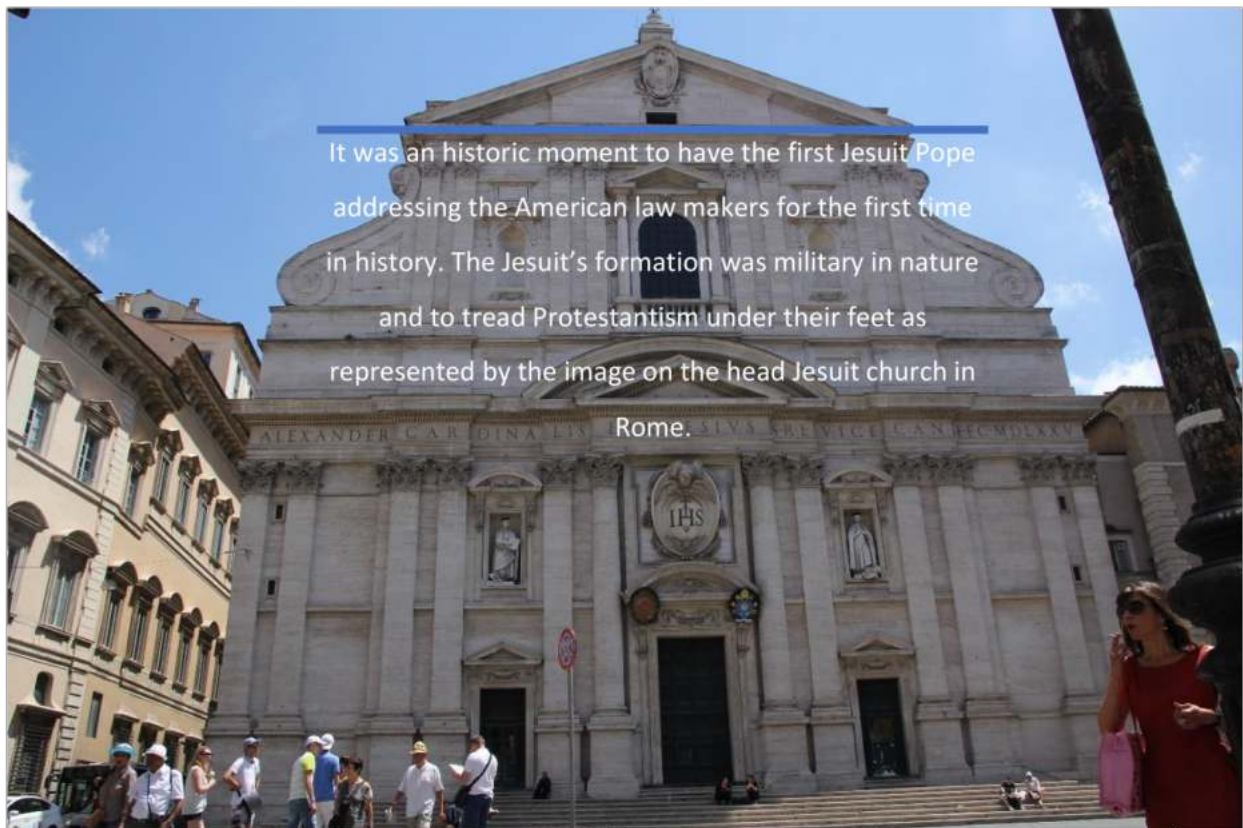

W. Bush, former President Bill Clinton, Secretary of State Condoleezza Rice and White House Chief of Staff Andy Card pay their respects to Pope John Paul II as he lies in state in St. Peter's Basilica at the Vatican Wednesday, April 6, 2005.' George Bush junior had said of Pope Benedict, he 'sees God in the eyes of the Pope'. They all were Vatican influence people leading the United States.

Pope Francis' visit to US congress in 2015 was historical in the fact he being the first Jesuit Pope, was

addressing the congressional law makers of the United States. Two figures who particularly solicited the Pope's visit to the US were the house speakers, John A. Boehner and Nancy Pelosi. Consider the liberal antichristian campaign Pelosi is advancing today. John

Boehner was in tears by listening to the Pope's moving words. And of course, our other Vatican man was there, Joe Biden.

It was an historic moment to have the first Jesuit Pope addressing the American law makers for the first time in history. The Jesuit's formation was military in nature and to tread Protestantism under their feet as represented by the image on the head Jesuit church in Rome.

Note the images from the main Jesuit church in Rome. The Jesuits crushing Protestant heresy under their feet.

Quotes Jesuit James Martin, S.J. In May 1816, Adams wrote to Jefferson about the 'restoration' of the Society of Jesus: 'I do not like the reappearance of the Jesuits.... Shall we not have

regular swarms of them here, in as many disguises as only a king of the gipsies can assume, dressed as printers, publishers, writers and schoolmasters? If ever there was a body of men who merited damnation on earth and in Hell, it is this society of Loyola's. Nevertheless, we are compelled by our system of religious toleration to offer them an asylum.' It's not surprising that Adams would despise us. **The Society of Jesus was founded on obedience ...to a foreign power** (Adams was deeply suspicious of most things European).

Adams had painted the Jesuits correctly as spies working to infiltrate the US with loyalty to a foreign nation.

And in 1821 Adams asked, "Can a free government possibly exist with the Roman Catholic religion?"

Jesuit church in Rome with Mary banishing Huss and Luther to hell with a lightning bolt, while an angel rips their 'heretical' writings from the pages of the book. Let the history of the Jesuit organization speak aloud for itself. To what obedience was the Jesuits founded? To the Pope. To what would they resort as free thinkers to achieve their end? 'The blood of prophets, and of

saints, and of all that were slain upon the earth.' The mission of the Jesuits was to stamp out Protestantism and how has it altered Protestantism inside America today! The roots of Protestantism and the name has almost vanished. Changed as Protestantism was seduced to the teachings of Rome.

Today the New Roman Empire has the US as its driving power.

America in 2015 was the leading globalists nation under Obama with Jesuit advisors all around him. The result of 'Rome's many policies is the financial melt-down in 2008, with people losing their homes, having no work and privatization and also anti-Christian rhetoric which gave Trump a

landslide victory. People were sleeping in the parks, houses were for sale for cash at ridiculous prices, car yards empty and people begging for work and money at every traffic light as I witnessed in Florida. The same issues of lost freedoms and poverty increases in the shadow of Rome.

Liberty under threat as he brings his Marxist ideology. The USA is to the main player for the New Roman Empire. 'From Cuba to climate change, he has revitalized the Vatican's role in global diplomacy. Now he's bringing his activist agenda to the U.S.' Time magazine

Jesuit Pope's eyeballs the statue of liberty as he comes into land in New York. The prise is to

secure US and for the US to be to the Vatican what France was in its infancy and indeed since the second world war the industrial military complex has been a vehicle for the Vatican but as previously stated by the Jesuits 'Vatican II didn't fail. It's just getting started.' A key focal point is the constitution with separation of church and state and to be onboard Paris Agreement.

Jesuit Theologian Predicts that 'Laudato Si' will become Law in 10 Years or Less

In 1960 presidential candidate Kennedy had to vow that he would not take orders from the Vatican but in 2015 the first Jesuit Pope addresses congressional leaders marking the shift in values and attitude. . 'Pope Francis became the first pope to address a joint session of the United States Congress, at the invitation of House Speaker John Boehner and Minority Leader Nancy Pelosi, both Catholics.' 25th September the Pope met with the United Nations and by 12th December an historical agreement was made on climate change that was to be endorsed 2020- the Paris Agreement.

Climate change is one of the cornerstones of a Jesuit papacy. Dr. Charlie Camosy of Fordham University said 'Think 10 years isn't enough time for such dramatic changes to take hold? You underestimate the power of changing hearts to bring about life-changing legislation. In 2004, GOP operatives put anti-same-sex marriage policies on state ballots to draw out voters who were opposed to the practice. By 2014, American culture had transformed so dramatically on gay and lesbian marriage that pushing legislation barring it would have been political suicide. Our culture could also have an ecological conversation in a similar timeframe. Perhaps even faster, given the new technologies. Let's get to work.

The Pope's call for Global Compact on Education based on the Pope's encyclical is now set for October 15 2020 in which he has called on world educators to educate the young in his encyclical and a global response to climate change.

Former president of Mastercard and now CEO of Visa arranged the Papal visit including US secret service. In the movements now in progress in the United States the US is 'opening the door for the papacy to regain in Protestant America the supremacy which she has lost in the Old World. In 2015 prophetic events were taking shape in multiple ways.

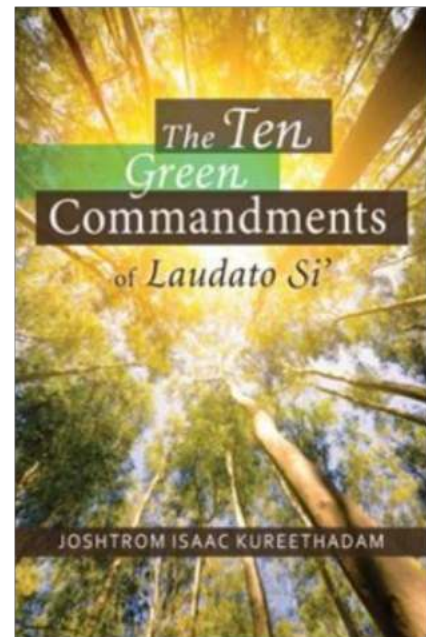

Just as Jews and Catholics united for financial benefits so they have united on spiritual issues for the basis of the New Ten Commandments of *Laudato Si'*. The inspiration of this is the occult movement.

10 commandments of Climate change for the 'Common Good.'

Blessed [are] they that do his commandments, that they may have right to the tree of life, and may enter in through the gates into the city. {Revelation 22:14} **worship not the beast and his image.**

Laudato si', Pope Francis's encyclical on care for our common home, is the longest of all papal encyclicals, spanning issues ranging from climate change to creation theology, from favelas

II. Listen to the cry of the poor who are the disproportionate victims of the crisis of our common home. The ecological crisis is not only a physical problem, but also a deeply moral one.

Laudato Si' as outlined by Joshtrom Kureethadam

JUDGE:

III. Rediscover a theological vision of the natural world as good news (gospel). The world is indeed "good news" that reveals the love, beauty, and glory of the Creator.

IV. Recognize that the abuse of creation is ecological sin. The destruction of our common home calls for repentance.

V. Acknowledge the deeper human roots of the crisis of our common home. Repentance begins by acknowledging human responsibility for the destruction.

ACT:

VI. Develop an integral ecology, as we are all interrelated and interdependent. As every ecologist (and every farmer) knows, you cannot do just one thing.

VII. Learn a new way of dwelling in our common home and manage it more responsibly through a new economics and a new political culture. We need a new way to live on Earth, including a new economy and a new political order, focused on the common good of all creation.

VIII. Educate toward ecological citizenship through change of lifestyles. Ecological citizenship means establishing a new covenant between humanity and the natural world.

IX. Embrace an ecological spirituality that leads to communion with all creatures. The natural world is permeated with divine presence.

X. Care for our common home by cultivating the ecological virtues of praise, gratitude, care, justice, work, sobriety, and humility.

As the Papacy has embraced Christianity, paganism and human philosophy and the occult, so the occult has embraced paganism with its mysticism and Christianity. The vision of our mother earth and save the planet is from occult sources. It is claimed that Alice Bailey and even Blavatsky were Christians which is outrageous.

An outline of Alice Bailey writings as being followed by the UN charter and Vatican.

The 10 Point Charter by Alice Bailey

1. TAKE GOD AND PRAYER OUT OF THE EDUCATION SYSTEM
2. REDUCE PARENTAL AUTHORITY OVER THE CHILDREN
3. DESTROY THE JUDEO-CHRISTIAN FAMILY STRUCTURE OR THE TRADITIONAL CHRISTIAN FAMILY STRUCTURE
4. IF SEX IS FREE, THEN MAKE ABORTION LEGAL AND MAKE IT EASY
5. MAKE DIVORCE EASY AND LEGAL, FREE PEOPLE FROM THE CONCEPT OF MARRIAGE FOR LIFE
6. MAKE HOMOSEXUALITY AN ALTERNATIVE LIFESTYLE
7. DEBASE ART, MAKE IT RUN MAD
8. USE MEDIA TO PROMOTE AND CHANGE MINDSETS
9. CREATE AN INTERFAITH MOVEMENT
10. GET GOVERNMENTS TO MAKE ALL THESE LAW AND GET THE CHURCH TO ENDORSE THESE CHANGES.

Satan has wrought with deceiving power, bringing in a multiplicity of errors that obscure the truth. Error cannot stand alone, and would soon

become extinct if it did not fasten itself like a parasite upon the tree of truth. Error draws its life from the truth of God. The traditions of men, like floating germs, attach themselves to the truth of God, and men regard them as a part of the truth. Through false doctrines, Satan gains a foothold, and captivates the minds of men, causing them to hold theories that have no foundation in truth. Men boldly teach for doctrines the commandments of men; and as traditions pass on, from age to age, they acquire a power over human mind. But age does not make error truth, neither does its burdensome weight cause the plant of truth to become a parasite. The tree of truth bears its own

genuine fruit, showing its true origin and nature. The parasite of error also bears its own fruit, and makes manifest that its character is diverse from the plant of heavenly origin.

It is through false theories and traditions that Satan gains his power over the human mind. We can see the extent to which he exercises his power by the disloyalty that is in the world. Even the churches that profess to be Christian have turned from the law of Jehovah, and have erected a false standard. Satan has had his hand in all this; for by directing men to false standards, he misshapes the human character, and causes humanity to acknowledge him as supreme. He works counter to the holy law of God, and denies God's jurisdiction. It is at his throne that every evil work finds its starting point and obtains its support.-- Review and Herald, Oct. 22, 1895. {Ev 589.2}

Francis Addresses the United Nations

In the Pope's visit to the United States, having completed his address to Congress he proceeded to the United Nations to present his encyclical *Laudato Si'*. We see the thorough planning of Jorge Mario Bergoglio from the very beginning using the name **Francis of Assisi** and *Laudato Si'* care for our common home, which at its heart calls for a Sabbath rest as

part of its ecological push. What is presented is everything that occultist Alice Bailey 10-point plan entails as a counterfeit to truth. The Sabbath, ecology, vegetarianism.

The pope spoke against the "grave offence" of economic and social exclusion. His remarks were directed at the fundamental structure of the United States that has become powerful under the years in which the Papacy demised and through which the Papacy itself prospered through banking, real estate and criminal activities.

The United Nations 27 sustainable development global goals were initiated in 2015 to target the following...

- Energy use
- Meat consumption
- Travel
- Living space
- Material prosperity

Work life Balance

In 2015 the pope promoted **work-life balance**. Now being implemented globally with the aim of promoting Sunday rest which is central to **Laudato Si'**.

Now these ideas are gaining traction everywhere as part of government policy and part of the UN agenda.

From the European Sunday alliance.

European Interest Group WORK-LIFE BALANCE

First European Interest Group WORK-LIFE BALANCE launched!

3rd March 2015 – On the very day when the European Day for a Work Free Sunday is celebrated across Europe, at the EU Parliament, and in the presence of MEPs from different political groups, the European Sunday Alliance launched the first European Interest Group on WORK-LIFE BALANCE. For the first time, the interest group - supported by representatives of politicians, trade unions, business executives, family and sports organisations and representatives of churches and religious communities - brought together 50 people to discuss how to ensure that EU legislation respects and promotes workers' health and promotes a better balance between family and private life and work. Participants shared the consensus, that these objectives do not conflict with the objective of economic competitiveness, in the contrary. Competitiveness needs innovation, innovation needs creativity and creativity needs recreation.

The event was held under the patronage of MEPs Evelyn Regner (S&D) and Thomas Mann (EPP). Last year, many of the MEPs present signed the **European Sunday Alliance pledge**.

The issue of **work-life balance**, decent working hours and synchronised free time for all citizens in Europe is important for many reasons: at a personal level for time together with family and friends, social, cultural or sports activities, at a spiritual one as a day of rest and religious edification and above all to ensure an adequate time of rest. A lack of work-life balance often leads to absenteeism, psycho-social stress at work and burn-out and it has a clear negative impact on the economic productivity.

The relevance of the topic becomes even more evident as the European Commission refers in its ongoing **public consultation** on the review of the Working Time Directive to fundamental changes, which have occurred in the world of work and the economy and that impact on many aspects of the organisation of working time. The members of the interest group on work life balance believe that the current legislation does not sufficiently address the issue of balance between work and private life and does not ensure that workers can enjoy a common weekly day of rest. A thorough reflection and discussion on how to best ensure the protection of EU citizens' work-life balance is therefore urgently needed.

Interest Group provides the right format and opportunity to bring Members of the European Parliament and representatives from civil society and other organisations together. It will offer a platform a regular and informal exchange of views, knowledge and expertise on the different aspects and actors involved to ensure a better work-life balance for all.

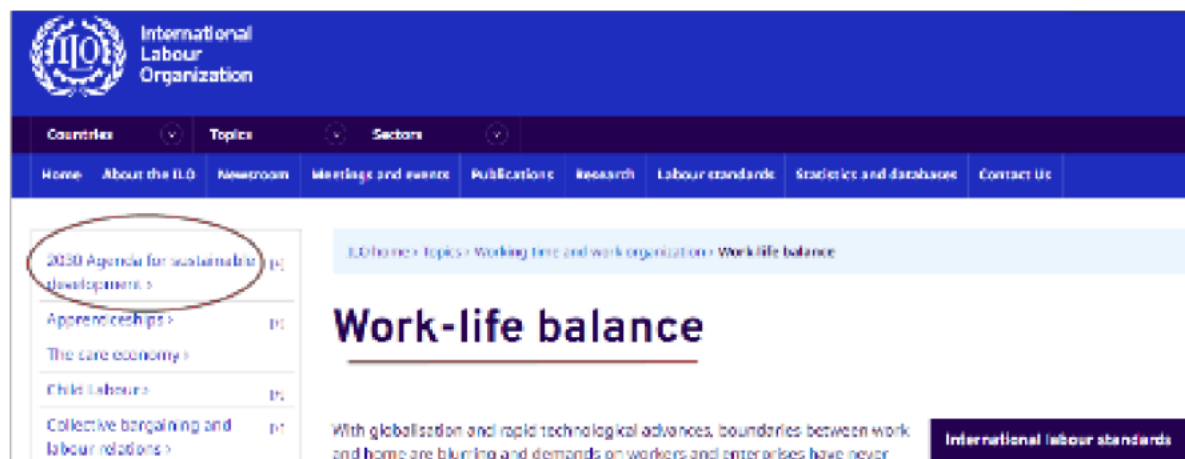

This was the first of a series of events that will address the issue of work-life balance and that will continue for two years from now.

The next meeting of the Interest Group will take place on **1 June 2015**. Prof. Rosa from the German Friedrich-Schiller-University of Jena will be speaking about the acceleration of time under a sociological perspective.

This is nothing new with the same crisis obverted in the USA 1888 known as the Blair Bill which was brought before the senate May 25th. **'There is no use in disputing the fact that the Sunday question is fast becoming the leading question of the day. Large conventions of ministers are held solely to secure its enforced observance by the civil power; the W. C. T. U. works it up all over the United States; Prohibition Conventions put it in their platforms; Legislatures, both State and National, from beginning to end of their sessions are petitioned for the enactment of stringent laws in its behalf; the religious papers of the country lift up one united cry that it must and shall be preserved; political conventions are "worked" and Legislatures are "lobbied" in the interests of the Sunday; Knights of Labor, working-men's unions, and Socialists call loudly for laws enforcing its observance; and colleges and religious publication societies offer large prize essays for arguments to sustain it.'** A T Jones

If you look up work life balance it is everywhere to be found.

God said:

Remember the sabbath day, to keep it holy. Six days shalt thou labour, and do all thy work: But the seventh day [is] the sabbath of the LORD thy God: [in it] thou shalt not do any work, thou, nor thy son, nor thy daughter, thy manservant, nor thy maidservant, nor thy cattle, nor thy stranger that [is] within thy gates: For [in] six days the LORD made heaven and earth, the sea, and all that in them [is], and rested the seventh day: wherefore the LORD blessed the sabbath day, and hallowed it. {Exodus 20:8-11}

Satan's method

The Catholic church, who was inspired by ambition, and thirst for power, perceived that if the same day was observed by both Christians and the heathen, it would promote the nominal acceptance of Christianity by pagans, and thus advance the power and glory of the church. But while Christians were gradually led to regard Sunday as possessing a degree of sacredness, they still held the true Sabbath as the holy of the Lord, and observed it in obedience to the fourth commandment. {GC88 53.1}

The arch-deceiver had not completed his work. He was resolved to gather the Christian world under his banner, and to exercise his power through his vicegerent, the proud pontiff who claimed to be the representative of Christ. Through half-converted pagans, ambitious prelates, and world-loving churchmen, he accomplished his purpose. Vast councils were held, from time to time, in which the dignitaries of the church were convened from all the world. **In nearly every council the Sabbath which God had instituted was pressed down a little lower, while the Sunday was correspondingly exalted.** {Great Controversy p53}

The man of sin

In 2015 the scandal just kept on unfolding while the pope was doing a deal with the nations.

Let no man deceive you by any means: for [that day shall not come], except there come a falling away first, and that man of sin be revealed, the son of perdition; Who opposeth and exalteth himself above all that is called God, or that is worshipped; so that he as God sitteth in the temple of God, showing himself that he is God. (1 Thessalonians 2:3,4)

In written form it's hard to relay the amount of homosexuality throughout the Vatican. Priests living lavishly, using gay escorts, night clubs and brothels while holding high positions as priests in the church which has been documented and videoed by Carmelo Abbate. His book 'Sex & the Vatican'.

Using hidden cameras, the weekly Panorama, owned by Italy's prime minister, Silvio Berlusconi, captured priests visiting gay clubs and bars and having sex.

Vatileaks scandal: Vatican properties 'used as brothels and massage parlours where priests pay for sex,' claims report

Some observers believe the leaks are part of a campaign to undermine Pope Francis's effort to reform the Curia

2015: While Pope Francis was addressing US congress speaking at the UN, presenting his vision for the world for the Paris Agreement & gaining support, calling for repentance, Rome was again hanging out her dirty undies.

Vatican-owned properties in Rome are operating as seedy saunas and massage parlours where priests pay for sex, according to the latest in a series of leaked reports to embarrass the Church.

In March, the Pope's own household was rocked by scandal when court documents revealed a Vatican chorister had procured male prostitutes for a papal gentleman-in-waiting.

'Vatican-owned properties in Rome are operating as seedy saunas and massage parlours where priests pay for sex, according to the latest in a series of leaked reports to embarrass the Church.

It is also claimed that Vatican officials are allowing buildings to be rented out at peppercorn rents as favours to powerful colleagues and turning a blind eye to shady property deals, as well as allowing addresses to be used as

red-light establishments.

Among the properties mentioned in the document, made public by a Vatican mole, are premises in two streets close to the Italian Parliament and a solarium near Piazza Barberini, according to press reports.

One particular Vatican department, the Congregation for the Propagation of the Faith, has been highlighted in the list. It owns hundreds of high-value properties in central Rome, worth hundreds of millions of euros.

Two years ago it emerged the Vatican had purchased a €23m (£16m) share of a Rome apartment block, 2 Via Carducci, which housed the Europa Multiclub, Europe's biggest gay sauna. Tales of visiting priests were legion, and a section of the sauna's website promoting special "bear nights" included a video of a hirsute man stripping down and changing into a priest's outfit.'

"VATICAN CITY (AP) -- Frustrated by what she described as Vatican stonewalling, an Irish woman who was sexually abused by clergy quit her post Wednesday on a panel advising Pope Francis about how to protect minors from such abuse.

Pope Francis set up the commission three years ago, saying its job was to 'propose to me the most opportune initiatives for protecting minors and vulnerable adults, in order that we may do everything possible to ensure that crimes such as those which have occurred are no longer repeated in the church.'

The Paris Agreement

Signing ceremony of the Paris Agreement by the nations of the world was held on April 22 2016, the basis of which is the Pope's encyclical. More than 190 countries signed the agreement to tackle climate change but the EU

Environment Programme said it was not enough to curb climate change. Western nations will share the cost of developing countries. Bill Gates representing his very own unique nation.

John Kerry our skull & bones man would become the US climate czar following Biden's election.

Information war. Vatican meets media heads 2016

The influence of the Papacy on America media gave them the ability to influence censorship and shut down 'misinformation' or even presidents.

In January 2016 the Pope met with Tim Cook CEO of apple and the Apple CEO and apple team returned to the Vatican for the second time on 3rd October 2022.

During 2015 Apple CEO Tim Cook told the nation through The Washington Post as given in the words of the headline, 'Pro-discrimination religious freedom laws are dangerous.' Also at play is Tim Cooks ideas of anti-discrimination laws as a gay man.

Eric Schmidt, executive chairman of Google parent company Alphabet, (and Jared Andrew Cohen who heads google ideas) also had a private sit-down with Pope Francis in the Vatican, January 2016.

March 2016, Pope Francis gathered thousands of journalists and media agencies from nearly 82 countries inside the Paul VI Audience Hall.

In May 2016 he had audience with youtube bloggers.

In August of 2026 Zuckerberg and his wife, Dr. Priscilla Chan, met Pope Francis Monday at The Vatican where they discussed one of the Facebook CEO's favorite topics: connecting the world.

The Pope honoured actors in an educational conference at the Vatican, which was attended by actors including Salma Hayek, Richard Gere and George Clooney, who was accompanied by his wife, human rights lawyer Amal Clooney.

The focus of the meeting with the media heads is to get out the word on climate change, thus elevating the Pope's encyclical.

'The Guardian's business team, including our transport and energy correspondents, devotes a significant part of its coverage to environment and the climate crisis. "We do not need the FBI and CIA and other federal agencies viewing us as the enemy and attacking our Constitution. End the Fed...and end the Federal Bureau of Investigation" Paul concluded, referencing his long-standing call to liquidate the US' privately-held central bank.

FBI agents emailed Twitter Trust and Safety chief Yoel Roth about 150 times between 2020 and 2022, according to internal communications released by platform CEO Elon Musk earlier this month, with most messages involving requests for censorship. However, even as Musk was releasing the Twitter documents, former FBI general counsel turned Twitter lawyer Jim Baker was 'vetting' the messages, allegedly without Musk's knowledge. When this was brought to the billionaire's attention, Baker was dismissed – but not before he had reshaped the narrative.

Twitter has reportedly hired dozens of FBI agents and other intelligence and military veterans in recent years, raising questions about the platform's impartiality even before a lawsuit filed by the Missouri and Louisiana attorneys general revealed earlier this year that employees were regularly meeting with representatives of US government agencies to coordinate the banning and suppression of certain accounts and narratives.

The FBI used proprietary backchannels at Twitter to infringe on Americans' First Amendment rights and it should be "abolished," former US Republican presidential candidate Ron Paul stated on Monday.

While Twitter has previously skirted accusations of violating Americans' right to free speech by arguing it is a private corporation, Paul pointed out that recently released internal communications between employees of the social media giant and government officials in the FBI and other agencies confirm the platform was acting as a surrogate of the state.

"Now we have proof that the FBI (along with US intelligence agencies and the Department

For the first time in 2015 the Vatican mobilized local officials for grass-roots action on climate change and its detrimental effects on marginalized people. The pope and 60 mayors from around

the world signed a declaration stating that ‘human-induced climate change is a scientific reality and its effective control is a **moral imperative for humanity.**’

Pope Francis speaking to the UN on Urban development in the year 2015 straight from his encyclical Laudato Si’.

The UN Sustainable Development Solutions Network, the UCLG, ICLEI, and C-40, will work together with universities, city governments, social movements, UN agencies, the Pontifical Academy of Sciences and the Pontifical Academy of Social Sciences, and others to establish the SDG Urban Alliance, with the following objectives:

- Helping cities to achieve the SDGs, including to end extreme poverty and hunger; ensure gender equality and gender-sensitive solutions; and guarantee universal access to health, education, and other vital services;
- Urging national and state governments to empower cities to fulfill their SDG responsibilities, including through appropriate devolution of powers and finances;
- Helping citizens and businesses everywhere to understand the SDGs;
- Helping cities to create SDG-based plans;
- Cutting corruption and impunity that undermine sustainable development;
- Identifying pathways to decarbonize the energy system in order to keep global warming below 2-degrees C;
- Promoting and strengthening universities to be innovation hubs for sustainable development;
- Creating new channels for urban sustainable financing and long-term planning;
- Creating decent and sustainable jobs, ensuring human rights, and helping to end homelessness;
- Ending human trafficking and all forms of modern slavery, including through strong commitments to these goals within the SDGs;
- Work with UN-Habitat and other partners for the great success of Habitat III in Quito in 2016.

The Urban SDG Alliance will have its launch on September 24, 2015, near the United Nations, on the eve of the global adoption of the SDGs. We welcome all partners in this new alliance and invite all partners to the launch on September 24.

‘The quality of life in cities has much to do with systems of transport, which are often a source of much suffering for those who use them. Many cars, used by one or more people, circulate in cities, causing traffic congestion, raising the level of pollution, and consuming enormous quantities of non-renewable energy.

This makes it necessary to build more roads and parking areas which spoil the urban landscape.

Many specialists agree on the need to give priority to public transportation. Yet some measures

needed will not prove easily acceptable to society unless substantial improvements are made in the systems themselves, which in many cities force people to put up with undignified conditions due to crowding, inconvenience, infrequent service and lack of safety.' From the Pope Francis encyclical, Laudato Si'

Sorbonne professor **Carlos Moreno** coined the term "15-minute city" back in 2016 being architect for Jane Jacob's concepts. People would be able to walk or ride to get all their basic needs in 15 minutes relying on the infrastructure.

6 goals for a happy city according to Moreno

1 Good housing conditions

2 Decentralise work & reduce long daily journeys

3 Local grocery shopping in proximity

4 Health services in vicinity

5 Spiritual needs- churches & mosques in vicinity

6 Leisure

Carlos Moreno: 15 minutes to save the world

Carlos Moreno has combined an active social conscience and scientific expertise to create the 15-minute city for the good of people and the planet

In this structure there is no separation of work and home. Moreno says: 'The 30-minute territory is no different with respect to the six core functions, it merely **has more reliance on digital technology and transport infrastructure**...But if his Paris experience has taught him anything, it's that the city is a battleground'.

Paris will remove 60,000 parking spots and aims to be car free by 2024. Cars are already banned on one Sunday a month. 15-minute city buildings are multi-purpose such as schools used for multiple activities.

If COVID taught us anything, it's that we really don't like commuting. Adapting to working from home five days a week had its challenges, but not many people missed sitting in traffic or standing on a crowded train for a couple of hours a day.

The idea of relocating cities — turning them into collections of villages — has been around for a while. But when Sorbonne professor [Carlos Moreno](#) coined the term "15-minute city" back in 2016, it started to get more attention.

What are we told here Covid was used for climate change agenda. 15- minute cities are in fact the future prisons.

Clover Moore elected in 2005 as Sydney mayor and still in her 4th term, has initiated Sustainable Sydney 2030, supporting the UN/ Vatican agenda, pushing their 'progressive views'. Once, there was a complaint about me to the local parish priest, and he said: "What

have you been doing that's upsetting the Church?" It turns out, the fact I'd been in Mardi Gras on the Saturday night and doing a reading in church on the Sunday had caused great alarm.

Now all those controversial aspects of these elected officials become clear. It's not just one person with brilliant or crazy independent views at work here.

Lord Mayor Clover Moore announced Sydney will launch a new mentoring scheme to support the next generation of women climate leaders. Women4Climate Conference in 2020.

As you look at Sydney Australia centre today it appears that things are really improving. The inner city is becoming more residential with offices being sent to Parramatta and cycle ways

are present on the streets. The main street of Sydney now has returned light rail similar to trams which were once present and people can walk where there use to be cars. The light rail crosses the city centre. It would appear that Clover is just a brilliant visionary but she has a lot of help from a worldwide network of which Sydney is just one city from across the world in transition from the UN agenda.

Changes to the Sydney's city to remove cars

Covid was a time to speed up the light rail construction while the city of Sydney was emptied and also a time to empty offices with many continuing to remain empty. Offices have been moving to the new commercial centre of Paramatta and high-cost residences with improved Park and bike ways replacing the old city structure. The whole face lift in the centre from heavy traffic is really nice, especially for the elite who can afford to pay millions for the city centre, a luxury beyond the reach of most but assessable to foreign investment often linked to crime syndicates. Meanwhile houses built outside the centre leave their owners at the mercy of the climate crisis with houses built to the fence lines and dark

roofs with tiny backyards experts say. Sydney is far from a pleasant urban sustainable development. Sustainable urban development is really a conference dream not an urban reality and if possible, they will have everyone renting to pay their pockets.

Sydney has been a place of fortunes, the Dubai of China as Australians through government policies sold their heritage to wealthy investors but what about the ongoing generations?

Some of Australia's most expensive real estate is being bought by global crime syndicates, one of the country's top crime-fighting bodies says.

So worried are they about the influx of dirty money that the Australian Crime Commission has launched an investigation looking at money laundering and terrorism financing through property.

In God's plan for Israel every family had a home on the land, with sufficient ground for tilling. Thus were provided both the means and the incentive for a useful, industrious, and self-supporting life. And no devising of human beings has ever improved upon that plan. To the world's departure from it is owing, to a large degree, the poverty and wretchedness that exist today.

That fiftieth year shall be a Jubilee to you; in it you shall neither sow nor reap what grows of its own accord, nor gather the grapes of your untended vine.... And if you sell anything to your neighbor or buy from your neighbor's hand, you shall not oppress one another. {Leviticus 25:11-14}

What occurred in Paris during the French Revolution is occurring worldwide. **Paris became one vast almshouse, (people on welfare)** and it is estimated that, at the breaking out of the Revolution, **two hundred thousand paupers claimed charity from the hands of the king. The Jesuits alone flourished in the decaying nation, and ruled with dreadful tyranny over churches and schools, the prisons and the galleys.**" {Great Controversy published 1888 p279}

Get Out of the cities

The end is near and every city is to be turned upside down every way. There will be confusion in every city. Everything that can be shaken is to be shaken. **All the cities are soon to be destroyed by fire and brimstone.** Why would you want to go into a city [like San Francisco] which has so recently suffered under the judgment of God, and build a home there? **Get out of the cities. the experience of San Francisco impress you with the importance of moving out, not moving in. {Last Day Events published 1906}

Vatican Bank trouble

The Reverend Paul Marcinkus, from Chicago, had been appointed by Pope Paul VI in 1971 to head the Vatican Bank in 1971. The archbishop had no previous specialist knowledge of international banking but was sent to Harvard University for a six-week crash course to learn international banking. Obviously perfect for the job.

During the 1980s, the archbishop got involved with a Mafia-linked Sicilian banker called Michele Sindona, and then with an Italian financier called Roberto Calvi, president of the Banco Ambrosiano, which eventually collapsed with huge debts involving losses of at least \$250m.

Roberto Calvi eventually ended up dead, hanging from a rope on Blackfriars Bridge in London, victim of a faked suicide. 'The archbishop was wanted for questioning by Italian prosecutors, not in connection with what turned out to be a Mafia murder, but over the Vatican Bank's losses incurred through the setting up of phony offshore shell companies in the Bahamas.' The bank consisted of a desk, a secretary and a telephone and people would fly and could receive up to \$75m dollars in deposits in a single day in cash! (See Paul L Williams' Operation Gladio') Vatican bank money laundering was used by the CIA for purchasing arms, for coups, funding right wing groups.

So, following the Jesuit Pope's promise to clean up the Vatican bank Pell was brought in to clean up finance, someone with questionable links and brushes with the law over Paedophilia right at the time the scandal was at its height. The scandal of the Vatican Bank and paedophile activity worldwide primarily by the priests of Rome should have shown the world that the Vatican has serious problems that discredits it as a world leader but this was ignored and **the kings of the earth have committed fornication, and the inhabitants of the earth have been made drunk with the wine of her fornication. {Revelation 17:2}**

Over and over again homosexuality and paedophilia pops-up in all aspects of Vatican life and has followed in the political world. The highest initiation in the occult is the act of homosexuality.

Scandal-hit Vatican bank struck by 'gay lobby' conspiracy claims Italian magazine

Monday, July 22nd 2013 - 00:22 UTC

Full article 3 comments

A few hours before Francis started his first overseas tour to Brazil, the Vatican's 'gay lobby' was back in the headlines after the alleged exposure of a homosexual prelate appointed by the pope to a key position at the Vatican bank, IOR.

The Italian weekly L'Espresso said prelate Battista Ricca had gay relationships during his time at the Vatican embassy of Montevideo in Uruguay as well as an affair with a Swiss guard which ultimately saw him sent back to Rome in disgrace.

Vatican expert for L'Espresso Sandro Magister said Ricca provided lodgings and a pay check for captain Patrick Haari in 1999 and was once left badly beaten after trawling notorious gay hangouts before his behaviour saw him transferred out of Montevideo in 2000.

An internal bid to protect him and cover up the scandal meant Francis apparently had no idea about Ricca's past before he appointed him to his present position at the Vatican bank.

Censorship, compelled speech, free & hate speech

Example of censorship could be endless. From the shutting down of Trump on twitter to 'covid misinformation'. Youtube would block any adverse effects from the mRNA vaccination however this all changed in 2022. Why? The pandemic lockdowns were over and it was no longer present but

past truth. The goals had been achieved and now not wanting to loss everyone to the alternative platforms they allowed some alternative views to come through. Censorship in increments.

Layers of laws were similarly being laid in Australia at a time an ABC investigation published leaked documents in 2017 called The Afghan Files, which included allegations of unlawful killings by Australian troops which led to police raid on the ABC and court proceedings. 'Police raiding the ABC is a sign of where Australia is heading.' The ABC like the BBC is the government funded voice to the people. And obviously someone had stepped out of line.

Compelled speech.

Straight from the time of the inquisition is the idea of **compelled speech**.

It means the government compels individuals or certain groups to convey certain messages and to not comply but voicing another opinion is considered racist or hate speech which could be followed by legal proceedings.

Forced behaviour represents compelled speech and violates the free speech clause of the First Amendment.

Issues surrounded gay rights vs freedom of conscience and speech to refuse for example making a cake for a gay couples wedding or developing a web site for same sex couples which became a first amendment issues tried in the supreme court. The principals of the UN were attacking the US constitution.

In Canada is example of the western nations. In

2016, an Act to amend the Canadian Human Rights Act and the Criminal Code- Bill C-16. Canadians were assured the bill aimed only to add gender expression and gender identity as protected grounds against discrimination. The bigger picture is UN using gay rights for their own purposes.

In December 2017, an Australian gay lawmaker popped the question to his partner in, the first ever proposal in the parliament coming shortly after a bill paving the way for same-sex marriage was introduced as part of the 2020 agenda.

"In my first speech I defined our bond by the ring that sits on both of our left hands -- that they are the answer to the questions we cannot ask," the 37-year-old lawmaker from the ruling conservative party said.

"So there is only one thing left to do: Ryan Patrick Bolger will you marry me?"

Bolger, who was sitting in the public gallery, quickly responded "yes" as the floor erupted in applause.

"That was a 'yes', a resounding 'yes'," house speaker Rob Mitchell noted for the record.

"Congratulations, well done mate."

There was joy in Parliament at this bold and progress move that comes straight from Alice Bailey's note book or Spartan history.

For the first time in history, a transgender person was confirmed for a presidential appointment. Joe Biden nominated Pennsylvania Secretary of Health Dr. Rachel Levine to serve as assistant secretary of the Department of Health and

Human Services. Ran Paul questioned Levine on the right for children to change their sexual identity and use hormone treatments.

The throne of God is surrounded by a rainbow reflecting the light of His glory and His power through light. On earth the rainbow has been used as the symbol for gay pride. This is being brought to us through the UN into government legislation and into education.

Drunk with the wine of Babylon

In Norway for just saying the wrong thing on facebook you could be under investigation. This is the United Nation's occult policies in action. A Norwegian feminist Lesbian filmmaker and actress Tonje Gjevjon has found herself under police scrutiny when she said: 'Jentoft, who is male and an advisor in the **Norwegian Organisation for Sexual and Gender Diversity** (FRI), presents himself as a lesbian – that's how bonkers the organization which supposedly works to protect young lesbians' interests is. How does it help young lesbians when males claim to be lesbian, too?'

'Heterosexual Lesbian Men' such as Jentoft have been granted the power to report other men and women who do not wish to accept the 'bullshit of gender identity' and refuse to '**conform to this crazy religious regime.**' After again making facebook comment in October Gjevjon now faces up to three years in prison after Norway's parliament outlawed hate speech against transgender people in 2020.

In Canada, a Canadian school board is standing behind a trans teacher who sparked protests after turning up to classes with

'clownish' giant prosthetic breasts.

Lemieux has Z-size prosthetic breasts and wears a blond wig. Students have been threatened with suspension for

photographing transgender shop teacher Kayla Lemieux.

We find the ABC, the Australian BBC equivalent, once considered reliable conservative news broadcaster, funded by the government, the forerunner of the UN agenda with climate change, sustainability and LGBT stories and rights being aired constantly.

God is withdrawing His Spirit from the wicked cities, which have become as the cities of the antediluvian world and as Sodom and Gomorrah. . . . the law of God is made void. We see and hear of confusion and perplexity, want and famine, earthquakes and floods; terrible outrages will be committed by men; passion, not reason, bears sway. The wrath of God is upon the inhabitants of the world, who are fast becoming as corrupt as were the inhabitants of Sodom and Gomorrah. {T8 1904}

Hate speech's three important attributes according to the UN:

1

Hate speech can be conveyed through any form of expression, including **images, cartoons, memes, objects, gestures and symbols** and it can be disseminated offline or online.

2

Hate speech is **"discriminatory"** (biased, bigoted or intolerant) or **"pejorative"** (prejudiced, contemptuous or demeaning) of an individual or group.

3

Hate speech calls out real or perceived **"identity factors"** of an individual or a group, including: **"religion, ethnicity, nationality, race, colour, descent, gender,"** but also characteristics such as language, economic or social origin, disability, health status, or sexual orientation, among many others.

“Social media provides a global megaphone for hate.”

ANTÓNIO GUTERRES, *United Nations Secretary-General*, 2021

“Hatred is a danger to everyone – and so **fighting it** must be a job for everyone.”

ANTÓNIO GUTERRES, *United Nations Secretary-General*, 2021

Hatred speech is a danger to everyone, even **feminist Lesbians** who say the wrong thing and could find themselves in prison. This is only just the beginning of where this is going.

By 2020 church gatherings were no essential and police stopped those who refused to obey the covid lockdown laws. In 2021 however it actually came down to what was said at the pulpit. A Canadian Christian pastor was told to follow the covid 19 narrative when speaking from the pulpit.

The focus is disinformation that strays away from the official UN narrative that insights 'right-wing extremism'

In our post WWII history of terrorist activity, it was revealed after many decades that NATO and the CIA had infiltrated the secret service and used right wing groups to cause false flag ops to turn public perception against communism. But that wasn't just the ultimate aim of these activities. It was to use the two opposing sides to destroy each other until the Vatican would take the reins, as in the dark ages. The US was part of this strategy for its own aims of leading the New World Order. This is who incited and used right-wing extremism.' At this point the focus is domestic surveillance and terrorist who are to be silenced while the UN implements its policies worldwide.

Mr Burgess ASIO chief said in April 2021, 'Given the growth in nationalist and racist violence we have seen, we anticipate there will be a terrorist attack in this country in the next 12 months.'

Mr Burgess was speaking before an inquiry into extremist groups and radicalism in Australia that is being run by the Joint Committee on Intelligence and Security.

In December 2022, one and a half years later, the Wieambilla police killings by Gareth and Nathaniel Train in Queensland raise many questions. For example, why four police were sent onto a property for one missing person that ended in 6 dead? Two young police were killed who had not been in the

force for long and their neighbour was also killed which is tragic. The perpetrators of the crime who were also killed were antivax and resigned from their teaching positions because of the vaccination policies. The radicalisation and conspiracy of these people and of course where that leads may be an example of broader, concerning trends we are told. They had 'sovereign citizen ideas,' which is the aim of the United Nations to eradicate. So, what has happened here is UN policies have caused fanaticism which is called radicalisation and insightful crimes.

Just one week before the killings, 25 people were arrested in Germany – many associated with the conspiracist Reichsbürger movement – for plotting to overthrow the government.

New Zealand security services launch initiative to help public identify warning signs of violent extremism

A guide from NZ's security services details dozens of indicators that a friend or family member could be planning a terror attack. Credits: Image - Getty Images; Video - NewsHub

Our secret service is launching an initiative to help us identify people who may have been radicalised.

The guide, titled 'Kia mataara ki ngā tohu - Know the signs', a guide for identifying signs of violent extremism, details dozens of indicators that a friend or family member could be planning a terror attack.

In November, a New Zealander – Graham Philip – became the first person in the country's history to be convicted of sabotage after trying to bring down the North Island's power-grid in protest against the government's COVID-19 restrictions and vaccine mandate. Like Train, Philip also publicly expressed beliefs in several conspiracy theories. It's just a theory, right? There's nothing happening in the news around us that would indicate anything of a sinister nature?

New Zealand security services published a guide to help identify potential terrorists in our midst. Report anything suspicious. It could be white identity, or their faith or political. Policies that are interrupted as infringing on rights fuelled by conspiracy theories, makes every New Zealand protestor a suspect as a domestic terrorist.

Wherever truth is raised fanaticism is sure to also rise as the enemy from within. Radical extremism is but a tool in the hand of the enemy that benefits

those promoting the New World Order. Fanaticism, once started and left unchecked, is as hard to quench as a fire which has obtained hold of a building which is what happened in Wieambilla. As God's spirit empowers His people so also the enemy works on unstable minds to counteract the work whether it is exposing the truth, casting aspersions on truth, creating resistive laws or counteracting God's messages of present truth. In the world the devil works to use fanaticism that creates legislation that makes bondsmen when we should be free.

Of course, this reflect movements in the US that are nationalistic and now targets right-wing ideology checking for who are domestic terrorists. Could we say that the engineering of consent is but a step from leading the west into fascism.

The engineering of consent is the very essence of the democratic process, the freedom to persuade and suggest.

Forming an image to the beast: its infancy

Trump Triumphant

The presidency of Trump was a surprise for most. I had a good idea of him becoming America's next president from what an evangelical lady from Michigan had said to me and from unfolding news stories, together with what prophecy said- that there would be a religious political event in the US that would alter the course of the world in the near future.

I heard this comment from the American lady of the evangelical support for Trump and at the same time 'TIME' magazine published an article about 900 prominent evangelical leaders meeting with Trump at the Trump tower in June 2016. Donald Trump was introduced to the evangelical leaders by former presidential running mate, Dr Ben Carson. 'On the role of Dr. Ben Carson, who pulled out of the race for Republican nomination earlier this year and endorsed Trump, Moore said the retired neurosurgeon will convene the meeting and deliver an address to all those in attendance.' I believe

Ben Carson has made a mistake to become involved in politics and what his influence on June 2016 may have created.

Another thing it taught us and we should have learnt from the Obama run for the presidency is that the opinion polls are used for persuasion and are not accurate. Opinion polls were not accurate in the Ron Paul's run for the presidency nor for Trump nor for the recent Australian federal elections. It is important right from the start to recognise that Trump was Jesuit trained at Fordham University and some have questioned his association with freemasonry.

THE RISE OF CHRISTIAN NATIONALISM WE COULD SAY HAD ITS BIRTH IN THE POLITICAL ARENA THE DAY BEN CARSON INTRODUCED DONALD TRUMP TO EVANGELICAL LEADERS.

Paula White prosperity Pentecostal leader admired by Trump, Mike Pence waiting in the wings to take the reigns as a born again evangelical catholic. Prophecy & prayer & daily worship are part of this Administration. It teaches us that prayer alone does not put us on God's side but doing His will which is expressly stated in the 10 commandments.

Those who claim to believe the truth, and yet spend their time in making political speeches, are changing leaders. They cannot claim the privilege of being subjects of the heavenly kingdom.-- Manuscript 177, 1899, p. 8. ("The Medical Missionary Work," May 10, 1899.)

When Trump said making America great again, I wish it was that which the founding father of America had laid down in the constitution to make it a great nation. **'Republicanism and**

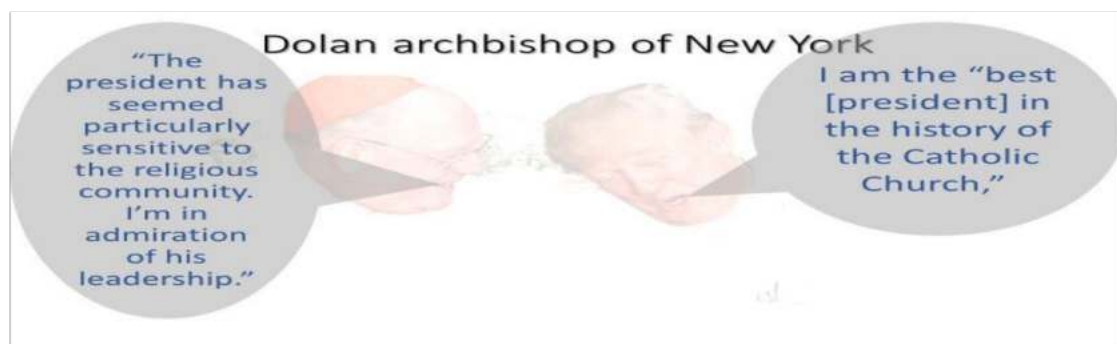

Protestantism became the fundamental principles of the USA' with the pledge of allegiance in 'God we trust' as illustrated by a beast coming out of the earth with two lamb like horns- one horn representing Republicanism and the other Protestantism.

However, in Trump's speech at the Al Smith Memorial Dinner he says, **'We can also agree on the need to stand up to anti-Catholic bias, to defend religious liberty and create a culture that celebrates life.'** Such a statement shows

the way the thinking has changed in American society. The tables have turned away from the reformation ideals that made the US great, to tout religious liberty views as rewritten by Vatican-II, as if they were the heralds of religious freedom but in fact the Jesuits were the emissaries of despotism and torture. That is a fact of history!

The Al Smith Memorial Dinner is the who's who in the American Catholic world. To the right Trump, Archbishop Timothy Dolan and Hillary Clinton. 'Only by terrible struggles has the right of religious liberty been maintained. When the stake and the scaffold proved ineffectual to destroy the Reformation in Germany, popery summoned her armies, the Catholic States banded together to crush out Protestantism....The reaction of Christians to antichristian laws was to have someone to enforce such by the state in their favour and for the first time it was possible through Trump. This was a Jesuit 'strategy of tension' ideology which had permeated western society.

While Donald Trump did not receive a salary the rest of his family did in an unprecedented move to position his family into important jobs.

To be clear the image to the beast is an image to the church of Rome that take on the role of enforcing and persecuting as did Rome during the dark ages. This is accomplished by a constitutional change that allows the church to rule the state, whereas American was founded on separation of church and state. Donald Trump's presidency was focused on 'religious liberty' according to Vatican II. Perceived Christian values are enforced through the state. It is through Catholics and the ecumenical movement that this has become possible for this to become a reality with Protestants moving away from their foundational teachings.

Trump's timeline of Presidency

June 2016: Nearly 1000 right wing conservatives met in the Trump Tower to better understand their policy positions.

November 2016: Winning 80-81% of white evangelicals to help him to the presidency

November 2016: Mike Pence was elected Vice President with an interesting description of his faith as a born again evangelical catholic which describes the interesting blend of religious belief dominating politics in USA today

January 2017: Travel ban of migrants to US
triggers religious uproar

February 2017: Appointment of Neil Gorsuch with evangelical background to the supreme court, seen as a victory for conservative Christians who wanted to retake the balance of power on the court

May 2017: Trump signs executive order
limiting the power of the Johnson Amendment allowing funding for political Christian candidates for US office.

May 2018: New U.S. embassy opens in Jerusalem backed by many conservative Christian and Israel seen as a step toward the building of the third temple.

Trump did what other president said but were afraid to do by recognizing *Jerusalem* as Israel's capital. Any recognition of Israel's control over the city will be welcomed by Israel, a close American ally, and be popular with pro-Israel *evangelical* Christians ...

The evangelical Christian's desire is to see the rebuilding of the temple in Jerusalem to herald the return of the Messiah. The fulfillment of prophecy shall come indeed but with a twist, for it is the coming of Antichrist. Lucifer shall come as Christ, an overwhelming delusion that will take the world by surprise.

Keep in mind these prophetic words: *And he shall plant the tabernacles of his palace between the seas in the glorious holy mountain; yet he shall come to his end, and none shall help him.* {Daniel 11:45}

May 2018: Prominent

evangelicals appointed to the U.S. Commission on International Religious Freedom. Tony Perkins, head of the Family Research Council, was appointed by Sen. Mitch McConnell in May 2018, but Trump himself soon appointed two others: Gary Bauer, another former president of the Family Research Council and director of the Christians United for Israel Action Fund; and Johnnie Moore, a former vice president of Liberty University and long-time faith adviser to Trump.

July 2018: Brett Kavanaugh appointed to Supreme Court seen as a “warrior” for religious liberty. At the circuit court level, Trump has installed 51 judges, or about 30% of all active judgeships, just one step before the US supreme court. Another report says 200 other judges with lifetime appointments to lower federal courts. Together these judges wield immense power over who gets to vote, who gets to marry, who has access to healthcare, who carries a gun, who is branded a criminal, who may join a union, who is protected from discrimination and who has permission to discriminate on religious grounds. Experts advise that it could take five years or more for the full picture to develop of how Trump’s judges are changing the courts...

December 7, 2018 William Barr appointed US Attorney General (the main legal advisor to the government), President Donald Trump announced Barr's nomination to succeed Jeff Sessions. Barr is a member of the Knights of Columbus a Catholic brotherhood formed in USA. Barr helped pave the way for the return of the death penalty after 17 years. Second term as Attorney General previously under Bush (1991–1993). ‘In 1992, Barr launched a surveillance program to gather records of innocent Americans' international phone calls. The DoJ inspector general concluded that this

program had been launched without a review of its legality.^[50] According to *USA Today*, the program "provided a blueprint for far broader phone-data surveillance the government launched after the terrorist attacks of Sept. 11, 2001." Known for Presidential coverups particularly the Iran contra scandal where weapons sales to Iran paid for the US fight against the contras in Nicaragua.

December 2018: Criminal Justice reform passed with ample support from evangelical leaders The law was seen as a triumph for many groups, but also evangelical Christians, who played an outsized role in getting both Trump and members of Congress to back the bill.

September 2019: Trump joins Modi at a rally shortly after India's Kashmir decision

October 2019: Pastor Andrew Brunson released after imprisonment in turkey for 2 years

November 2019: Paula White appointed to head the White House Faith & Opportunity Initiative. Paul White is a popular televangelist Pentecostal who has been a faith mentor to Trump over the last 15 years.

December 2019 to FEBRUARY 2020: Impeachment debate Congressional lawmakers on both sides of the aisle traded theological barbs over the issue, with representatives citing Scripture to defend their arguments and House Speaker Nancy Pelosi saying she was praying for the president throughout the impeachment process.

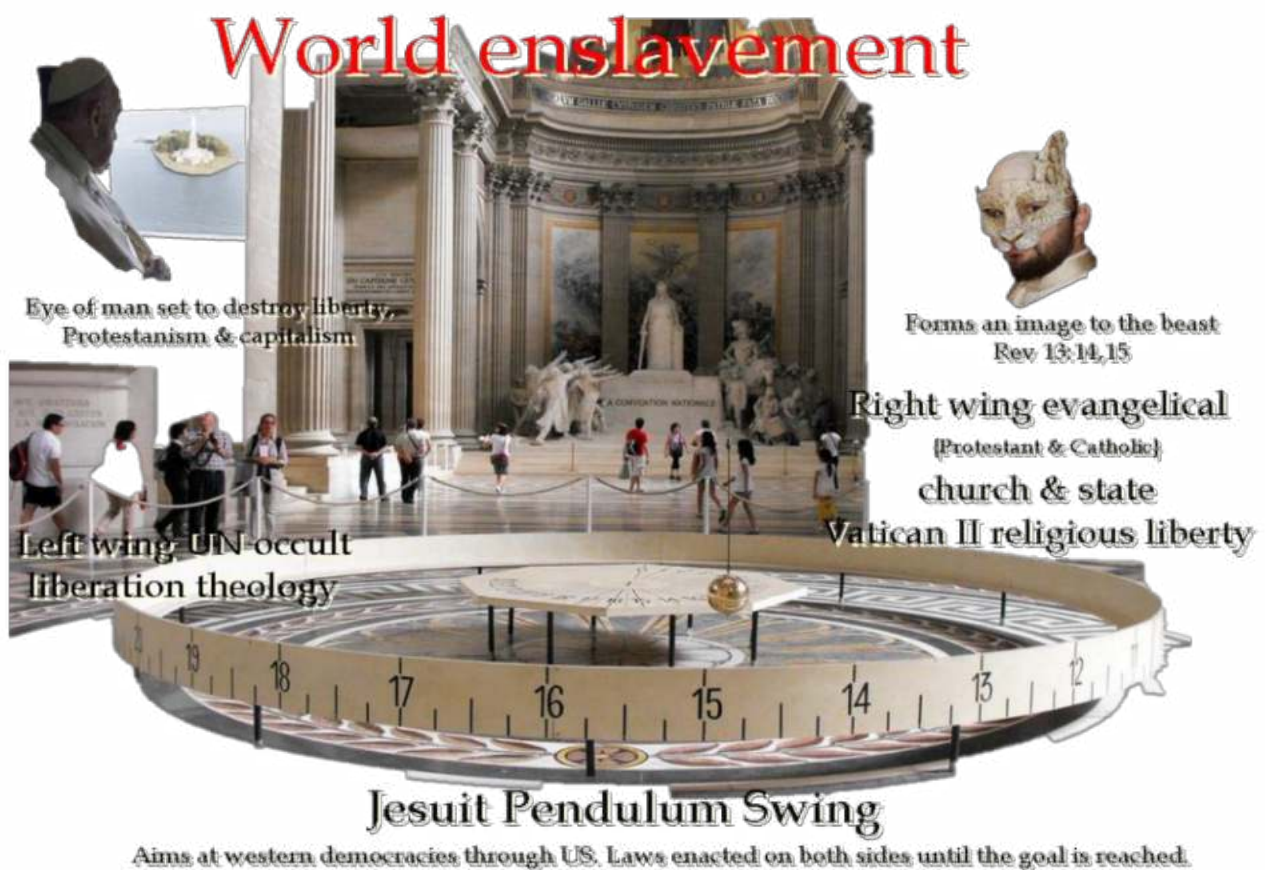

January 2020: Trump appears at March for Life Many participants — which included thousands of conservative Catholics and evangelicals — wore red hats and shirts emblazoned with Trump's campaign slogan "Make America Great Again."

May 2020: Trump declares churches "essential" conservative Christians in particular argued that banning worship infringed on religious liberty. Trump eventually weighed in and declared places of worship "essential," setting up a standoff between his administration and state governors, who ultimately have the authority to ban churches within their borders.

June 2020: The Bible photo-op is a sign of Trump allegiance to the Christian community though it does not go down well with some.

June 2020: Uighur Human Rights Act signed the Uighur Human Rights Policy Act of 2020 sanctioned the Xinjiang Communist Party Secretary Chen Quanguo and other Chinese officials over detention camps in China said to hold more than 1 million members of the country's Uighur Muslim minority. John Bolton's book also released at the time claimed that Trump encouraged Chinese President Xi Jinping to continue building the camps.

The primary legacy of the Trump presidency was placing right wing judges in court positions. The supreme court was all catholic appointments which are lifetime appointments with the idea of supporting 'religious liberty' allowing for the great possibility of a constitutional change.

Trump Prophecy

There was a U-turn in policies that affected the US and the world with the Trump presidency.

A different direction for the New World Order movement. This made the Bible prophecies interpretations based on Seventh-day Adventist historical teachings very clear as to the future not through the United Nations agenda alone but through an image to the beast in the United States through evangelical ecumenical movement. What began with Trump is not finished but is a growing movement of right-wing Christian nationalism. The United Nations agenda is being carried forward as agenda21, agenda30 and agenda 2050 but it must be headed under an American pseudo-Christian banner as described in Revelation 13.

Expect the evangelical prophecies to gain a greater momentum at this time. There are many evangelical prophecies besides claims by people like Mark Taylor 'who heard a special message from God about change in our nation' back in 2008 and said that Trump would win the presidency. Mark Taylor's predictions lead to a film based on a story by Orlando-based retired firefighter Mark Taylor that he named 'The Commander-in-Chief Prophecy.'

Pentecostals and charismatics believe in the supernatural "gifts of the Holy Spirit" are operative today and should be active in politics. The best-known is televangelist Paula White, who says she led President Donald Trump to the Lord long before Trump's 2016 presidential run. The prominent charismatic leader was named as adviser to the White House Faith and Opportunity Initiative. Of Trump's religious cabinet members like Pauls White claimed to have spiritual gifts like prophecy and speaking in tongues. Many prominent televangelists gave Trump their support. The Trump presidency has hugely benefited Paul White who gave the inauguration prayer and many other charismatic leaders including the PCPJ- a united

movement for charismatic and Pentecostals. The movement of Evangelical Pentecostalism in the US had mirrored success in Brazil with the election of right-wing president Jair Bolsonaro.

A letter of criticism addressed to Trump from the PCPJ says stop:

1. demonization of immigrants and minorities;
2. reckless nuclear war rhetoric;
3. loosening of environmental protection;
4. belittling and abuse of women;
5. disrespect of indigenous people;
6. inequalities between rich and poor; and
7. dishonesty and lying.

'The Bible chapter most important to Pentecostals – Acts 2 – is not just about speaking in tongues but also about economic equality.' In other words, these are charismatics for the UN agenda. This is where the worldwide Pentecostal movement is focused. Trump and others rejected climate change and 'as the coronavirus pandemic marches on, we're sad to report that the response of some Christians has been outrageously damaging,' What is not acknowledged is Trump has given them a voice they previously did not have and was opening only one door- religious liberty with the second door still to be opened.

To the Trump administration's credit daily worship was held everyday at the White House. However, it was not the aim of the administration to uphold the US constitution as it stood at its inception. For example, before the National Day of Prayer at the White House, the president hosted members of his evangelical advisory board at a dinner Wednesday night and met Roman Catholic leaders in the Oval Office before signing a new executive order to repeal the Johnson Amendment. The sign of constitutional change to bring church and state together were there in the presence of the priests.

The faith and freedom coalition was formed in 2009 and is American ecumenical Christian right. 'The 2011 conference was also held in Washington in June with several hundred attendees. Nearly all the Republican 2012 presidential hopefuls spoke,

including Gingrich, Tim Pawlenty, Mitt Romney, Michele Bachmann, Herman Cain, Jon Huntsman, Jr., Rick Santorum, and Ron Paul.'

The Faith and freedom coalition held their last conference continuing by name and strategy the 'Road to Majority' in June 2017 with Donald Trump and Mike Pence as premier speakers.

Road to Majority, author Eric Metaxas was one of those portraying Trump's election as a sign that God has given America one more chance to stave off His judgment, saying, 'the governor of the universe has given us a reprieve in this election but we now need to stand and fight.'

How do we know which movement is of God? Answer: **To the law and to the testimony: if they speak not according to this word, [it is] because [there is] no light in them. {Isaiah 8:20}**

Do these prophesiers follow all the commandments? Do any

'This says & I say it also in respect, 'Today is Sunday, the Day of Worship. Dear God, Please Watch Over President Trump, as He Works to Restore the Republic, and Make America Great Again.'

Yes, but it is not the commandments God gave us as a signature of his creation to make us great again.'

of them follow the fourth commandment the signature of the creator? 99% of the time the

answer is no. Review John 14:21-23. This tells us that God manifests Himself not just to anyone who asks but to His commandment keeping people.

The evangelicals never had such power and direct access a president as Donald Trump. He was but a phone call away. Trump started to restore Christian virtues through the power of the state but this simply means that as in the days of Constantine he stopped the persecution of Christians for a short time while compromising the church, it led to great atrocities from the inquisition and Roman armies.

Here are the predictions and note when they were published.

1. **The church appeals to the strong arm of civil power, and in this work papists and Protestants unite.--GC 607 (1911). {LDE 145.4}**

2. Protestants will throw their whole influence and strength on the side of the papacy. By a national act enforcing the false sabbath they will give life and vigor to the corrupt faith of Rome, reviving her tyranny and oppression of conscience.--Mar 179 (1893). {LDE 128.3}
3. In the movements now in progress in the United States to secure for the institutions and usages of the church the support of the state, Protestants are following in the steps of papists. Nay, more, they are opening the door for the papacy to regain in Protestant America the supremacy which she has lost in the Old World.--GC 573 (1911). {LDE 132.3}
4. The persecutions of Protestants by Romanism, by which the religion of Jesus Christ was almost annihilated, will be more than rivaled when Protestantism and popery are combined.--3SM 387 (1889). {LDE 147.2}

American evangelicals are known for their support of the nation of Israel—believing God promised that land to the Jewish people.

‘The messianic Jewish movement has been growing in the United States and Israel, but the latest survey is a shocker to those who track the size and scope. There are hundreds of messianic congregations in the U.S. attracting Jews and non-Jews alike because of the unique teachings and beliefs that emphasize a literal Israel-centric view of the Bible – both Old Testament and New Testament.’

A term came to light in Vice President, Mike Pence’s proclamation as **an evangelical Catholic** which I believe we shall see more and more in presidential campaign potentials such as Marjorie Greene and Ronald DeSantis. Pence believes God had called him to one day be president.

The term evangelical Catholic refers to Roman Catholics in full communion with the Holy See in Rome as opposed to the broad term evangelicals. According to Alister McGrath, they exhibit four characteristics of evangelicalism. The first is a strong theological and **devotional emphasis on the Christian scriptures** (the Latin Vulgate, 4th-century Latin translation of the Bible). Secondly, evangelical Catholics stress the life, death, and resurrection of Jesus Christ as the cause of salvation for all mankind. A **personal need for interior conversion** is the third defining mark, and, consequently, the fourth is a **deep commitment to evangelization**.

Evangelical Catholics see these evangelical emphases as the core of the 2,000-year tradition of Catholic Christianity.

That 2,000 year tradition does not recognise the church in the wilderness that consisted of the huguenots and Waldenses and others who keep all the commandments of God and were driven into the wilderness and persecuted by the Mother church for 1260 years.

The Evangelical Catholic (EC) was founded by Tim and Sandy Kruse in Madison, Wisconsin in 1998. These were Protestants who have returned to the Mother church to evangelise.

Says Pope Francis the word smith as he crafts the words.

- Evangelization goes out to others and listens to them; proselytization excludes others and simply talks at them.
- is proud and convinced that it has all the answers.
- Evangelization trusts in the Holy Spirit as

the true evangelist, as the one who makes converts; proselytization believes it's up to us, to the force of our arguments and persuasive power.

The point being the Pope says we evangelise and are the authority on scripture and the church and we rely on the Holy Spirit but the true assessment is found in Christ's own words 'If you love me keep my commandment and we shall love you and make our abode with you and manifest ourselves to you. Does the church of Rome keep God commandments or has it altered them as prophesied in Daniel 7:25.

Where Luther stated the pope of Rome is the antichrist the evangelical catholic looks to Luther's early church reforms and his hold of Catholic tradition and refer to justification as being united with Christ but again the true gospel must be measure with the law and the law of the Papacy is not the law of God.

Trump delivered to the evangelicals and catholic alike with Dolan praising his presidency. All that Trump stated he would do for evangelicals and Catholics, he delivered as he tried to make America Great again- a Ronald Reagan slogan taken up by Trump.

Both the Jews and evangelicals were

particularly excited at the prospect of restoration of the nation of Israel with the third temple structure.

Jesus clearly stated: **My kingdom is not of this world: if my kingdom were of this world, then would my servants fight, that I should not be delivered to the Jews: but now is my kingdom not from hence. {John 18:36}** Following the same mistake that Christ's disciples and the ancient nation of Israel did, again many look for a literal fulfilment of the kingdom of God on this earth at Christ second coming.

Road to Majority

What would the road to the majority or as it was earlier coined the moral majority look like? The evangelical would have control of the government permanently

Some background to the Jews of Israel today

The Universal Jewish Encyclopedia (1943) states 'Although Palestine was the birthplace of Jewish mysticism, the land where the Cabala was conceived and in which it attained its greatest importance was Babylon.'

'The Talmud teaches that among the Talmudic sages there were literal miracle workers... in the world of The Talmud they are the lawyer-magicians of Babylonia, skilled in the occult practices of the CABALA.'

The Talmud is not the Torah but the works of men, of ancient rabbis, the very thing that Christ was fighting in his day. The writings are blasphemous and extremely racist.

The form of religious worship known as "Pharisaism" in Judea in the time of Jesus was a religious practice based exclusively upon the Talmud. The Talmud in the time of Jesus was the Magna Charta, the Declaration of Independence, the Constitution, and the Bill of Rights, all rolled into one, of those who practiced "Pharisaism". The Talmud today occupies the same relative position with respect to those who profess "Judaism". The Talmud today virtually exercises totalitarian dictatorship over the lives of so-called or self-styled "Jews" whether they are aware of that fact or not. 'Facts Are Facts' By Benjamin H. Freedman

So, who and what are the evangelicals really supporting. What is it in common that the Papacy has with Israel today? Man-made and mystic teachings.

Pope Francis' visited Israel in 2014 one year after he became Pope. It reveals the deepening relationship between the Catholic Church, Israel, and the Jewish people.

Trump's visit to Israel and the wailing wall in 2017 is a significant representation for the evangelicals and actions he would undertake on their behalf. The US embassy is moved to Jerusalem signifies Jerusalem as the capital of the Israel as a nation. Trump brought to pass the Jerusalem embassy act of 1995. It recognised Jerusalem as the headquarters for the Israeli government which former presidents promised but failed to deliver. The recognition of Jerusalem as Israel's capital is much to the disgust of the Palestinians as might be expected.

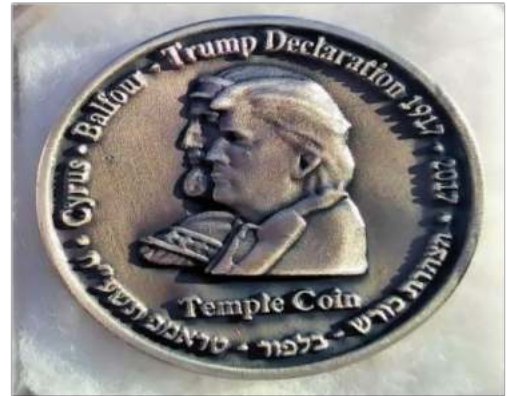

Cardinal Kasper and Rabbi Charlop honour the tumid at Yeshiva University at Brooklyn, New York, a Jewish institute dedicated to the study of the Talmud. The Papacy has more in common with the Talmud than the Bible. Their common roots are in Babylon.

The Jews were elated at this recognition and support by the US and named a new settlement in the Golan heights after Trump. Trump was in the eyes of many Israelis and evangelicals, another Cyrus the Great.

A temple coin was minted in Trump's honour.

We have just touched the tip on what is a ground swell in evangelical fervour that will explode across the nation with supernatural events, Satan also wants this nation that was made so great through a commandment keeping church being founded on its soil. Other countries such as Brazil are also exploding with evangelical fervor.

Evangelicals leaders including Kenneth Copland and Tony Palmer met mid 2014 in a private meeting with the Pope and by October 24th, 2017 Kenneth Copeland held an ecumenical meeting in Kansas City Missouri with Pope Francis by video saying the Protestantism had ended.

It was shortly after this date that the Pope celebrated in Sweden with the **Lutherans the 500-year anniversary of Protestantism** (October 31, 1517) saying 'Now we have a new opportunity to accept a common path. We have the opportunity to mend a critical moment of our history by moving beyond the controversies and disagreements that have prevented us from understanding one another.' Just an incredible image to have a Jesuit Pope leader of the counterreformation, celebrating the 500-year anniversary of Protestantism while a leader such as Kenneth Copeland declares Protestantism dead. The arsonist just tuned up to give his condolences after the building burnt down.

Road to majority through the courts

The faith and freedom coalition was formed in 2009 and is American ecumenical Christian right. 'The 2011 conference was also held in Washington in June with several hundred attendees. Nearly all the Republican 2012 presidential hopefuls spoke, including Gingrich, Tim Pawlenty, Mitt Romney, Michele Bachmann, Herman Cain, Jon Huntsman, Jr., Rick Santorum, and Ron Paul.'

The Faith and freedom coalition continued to hold their conferences continuing by name and strategy the 'Road to Majority' with Donald Trump as key speaker. **Road to Majority, author Eric Metaxas was one of those portraying Trump's election as a sign that God has given America one more chance to stave off His judgment, saying, 'the governor of the universe has given us a reprieve in this election but we now need to stand and fight.'**

Senator David Perdue of Georgia said 'We are in a war for the future of this Republic.'... A primary vehicle for reversing the 'great progressive experiment' will be by packing the federal courts with judges committed to a far-right view of the Constitution and laws.

Faith and Freedom Coalition executive director Tim Head said there are 120 positions open on the courts 'because of the deliberation of the Senate' during the Obama administration. He said that during an eight-year period, typically

about 400 federal judges would be replaced; adding that number to the current vacancies could mean 525 new judges in a two-term Republican administration, something he called "extraordinary."

The Supreme Court is "something that is really going to change America." Another Supreme Court nominee, Teller said, would let Trump create "epic, titanic shifts."

Neil Gorsuch, Brett Kavanaugh and Amy Barrett were brought to serve for the duration of a lifetime. The aim was to secure right wing Christians (Catholics) in that position to hold conservative Christian views. The telegraph says Neil Gorsuch the newly nominated supreme court justice 'offers geographical diversity to a court dominated by justices from the east and west coasts. As an

Episcopalian, he would be the only Protestant on the court, which has three Jewish justices and five Catholics.' That doesn't really make sense in a Protestant nation, does it?

Crux another Catholic news report goes on to say he 'has a stellar intellectual pedigree, featuring degrees from Colombia, Harvard and Oxford. (At Oxford he studied under Australian legal philosopher John Finnis, who converted to Catholicism in 1962, who's drawn on St. Thomas Aquinas in his work, who later became a member of the Vatican's International Theological Commission and whose work there is believed to have influenced St. Pope John Paul II's 1993 encyclical *Veritatis Splendor* on the importance of moral absolutes.)

With that added thought Thomas Aquinas outlined justification for Christian warfare, was admired by the Jesuits and the Jesuits were expelled out of the Catholic nations for their interference that lead to war initially between Spain and Portugal. That warfare has never ceased to the present day.

It is no doubt that his training in issues of religious liberty is scented by that which is outlined by Vatican II.

Barrett, Kavanaugh lead SCOTUS in DENYING relief to

religious Maine healthcare workers objecting to Covid-19 vaccine mandate and supported by Amy Barrett. Barrett has previously refused another plea for relief on religious freedom grounds, by students and staff of Indiana University, back in September – the first legal challenge against Covid-19 vaccine mandates before the Supreme Court.

At the circuit court level, Trump has installed 51 judges, or about 30% of all active judgeships.

So did the supreme court rule in Trump's favour or in favour of UN policies? The supreme court rules not to shut down Deferred Action for Childhood Arrivals program allowing children of illegal immigrants to stay in the US. 800,000 young people, known as Dreamers, 'These horrible & politically charged decisions coming out of the Supreme Court are shotgun blasts into the face of people that are proud to call themselves Republicans or Conservatives. We need more Justices or we will lose our 2nd. Amendment & everything else. Vote Trump 2020!'

Trump wasn't too please on the ruling to had over tax file documents which Hilary asked him to show back in the 2016 presidential campaign.

A COUP ATTEMPT AGAINST THE FIRST AMENDMENT

Many are sceptical when they hear there is a planned effort to create a theocracy in America which is to replace the democracy and change the Constitution.

Trump appointed William Barr Attorney General for the US. He has said the Separation Clause in the U.S. Constitution's

1st Amendment is *"unconstitutional and unhistorical."* He has taken the oath of office to uphold the Constitution. Barr was raised a catholic, worked with the CIA and on surveillance programs which tapped innocent Americans' international phone calls. This program 'provided a blueprint for far broader phone-data surveillance the government launched after the terrorist attacks of Sept. 11, 2001.'

Religious liberty is more often a misapplied term which follows Vatican II principals and is an attack against the US constitution. Vatican II religious liberty was championed in the Trump term of office and presented to the US congress with the blessing of the evangelicals.

Republican Lauren Boebert at Cornerstone Christian Center in Basalt, Colorado in her sermon said, I believe there have two nations created to glorify God. Israel who we bless and the United States of America. **It's a push for a theocracy.**

She said, 'the reason we had so many overreaching regulations in our nation is because the church complied. The church is supposed to direct the government. The government is not supposed to direct the church. That is not how our Founding Fathers intended it. And I'm tired of this separation of church and state junk that's not in the Constitution. It was in a stinking letter and it means nothing like what they say it does.' Which church is meant to direct the government? The Jesuits in Vatican II have aimed at evangelicals and these are the one pushing for constitutional change over democratic lawless abuse.

Republican Marjorie Greene told a Turning Point USA event that the Republican Party should be Christian nationalists. This is a term gaining momentum. Its about being religious and patriotic but also comes with an increasing push for constitutional change.

Prophecy says: **When the state shall use its power to enforce the decrees and sustain the institutions of the church--then will Protestant America have formed an image to the papacy, and there will be a national apostasy which will end only in national ruin.--7BC 976 (Published 1910). {LDE 134.4}**

The Sunday movement is now making its way in darkness. **The leaders are concealing the true issue,** and many who unite in the movement do not themselves see whither the undercurrent is tending. . . .

They are working in blindness. They do not see that if a Protestant government sacrifices the principles that have made them a free, independent nation, and through legislation brings into the Constitution principles that will propagate papal falsehood and papal delusion, they are plunging into the Roman horrors of the Dark Ages.--RH Extra, published Dec. 11, 1888. {LDE 125.3}

Fake News

The statement that has gained traction, 'Fake news is an enemy of the people' is far reaching in its importance. We see Assange liked or unliked on a mission to expose Government corruption of all types, US or otherwise. The charges against Julian Assange under the espionage act, is one to test the American first Amendment putting on trial a non-American citizen not living in the US. Not only that but the first amendment states that there should be freedom of the press.

Many argue that the state should hold military secrets in the interest of the US. But what if there is the highest order of corruption? And it is an avalanche of misconduct for world domination in the which the end justifies the means.

Of course, the aim of the indictment was to say that

Assange is not a journalist and to twist the events to make a legal case. And so, this whole idea of the sacrifice of truth for the good of the nation is played out over and over again.

Nor consider that it is expedient for us, that one man should die for the people, and that the whole nation perish not. {John 11:50}

The first amendment to the Constitution says: Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.

The matter runs down to something much deeper. When the US realizes that it is being exposed for something that should be corrected, it treats them as enemies. Present truth does not paint a pretty picture of the USA as foretold in prophecy.

The same treatment will be given to God's servants as predicted in the following statement: **In performance of their duties without coldly calculating the consequences of speaking to the people the word which the Lord had given them. They have not consulted their temporal interests, or sought to preserve their reputation or their lives. Yet when the storm of opposition and reproach bursts upon them, some, overwhelmed with consternation, will be ready to exclaim, "Had we foreseen the consequences of our words, we would have held our peace." They are hedged in with difficulties. Satan assails them with fierce temptations. The work which they have undertaken seems far beyond their ability to accomplish. They are threatened with destruction. The enthusiasm which animated them is gone; yet they cannot turn back. Then, feeling their utter helplessness, they flee to the Mighty One for strength. They remember that the words which they have spoken were not theirs, but His who bade them give the warning. God put the truth into their hearts, and they could not forbear to proclaim it.**

{GC88 608.2}

Those who honor the Bible Sabbath will be denounced as enemies of law and order, as breaking down the moral restraints of society, causing anarchy and corruption, and calling down the judgments of God upon the earth. Their conscientious scruples will be pronounced obstinacy, stubbornness, and contempt of authority. **They will be accused of disaffection toward the government.**--GC 592 (1911). {LDE 146.5}

All who in that evil day would fearlessly serve God according to the dictates of conscience, will need courage, firmness, and a knowledge of God and His Word, for those who are true to God will be persecuted, their motives will be impugned, their best efforts misinterpreted, and their names cast out as evil.--AA 431, 432 (1911). {LDE 147.1}

Just as the Munroe doctrine is sighted for a pretext for foreign invasion in war when it was written for the very opposite reason, so the first amendment is manipulated by excuses to make it appear otherwise and bring legal proceedings against an innocent man when war mongers should be the ones on trial. Also associated with

WikiLeaks prosecutions is the mysterious death of Arjen Kamphuis a Dutch security expert who was working with WikiLeaks, on holiday in Norway, when he mysteriously disappeared.

The threat to WikiLeaks to discredit it and prosecute it by counter intelligence goes back as far as 2008. ``The identification, exposure, termination of employment, criminal prosecution, legal action against current or former insiders, leakers, or whistle-blowers could potentially damage or destroy this center of gravity and deter others considering similar actions from using the WikiLeaks.org Web site.

July 12, 2007, Baghdad airstrike which killed innocent French journalists and injured and killed children was a gross injustice in a war that should never have happened. The word from the commander was to kill everyone on the street, women and children. A soldier describes the incredible scene on the ground as he attempts to save a young boys life- but his commander is not interested.

Who ends up with the prosecution the ones who exposed the incident- Manning and Assange. Manning having been pardoned by Obama was sent back to prison after refusing to testify against Assange while under the Trump administration. Pompeo had said that WikiLeaks was a hostile intelligence service and said Assange and Snowden care nothing of the lives they put at risk and the damage they cause. Well Pompeo let's see what a righteous God might think about such evident acts of shame that should have been punished. The CIA is a hostile intelligence service imbedded by Papal state actors. This organization should never have been formed.

Lying, cheating, stealing and murder are their tool of trade. The CIA is not a champion of liberty but perversity.

Woe unto you, scribes and Pharisees, hypocrites! for ye are like unto whited sepulchres, which indeed appear beautiful outward, but are within full of dead [men's] bones, and of all uncleanness. {Matthew 23:27}

The Bible says, John 8:32 And ye shall know the truth, and the truth shall make you free.

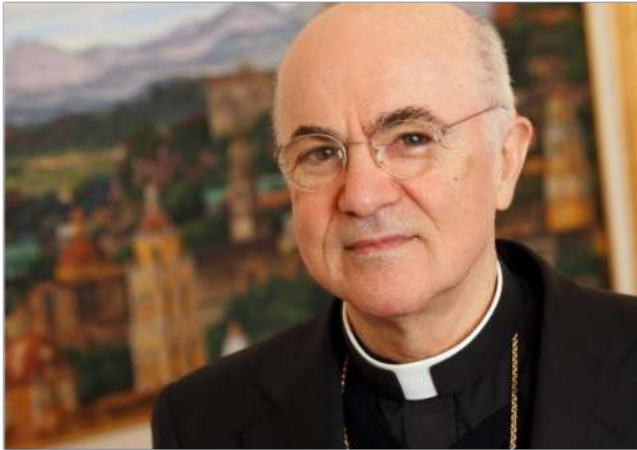

Archbishop's warning

In 2012 when Vati-leaks broke, archbishop Carlo Maria Viganó. denounced the scandals which surrounded sexual abuse and the Vatican bank. Again in 2018 Viganó denounced paedophilia in the church which church leadership had known about. Viganó while ambassador to USA had informed Francis of these scandals in writing as far back as 2013.

2020 open letter to Trump Viganó says: 'We see heads of nations and religious leaders pandering to this suicide of Western culture and its Christian soul, while the fundamental rights of citizens and believers are denied in the name of a health emergency.... Its architect is a global élite that wants to subdue all of humanity, imposing coercive measures with which to drastically limit individual freedoms and those of entire populations...**The purpose of the Great Reset is the imposition of a health dictatorship aiming at the imposition of liberticidal measures, hidden behind tempting promises of ensuring a universal income and cancelling individual debt. The price of these concessions from the International Monetary Fund will be the renunciation of private property and adherence to a program of vaccination against Covid-19 and Covid-21 promoted by Bill Gates with the collaboration of the main pharmaceutical groups.**

'Mr. President, I imagine that you are already aware that in some countries the Great Reset will be activated between the end of this year and the first trimester of 2021. For this purpose, further lockdowns are planned, which will be officially justified by a supposed second and third wave of the pandemic. You are well aware of the means that have been deployed to sow panic and legitimize draconian limitations on individual liberties, artfully provoking a world-wide economic crisis.

In the intentions of its architects, this crisis will serve to make the recourse of nations to the Great Reset irreversible. No one, up until last February, would ever have thought that, in all of our cities, citizens would be arrested simply for wanting to walk down the street, to breathe, to want to keep their business open, to want to go to church on Sunday.

While the politicians are barricaded inside their palaces promulgating decrees like Persian satraps, businesses are failing, shops are closing, and people are prevented from living, traveling, working, and praying. The one who occupies the Chair of Peter has betrayed his role from the very beginning in order to defend and promote the globalist ideology.

The United States of America is considered the defending wall against which the war declared by the advocates of globalism has been unleashed.'

'Notwithstanding the spiritual darkness and alienation from God that exist in the churches which constitute Babylon, the great body of Christ's true followers are still to be found in their communion.'

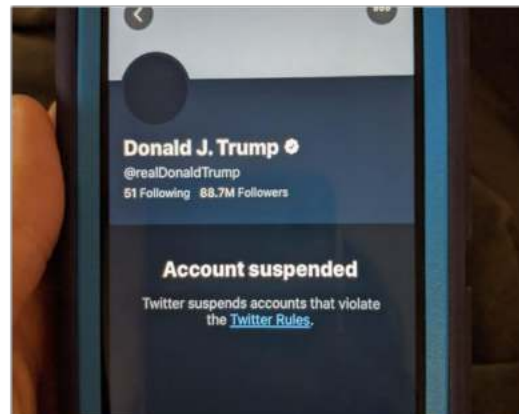

There are many among the Catholics who live up to the light they have far better than many who claim to believe present truth and God will just as surely test and prove them as He has tested and proved us. . . . From that which God has shown me, a great number will be saved from among the Catholics. There has been but little done for them except to make them appear in the worst light.'

Trump & the presidential election not rigged but fortified

People are polarised by Trump and the elections that resulted in the protests at the White House. It seemed that Trump was in the lead on the 2020 election night when it all suddenly for some unexplained reason stood still. There was no movement in Trump's election results as Biden's votes continued to climb into the night and following day.

Writes Molly Ball of Time Magazine a magazine I once naively thought was impartial but is part of the propaganda scene. She is the author of *Pelosi*, a bestselling biography of the first woman Speaker of the House. The 2020 US presidential elections wasn't "rigged," oh no, but "fortified" by a conspiracy of activists united in saving "Our Democracy."

TIME magazine quote: 'There was a conspiracy unfolding behind the scenes, one that both curtailed the protests and coordinated the resistance from CEOs. They got states to change voting systems and laws and helped secure hundreds of millions in public and private funding.

They fended off voter-suppression lawsuits, recruited armies of poll workers and got millions of people to vote by mail for the first time.

They successfully pressured social media companies to take a harder line against disinformation and used data-driven strategies to fight viral smears.

A well-funded cabal of powerful people, ranging across industries and ideologies, working together behind the scenes to influence perceptions, change rules and laws, steer media coverage and control the flow of information. The solution., was to pressure platforms to enforce their rules, both by removing content or accounts that spread disinformation and by more aggressively policing it in the first place. "The platforms have policies against certain types of malign behavior, but they haven't been enforcing them."

Quinn's research gave ammunition to advocates pushing social media platforms to take a harder line. In November 2019, Mark Zuckerberg invited nine civil rights leaders to dinner at his home, where they warned him about the danger of the election-related falsehoods that were already spreading unchecked. "It took pushing, urging, conversations, brainstorming, all of that to get to a place where we ended up with more rigorous rules and enforcement,"

They were not rigging the election; they were fortifying it. And they believe the public needs to understand the system's fragility in order to ensure that democracy in America endures. In the end, nearly half the electorate cast ballots by mail in 2020, practically a revolution in how people vote.'

There were strange events out and inside the capital building especially at the scene where Ashli Babbitt was fatally shot. It appeared that 'plants' in the crowd were trying to ignite the scene. The protests were relatively mild compared to the anarchy seen in the Black Life Matter protests where many people died without any percussions.

Jake Angeli got 21/2 years in a federal prison for standing up for Trump as also many of Trump supporters were also arrested and charged. The focus now became domestic terrorism. No not the CIA but citizen that fall out of line. Domestic terrorism will continue to be the issue as we reach into the future. Anyone who opposes the New World Order will be targeted.

Angeli, 34, was not accused of any violence nor property damage during his time in the U.S. Capitol. But, prosecutors said, Angeli played a key role by goading on the crowd through shouts blasted from his megaphone.

Bottom line is don't get caught up in political sides because they will come and go and they are being manipulated behind the scene by the larger players. The result was focusing on domestic terrorism which is really a farse considering where it is coming from. There were key persons in the White House that were more deserving of this sentence than Jake.

504: Does POPE FRANCIS want JOE BIDEN to win? Cardinal Tobin reveals the answer: YES [Podcast]

Cardinal Joseph Tobin, Archbishop of Newark New Jersey, said that Catholics in "good conscience" could vote for Democratic presidential candidate Joe Biden. Cardinal Tobin also said he has a "more difficult time" with the "other option," but did not mention President Trump by name. Cardinal Tobin was speaking in the context of the Webinar event: "The Church and Catholic Voters in the 2020 Election," sponsored by Boston College.

Let's not also forget the Pope had a say in 2016 US elections endorsing Hillary and 2020 Biden. Pope personally congratulated Biden on his win-full steam ahead for the climate

change agenda.

Biden and the democrats brought in the Domestic Terrorism Prevention Act of 2020 because of the capital protests which would enhance the federal government's efforts to prevent, report on, respond to, and investigate acts of domestic terrorism by authorizing offices dedicated to combating this threat; requiring these offices to regularly assess this threat; and providing training and resources to assist state, local, and tribal law enforcement in addressing it. 'The rising tide of domestic terror across our country, particularly from violent far-right extremists and white supremacist organizations, demands a response from Congress he said.'

Suddenly you are the enemy of the state. Everything in the movie 'enemy of the state' that seemed like another world spy thriller has become a reality.

The FBI and the Department of Homeland

Security revealed that a 'significant' part of the massive rise in domestic terrorism investigations between 2020 and 2021 is related to the Justice Department's investigation into the Capitol riot.

When I was a child, I had a very simplistic view of the text **Revelation 11:18 which says I will destroy those that destroy the earth** and I related that to pollution and war and the end of the world but I did not have the big picture that only a post 9-11 world would reveal. A cunning twist to this is seen in the post-world war when its history was exposed. The very ones perpetrating the wars and chaos are calling for climate action.

There is truly a need for action against war and chemicalization of the environment and people need to oppose the many dangerous applications of genetic modification. There is a crime against humanity in the growing cancer rates and the wonton destruction.

"Rio was publicly described as a global negotiation to reconcile the need for environmental protection with the need for economic growth. The cognoscenti understood that there were other, deeper goals. These involved the **shift of national regulatory powers to vast regional authorities; the opening of all remaining closed national economies to multinational interests; the strengthening of decision-making structures far above and far below the grasp of newly minted national democracies; and, above all, the integration of the Soviet and Chinese empires into the global market system.** There was no name for this very grand agenda that I had heard anyone use, so later I named it myself—the Global Governance Agenda." Cloak of green Elaine Dewar - 1995

While there have been many climate summits since 1972, Rio set a bench mark for 2020 agenda and the 2030 agenda.

Post WWII climate history

A lady related to me her story of when she was just 5-year-old living 1 hour from Hiroshima. She said when she looked at the sky, she was fascinated by how pretty the sky was. This is the image that the atomic bomb left. After this, she would see people bleeding from every orifice and particularly remembers a lady squatting on the street to go to the toilet and blood coming from her. Her story had meaning describing many skies to follow. In 1958 having realized the potential of atomic energy, Operation Argus would detonate atomic weapons in outer space, creating an artificial radiation belt in Earth's magnetic field that would supposedly fry incoming Soviet warheads in flight. A key player in Argus was America's latest satellite, Explorer 4. *It was to rival the Soviet's sputnik.*

67 nations came together to explore and study the planet that they all shared, in a spirit of complete scientific openness and collegiality. But as its builder, the physicist James Van Allen, knew quite well, Explorer 4's true purpose would be to study the effects of Argus. The Pentagon's secret was leaked and became public. [The Atlantic](#) MARK WOLVERTON NOVEMBER 24, 2018

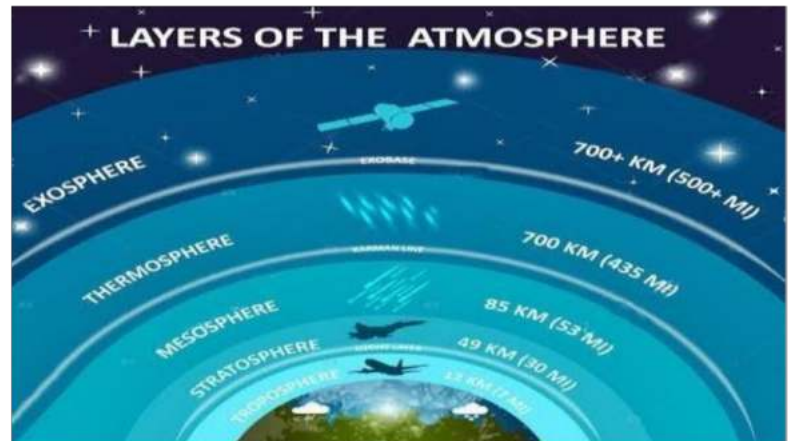

In 1962 a series of tested nuclear explosions known as Project Starfish would seriously damage the Van Allen Belt. 'One kiloton device, at a height of 60 km and one megaton and one multi-megaton, at several hundred kilometres height.' The effect of the blast was to cause an aurora to be seen thousands of kilometres away. 'In Hawaii it blew out hundreds of streetlights, and caused widespread telephone outages. Other effects included electrical surges on airplanes and radio blackouts.' At least six satellites failed and other damages occurred to satellites in these early days of space exploration.

Remember what the Japanese lady said about the beautiful sky in Hiroshima when the atomic bomb went off.

A **Van Allen radiation belt** is a zone of energetic charged particles that holds the field for the world's radio waves and if there is **no Van Allen belts**, the earth

would not have a magnetic field. When they are testing the ionosphere, this charged area starts from 70km up to 300km and totally disappears at 1000KM.

On day 1 of creation (Exodus 1) God created the canopy for life.

In 1981 the Shuttle injected gases into the ionosphere to discover they could '**induce ionospheric holes**' and began to experiment with these holes over Millstone, Connecticut, and Arecibo, Puerto Rico.

(Advanced Space Research, Vo1.8, No. 1, 1988).

Now let's go back in time to one of the first weather experiments. It is reported that in the 1930s the USSR had a rainmaking research installation. The USA was experimenting with the concept by the end of WWII. As early as the 1950s Australia through the CSRIO was conducting rainmaking experiments and had ground-based installation on the western side of Kosciusko. In 2001 the British government acknowledges their experimentation with rain making in operation cumulus during the 1950s. The British government had denied such experiments existed until over 50 years later in 2001. Operation cumulus caused major flooding for the unsuspecting British citizens. This was the beginning of what was to become a war against the citizens of the free nations that has really got traction so many years after the fact. By 2019 we were on the weather roller coaster.

The USA was first to use cloud seeding to extend the monsoonal season against the Vietcong. Nearly

all veterans are unaware of weather modification used in the war they had participated in. By 1972 the USA wanted to bring the nations to an agreement not to use weather as a weapon.

National Security advisor Zbigniew Brzezinski to jimmy Carter who formed the trilateral commission stated in his book "Between Two Ages published 1970," Technology will be made available, to leaders of major nations, techniques for conducting secret warfare, of which only a bare minimum of security forces need be appraised...

Techniques of weather modification could be employed to produce prolonged periods of drought or storm."

By 1977 in Geneva the nations signed an agreement not to use weather for destructive purposes and warfare which was ratified in 1978. **'The Convention bans weather warfare, which is the use of weather modification techniques for the purposes of inducing damage or destruction.'**

In 1993 HAARP **High Frequency Active Auroral Research Program (HAARP)** was initiated as an ionospheric research program jointly funded by the U.S. Air Force, the U.S. Navy, the University of Alaska Fairbanks, and the Defense Advanced Research Projects Agency (**DARPA**). DARPA is the cutting-edge technology for the warfare department of the Pentagon. By changing the electron density in the ionosphere scientists could alter the generation of radio signals and that discovery led to the development of ionospheric heaters to study these and other effects creating **an artificial Northern aurora.**

Remember what the Japanese lady said about the beautiful sky in Hiroshima when the atomic bomb went off.

Creation

Electricity had its very important place in the creation of the earth as experiments with ionosphere have proven.

Genesis 1

Day 1 Let there be Light

Day 2 And God called the firmament heaven

Atmosphere or firmament. In biblical cosmology, the **firmament** is the structure above the atmosphere of Earth, conceived as a vast solid dome. If light was created on day one why does the Bible say that on Day 4 the sun, moon and stars were created. Sir Isaac Newton proved that white light was composed of all the colours of the rainbow. The rainbow is that which surround the throne of God.

Waves of electromagnetic fields is what we call light. Quantum mechanics says we are made up of fields- this is building block of life. We came to these conclusions through the work of two early Christian scientists Faradays and Maxwell who first demonstrated that light is electricity. This led to the development of radio waves.

Image: Quantum mechanics is being explained at the **Royal Institution** at the **Faraday Museum** where Faraday held his Christmas demonstrations.

Everything in life depends on electricity to function.

There is life in the seed, there is power in the soil; but unless infinite power is exercised day and night, the seed will yield no return. The showers of rain must refresh the thirsty fields; the sun

must impart warmth; electricity must be conveyed to the buried seed. The life which the Creator has implanted, He alone can call forth. Every seed grows, every plant develops, by the power of God. Ed 104.4

"The seed is the word of God." "As the earth bringeth forth her bud, and as the garden causeth the things that are sown in it to spring forth; so the Lord God will cause righteousness and praise to spring forth." Luke 8:11; Isaiah 61:11 Education E.G White 1903

God gave man opportunity by these discoveries to benefit humanity but instead of learning from nature he would use nature to destroy itself. To destroy in man's lust for power. God has also allowed this knowledge to give the last warnings to a dying world.

But thou, O Daniel, shut up the words, and seal the book, [even] to the time of the end: many shall run to and fro, and knowledge shall be increased. {Daniel 12:4}

'Neither the official delegations nor the environmental action groups participating in the Hague

Conference on Climate Change (CO6) (November 2000) have raised the broad issue of 'weather warfare' or 'environmental modification techniques (ENMOD)' as relevant to an understanding of climate change."

Michel Chossudovsky

.....**neither has the Pope.** If anyone in the world is well informed on US technology development it is the Vatican where the CIA had its seat and many of the US military documents.

Australians have little idea that ionospheric heaters already existed on the Western side of Kosciusko from the 1950s let alone the further developments since that time. Environmental minister Malcolm Turnbull who later became the Australian Prime Minister had this snippet of news that could only leave speculation and with links to Rupert Murdoch.

\$10 million was given for trials to 'trigger rainfall from the atmosphere, even when there are no clouds.' The results unknown. These experiments were conducted with the participation of the University of Queensland.

Turnbull pumps \$10m into rainmaking gamble

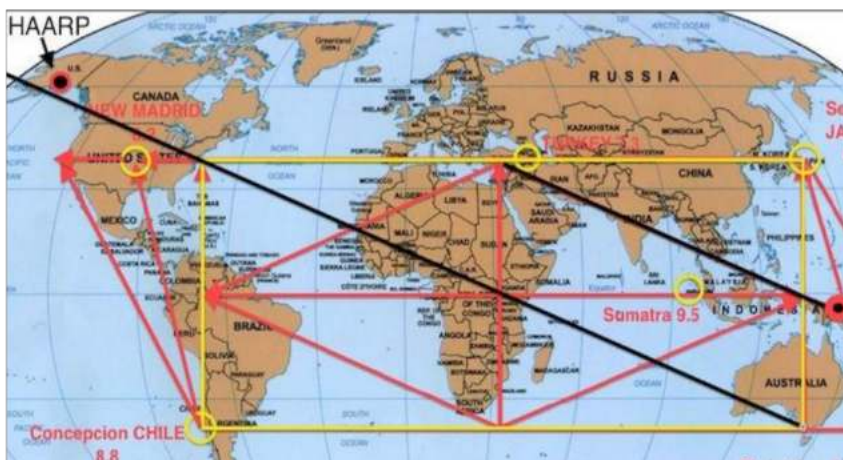

Greg Hoy
Updated 20 Nov 2007, 1:27pm

Few MPs would have worked harder to defend their seats at this election than Environment Minister Malcolm Turnbull, whose blue ribbon Sydney seat of Wentworth is under siege not just from Labor but a range of environmental activists, mostly coalescing around the Greens.

But in the second week of the campaign, Mr Turnbull found the time to announce that the Government, already in caretaker mode, would bankroll to the tune of \$10 million the investigation of an untried Russian technology that aims to trigger rainfall from the atmosphere, even when there are no clouds.

'Climatic manipulations under the HAARP program (whether accidental or deliberate) would inevitably exacerbate these changes by weakening national economies, destroying infrastructure and potentially triggering the bankruptcy of farmers over vast areas. Surely national governments and the United Nations should address the possible consequences of HAARP and other 'non-lethal weapons' on climate change.' Michel Chossudovsky Former professor of economics at the University of Ottawa and the president and director of the Centre for Research

on Globalization. There are multiple HAARP installations around the world. They cannot control the weather but can destroy the natural weather patterns or intensify adverse effects. HAARP is now old technology still in use with installations dotted around the planet.

In 1996 (notice the ideology of weather warfare did not cease with the 1977 Geneva convention) a research paper is presented to the US Air force, **weather as a force multiplier**- owing the weather by 2025 which “**offers the war fighter a wide range of possible options to defeat or coerce an adversary**”, **capabilities, it says, extend to the triggering of floods, hurricanes, droughts and earthquakes:**

‘Weather modification will become a part of domestic and international security and could be done unilaterally... It could have offensive and defensive applications and even be used for deterrence purposes. The ability to generate precipitation, fog and storms on earth or to modify space weather... and the production of artificial weather all are a part of an integrated set of technologies.’

In 2010 Bill Gates was busy in many fields with his support of the Rockefeller foundation. One project of his was, promoting cloud whitening to reflect the heat of the sun back into the atmosphere to protect us against global warming. In 2020 the news reports that Great Barrier Reef was using this technology to protect the reef’s future. **Climate gate exposed this as a fraud in 2011 with hacked emails telling us t temperatures were not rising but through political pressure the scientists delivered to the IPCC The Intergovernmental Panel on Climate Change what they wanted to hear by ‘cooking the books’.**

When you have evolutionary scientist working from a wrong premise that is, we evolve to improve on nature rather than improving by working with nature and learning from the creator, the world has a serious problem.

Satan works through the elements also to garner his harvest of unprepared souls. He has studied the secrets of the laboratories of nature, and he uses all his power to control the elements as far as God allows. When he was suffered to afflict Job, how quickly flocks and herds, servants, houses, children, were swept away, one trouble succeeding another as in a moment. It is God that shields His creatures and hedges them in from the power of the destroyer. {The Spirit of Prophecy Vol. IV p407}

Higher learning integrated in the war machine

Harvard radio research lab ran all electronic warfare in WW11. This was directed by the Father of electronic warfare- **Frederick Emmons Terman** who was a Stanford university engineer 1926 also the Father of silicon valley. It was this man who encouraged his students **William Hewlett and David Packard** to start their companies.

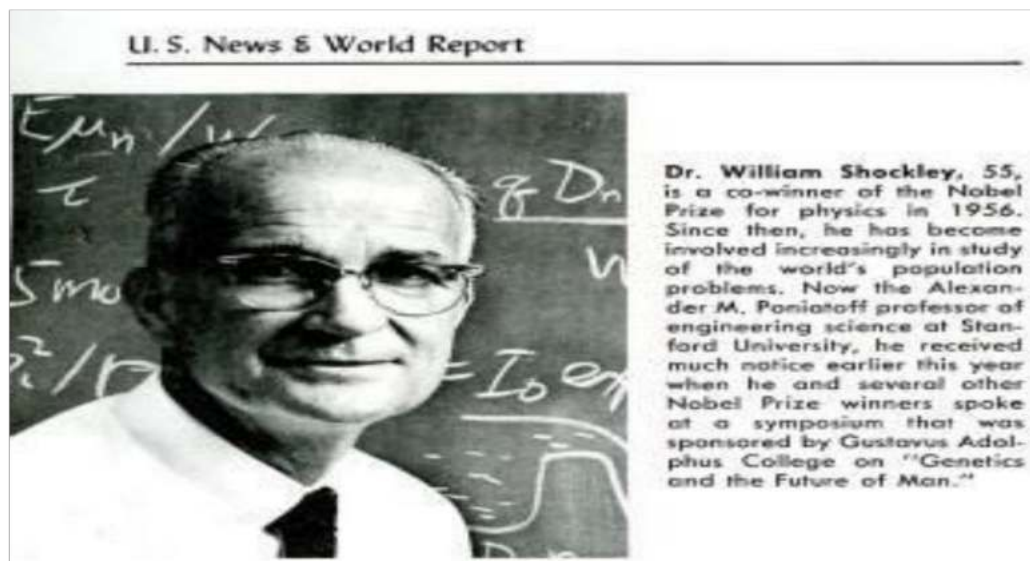

Terman recruits 11 former radio research lab personnel into the Stanford University where they set up a new lab and the naval department gives them their first contract in research into **microwaves**. In the 1950's the engineering department becomes also involved. The Korean war and the cold war era led to doubling the size of Stanford electronic departments. (The USA was two weeks from a set date to drop an atomic bomb on Korea.) **Stanford become a full partner with the military and NSA, CIA etc. Cold war was an electronic war- track and monitored behind closed walls.**

Silicon Valley started to participate in electronic surveillance system to go on planes using microwave technology @150- 140,000 Mz. Stanford designs/ Silicon Valley built.

Terman becomes "Chief Academic Officer" or provost in 1955 and systems engineering lab emerges for advanced research & development for NSA & CIA throughout the cold war. He encourages students to leaves and start companies and professors to consults for companies and become part of company boards so that technology transfer becomes easy and licensing became easy. Others were led to start companies and the researchers would sit on the company boards. Silicon Valley explodes with companies doing microwave research and development work.

Shockley's attempts to commercialize a new transistor design in the 1950's and 1960's also led to California's Silicon Valley. He had worked on air ground radar during the WW11.

USA become big on radio astronomy which was used to pick up Russian signals. You see all our most recent communication convinces and technology is built literally on warfare. The first satellites were electronic intelligence built by the US Navy. The first Research Department (NRL) project GRAB after United States U2 spy planes were shot down over the Soviet Union airspace. **The first internet communication in 1969 was at Stanford developed by DARPA and carried to commercial success by Bill Gates.**

The point being, there is a circle of intelligence that starts at the universities which is for the development of military weapons and not just for the sake of learning as we have often been told. The universities have a more destructive influence on society than many could image. Most are unaware of how the circle of intelligence works.

Articles would continue to appear from 2013 up to 2019 of the creation of an artificial Northern Aurora as scientist were studying weather patterns.

'When HAARP is fired, the radio-waves are broad-casted straight up or straight down. When fired up, all of the antennas shoot powerful waves into the ionosphere, the upper most part of the atmosphere. During this process, the radio-waves heat the ionosphere, creating irregularities that allow the ionosphere to bounce powerful radio signals back to earth. When aimed down, these powerful waves shoot into the earth hitting fault lines at the resonant frequency that is capable of producing violent earthquakes.'

Hugo Rafael Chávez in 2010 'citing a report from a Northern Russian fleet said the 7 magnitude Haiti earthquake was caused by the US test of an experimental shockwave system that can also create weather anomalies to cause floods, drought and hurricanes.' Western media called him a crackpot.

"My uncle used to tell me about nuclear before nuclear was nuclear," Trump said in one interview, according to the *New Yorker* magazine. When Nikola Tesla was found dead in January 1943 in his hotel room in New York City, representatives of the U.S. government including **John Trump** collected Tesla's research papers as having national military importance. Tesla amongst many of his experiments throughout his life had researched radio frequency and resonance energy.

In 2019 NASA Created Artificial Auroras in the Sky Above Norway through the EISCAT Scientific Association, an international research organization operating three incoherent scatter radar systems, at

931 MHz, 224 MHz and 500 MHz, in Northern Scandinavia measuring disturbances in the ionosphere and magnetosphere.

On Thursday 18 August, the sky above the Allgäu Public Observatory in southwestern Bavaria Germany August 2011, was an example of two very different phenomena: one an example of advanced technology, and the other of nature's dramatic power.

Laser guided lightning strike. Lightning takes the path of least resistance and laser experimentation is perfecting this. USA is using laser as part of their weaponry. HAARP

/ Spacelab/ rocket combination can deliver very large amounts of energy, comparable to a nuclear bomb, anywhere on earth via laser and particle beams.

Secretary of Defense William S. Cohen April 1997

"There are some reports, for example, that some countries have been trying to construct something like an Ebola Virus, and that would be a very dangerous phenomenon, to say the least. Alvin Toffler has written about this in terms of some scientists in their laboratories trying to devise certain types of pathogens that would be ethnic specific so that they could just eliminate certain ethnic groups and races; and others are designing some sort of engineering, some sort of insects that can destroy specific crops. Others are engaging even in an eco- type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves.

So there are plenty of ingenious minds out there that are at work finding ways in which they can wreak terror upon other nations. It's real, and that's the reason why we have to intensify our efforts, and that's why this is so important."(CIA website)

Trump space force: US to set up sixth military branch as their answer to the threat of Russia and China in space. **He the beast with lamblike horns causes fire to come down from heaven in the sight of men. {Revelation 13:13}**

‘Eighty percent of the nearly 2,000 satellites are civilian, providing critical communications and economic services for humanity’s well-being. We need to take care of space.’ Trump Signs Directive to Create a Military Space Force. February 2019

In Japan massive peace demonstrations broke out in 2015 as the US coerced Japan to build up military power once more. The US had been using Japan for its technological advantage by buying its military innovations, now called it to build up military strength ready for war.

The US leads Japan into a constitutional change in 2015. ‘They demanded that Prime Minister Abe strike the war legislation and step down. On August 30, tens of thousands of people (120,000, according to organizers), protested outside the Japanese parliament against new military legislation that would allow the military to fight abroad. This would happen for the first time since World War II to Japanese troops. According to its constitution, Japan is barred from using force to resolve conflicts except in cases of legitimate defense. But a re-interpretation of the law will now allow “collective self-defense”- using force to defend allies under attack. The demonstrators protested in front of the Japanese Diet to the cry of “Save Japan from Abe.”’ **LEFTEAST** Mattia Gallo **October 5, 2015.**

Germany and Japan are integral parts of the US war machine through technology supply. It started with operation paperclip in which Germany scientists, even with a history of war crimes were taken

to the US to work for the government. By 2011 it was reported that Germany was the biggest arms supply in Europe (today France has overtaken Germany's position as one of the largest arms dealers and the US is the biggest arms dealer worldwide.) A disgrace and insult to those soldiers that fought in World War II. Germany had entered the war with Clinton also changing its post-world War II constitution for defence in cooperation with the USA to bomb Serbia, once an American ally of the second World War. Germany planes flew for the first-time post second World War, in the Croatian war of 1992. But the Japanese people's stand against militarisation was honourable. It tells us that the forces of evil which drove Germany and Japan against the West were utilised and taken into the USA. Hitler's Pope became America's Pope at the time of Japan's largest demonstrations against war in 2015.

Destructive policies

In the midst of the drought leading to the largest fire storm Australia has ever experienced the UN stopped the building of a dam wall for Sydney Australia. It's an insult to national sovereignty and of course it's meant to be.

'A UN committee including members from China, Cuba, Uganda and Burkina Faso will oversee key decisions on Sydney's future water supply, flood mitigation and flight paths from the new international airport.' July 2019. Notice who are the board members, halting the extension of the dam-China. In other places however-the

Murray-Darling Basin, many dams have been built destroying the river system which means Australians will not have enough water to supply the country's need within 10 years. Most of these companies are Chinese agricultural companies that have invested in Australian properties.

The goal of the UN for global sustainability is to move people out of the rural areas and into the large cities. Globalisation is not imposed as a total movement or it would never be accepted but in increments through regionalisation. Over \$200 million has been spent on dam projects with nothing to see for the money spent with it benefiting private corporations.

In 2021 \$3.5 billion is being used for critical water infrastructure and planned to press ahead with supporting major new dams or dam extensions such as Wyangala Dam in NSW with it being headlined as the most expensive water in history. And will any dams be filled? Since private corporations have already filled their dams and destroyed the central Australian river system.

The Murray-Darling Basin is one of Australia's most significant agricultural areas with state-owned companies buying rights to Australia's scarce water supply. The Murray-Darling is the most productive agricultural areas in the country, producing a third of Australia's food.

While a number of dams have been built Maryanne Slattery, senior water researcher at the Australian institute, said politicians don't want to talk about these dams because "they do nothing for drought-stricken communities, the health of the river or struggling farmers". "These dams have been built on private land and are for the exclusive use of corporate agribusiness, such as Webster Limited," she said. "Politicians are reluctant to talk about why millions of taxpayer dollars have been spent subsidising dams that make the problems of the Murray Darling Basin worse".

The United Nation has an insidious and increasing control over the member nation's actions as part of Global governance such as urban development which is implemented under local councils without the ratepayers ever knowing or land swaps for poor countries which is an exchange of land to wipe debt that countries would never be able to repay. Its influence is in the conservation movement and disaster action plan when Australia should have been following the indigenous plan of back burning rather than UN green policies. People such as Obama, Pope Francis, the UN and many others pointed to what was gross negligence as an example of climate change when UN policies were contributing to the disasters.

In February 2009, 173 people died during massive fires in Victoria through environmental policies. I suppose we took it for granted that authorities may have learnt better strategies for dealing with a problem since the disaster of 2009. 10 year later, in 2019 the record-breaking fires raged for about 6 months following the east coast of Australia. We found the fire storms so hot that they created their own storm ahead of the furnace including heavy wind and lightning and it was one of the first exercises in partial national shut down and restricted movement. People were evacuated and not allowed to return to their homes by the police as they huddled together in community centres. The difference here was the intensity and scope and duration of the fires. The sky was dull and spewed out ash for hundreds of miles.

Traditional land owners as they pointed out, had always burnt back the undergrowth which now was not allowed. People were limited by law in what could be picked up from the ground or not allowed to fell trees. Fire trails were not maintained and these conservation efforts led to a record loss of wild life in these massive fires. God intension for man to care for the planet was not to leave it uncared for but has given man dominion over the planet under the guidance of His natural laws as specified in the Bible.

Pictured Cobargo's main street where historic shops and restaurants burnt to the ground. In many places no fire truck was available to fight the fires and the fires would follow creek beds and grass fires burnt down the houses despite them being cleared of vegetation around the house. The prayer of Christ has real relevance for this time- 'deliver us from evil.'

Similar reports to Australian fires of 2019-20 there followed fires in California and Canada with thousands of lightning strikes setting the stage for an apocalyptic scene.

In every month of 2022, Lake Mead's water level has been the lowest recorded for the time of year since the reservoir was first filled.

Not only were there scenes of fire at the golden gate bridge but through corrupt environmental policies fresh drinking water was being taken out to sea leaving the cities facing drought. Reservoirs in California were by law forced to release water for temperature control and species conservation. 'All that water we saved went out the golden gate bridge....4.5 million acres feet had gone out since the beginning of the water year.'

Floods

In 2021 to 2022 we wondered when the rain would ever stop with repeated floods along the whole stretch of the Australian east coast and its cities. There was not just one flood but repeated flooding in areas such as Lismore and Windsor. During the covid crisis Lismore seemed to avoid much of the Lockdown restrictions but in 2022 k-mart became a sea with floods rising 2 metres above previous flood levels and news teams reporting from boats as they drove across 2nd storey roof tops.

This was one just one nation's experience in extreme weather patterns but across many nations.

There are no details of weather modification activities which has been largely been given to private hands. There is a lack of transparency from governments, though we have the assurance that floods and extreme temperatures will only get worse.

The Bureau of Meteorology asked that media outlets to ensure references to their organisation are by its full name, the Bureau of Meteorology or the Bureau for short, and not the BoM. This as the media frighten the pants off everyone with severe weather BOMs coming your way, in what sees like a wave of events.

ABC management unaware of BOM decision to replace meteorologists for radio updates

A senior ABC manager says the broadcaster had to ask for a "please explain" from the Bureau of Meteorology after changes to forecasting started to affect radio programs.

The bureau is moving away from having meteorologists provide weather crosses to the ABC and commercial radio programs in favour of using less qualified "community information officers".

Hugh Martin, head of Regional, Rural and Emergency at the ABC, said he had concerns including further centralisation of bureau staff presenting weather crosses to ABC programs.

"There had been some concerns in some of our regional stations that they were getting crosses from [interstate] locations," Mr Martin said.

Rosalind Peterson from California addressed the UN in 2007 concerning the real crisis of weather modification speaking for the agricultural defence coalition formed in 2006. Rosalind Peterson stated there is no public oversight of these programs. US defense, DARPA and others have a long and ongoing interest in weather modification and pose themselves as looking for solution when weather warfare is creating the problems.

Biden has ordered a quick turnaround analysis of the security implications of climate change from Secretary of Defense Lloyd Austin and Director of National Intelligence Avril Haines in identifying climate change as a national security issue. In 2022 US Defense

Department sent a high-level delegation to the United Nations climate change conference (or COP27) in Egypt, led by the department's first-ever chief sustainability officer- Lloyd Austin. The U.S. Department of Defense is the world's largest institutional user of petroleum, and therefore the single largest producer of greenhouse gases in the world. Its wonton destruction makes it the number one contributor to the destruction of the planet.

Weather modification is indeed man made with companies collaborating with private business to change the microclimates for agriculture and at an international level climate modification is as real as the nuclear arms race.

Expectations Of Weather Modification Technology To Prevent Subsequent Floods

Press conference on Weather Modification Technology (TMC) operation (Mery Handayani / VDI)

JAKARTA - The Agency for the Assessment and Application of Technology (BPPT) has reduced high rainfall in the Jabodetabek area. After the rain is reduced, it is hoped that the puddles that have soaked the Capital City can be immediately resolved. This reduction is done by operating the Weather Modification Technology (TMC).

The head of BPPT, Hamman Riza hopes, this TMC can reduce the intensity of rainfall in the Jakarta area and its surroundings. Because, according to him, high rainfall has become the main factor triggering the flooding that has occurred in recent days.

"Thus, the risk of widespread flooding in DKI Jakarta and its surroundings can be further suppressed," he said, during a press conference for TMC Operations, at the BPPT Office, Jalan MH Thamrin, Central Jakarta, Friday 3 December.

Just what effect does Indonesia's weather modification programs have on Australia or Australia on other nations, is difficult to determine. There is just so many nations involved in various forms of weather changes worldwide.

As weather modification takes place in two major nations across the opposite side of the equator in behind the scenes for control of NWO, it has a major effect on **El Niño** and **La Niña** weather patterns across the world. They can never control but can disrupt weather systems.

The weather is part of the defense program.

A massive cyberattack against Australia's Bureau of Meteorology may have allowed hackers to access the nation's defence department through a linked network.

Potentially sensitive national security information could have leaked in the attack on the Bureau of Meteorology which owns one of Australia's largest supercomputers, the Australian Broadcasting Corporation (ABC) reported today

Defense Meteorological Satellite Program (DMSP)

Since the mid-1960's, when the Department of Defense (DoD) initiated the Defense Meteorological Satellite Program (DMSP), low, earth-orbiting satellites have provided the military with important environmental information. Each DMSP satellite has a 101 minute orbit and provides global coverage twice per day.

The DMSP satellites "see" such environmental features as clouds, bodies of water, snow, fire, and pollution in the visual and infrared spectra. Scanning radiometers record information which can help determine cloud type and height, land and surface water temperatures, water currents, ocean surface features, ice, and snow.

Communicated to ground-based terminals, the data is processed, interpreted by meteorologists, and ultimately used in planning and conducting U.S. military operations worldwide.

The DMSP is managed by the Space and Missile Systems Center, Los Angeles Air Force Base, CA.

Daily operations is provided by the National Oceanic and Atmospheric Administration in Suitland, MD.

Across the world, water and energy is a major problem as environmental issues take precedence. The restrictions are enforced by court laws. This is not a conversation taking place with the public but just branded as drought from climate change. Besides weather manipulation, there are environmental policies causing drought in the war against the western nations populous.

The tempest is coming and we must get ready for its fury by having repentance toward God and faith toward our Lord Jesus Christ. The Lord will arise to shake terribly the earth. We shall see troubles on all sides. Thousands of ships will be hurled into the depths of the sea. Navies will go down, and human lives will be sacrificed by millions. Fires will break out unexpectedly

and no human effort will be able to quench them. The palaces of earth will be swept away in the fury of the flames. Disasters by rail will become more and more frequent. Confusion, collision, and death without a moment's warning will occur on the great lines of travel. The end is near, probation is closing. Oh, let us seek God while He may be found, call upon Him while He is near!—[Messages to Young People, 89, 90 \(1890\)](#).

Figueres: First time the world economy is transformed intentionally

3 February 2015 - The Top UN Climate Change Official is optimistic that a new international treaty will be adopted at Paris Climate Change conference at the end of the year. However the official, [Christiana Figueres, the Executive Secretary of UNFCCC](#), warns that the fight against climate change is a process and that the necessary transformation of the world economy will not be decided at one conference or in one agreement.

"This is probably the most difficult task we have ever given ourselves, which is to intentionally transform the economic development model, for the first time in human history", Ms Figueres stated at a press conference in Brussels.

"This is the first time in the history of mankind that we are setting ourselves the task of intentionally, within a defined period of time to change the economic development model that has been reigning for at least 150 years, since the industrial revolution. That will not happen overnight and it will not happen at a single conference on climate change, be it COP 15, 21, 40 - you choose the number. It just does not occur like that. It is a process, because of the depth of the transformation."

Climate change is through human intervention on a massive international scale amongst governments first and foremost and then its citizens not the other way with intentional manipulation and experimentation with the weather. And using the weather as a political tool by the UN to bring about economic change.

'The 2030 Agenda for Sustainable Development was agreed by 193 Member States at the United

Nations Sustainable Development Summit

in New York in September 2015.'

"This is probably the most difficult task we have ever given ourselves, which is to

intentionally transform the economic

development model, for the first time in human history", Ms Figueres stated at a press conference in Brussels. This is the first time in the history of mankind that we are setting ourselves the task of intentionally, within a defined period of time to change the economic development model that has been reigning for at least 150 years, since the industrial revolution. That will not happen overnight and it will not happen at a single conference on climate change, be it COP 15, 21, 40 - you choose the number. It just does not occur like that. It is a process, because of the depth of the transformation." Christiana Figueres, the Executive Secretary of UNFCCC. This statement coincided with the Pope's visit in September of 2015 to the United Nations delegates in New York.

José María Figueres son of Costa Rican president has also conducted a successful presidential campaign to become the nation's president. It was alleged Figueres was not Roman Catholic by the media when Costa Rica's political constitution establishes the Catholic faith as the official State religion. Monsenor Román Arrieta, Archbishop of San José and President of the Episcopal Conference stepping in to acknowledge Figueres had been baptized a Roman Catholic. Klaus Schwab

appointed Figueres CEO of WEF in 2003 as intended successor, however he resigned in the following year. Figueres is heading the reduction of the carbon footprint as founder of Ocean Unite to reduce global shipping carbon footprint and a board member of the Rocky Mountain Institute.

The Pope in 2015 published his encyclical called Laudato Si, the same year as the above statement from Figueres was made.

What is the aim of this movement which is the basis of the Paris Agreement, which all the nations of the world are signed into, based on **Laudato Si**?

From **Laudato Si**: 'A global consensus is essential for confronting the deeper problems, which cannot be resolved by unilateral actions on the part of individual countries. Such a consensus could lead, for example, to planning a sustainable and diversified agriculture, developing renewable and less polluting forms of energy, encouraging a more efficient use of energy, promoting a better management of marine and forest resources and ensuring universal access to drinking water.'
"We know that technology based on the use of highly polluting fossil fuels – especially coal, but also oil and, to a lesser degree, gas – needs to be progressively replaced without delay.'

On Sunday, our participation in the Eucharist has special importance. Sunday, like the Jewish Sabbath, is meant to be a day which heals our relationships with God, with ourselves, with others and with the world. Sunday is the day of the Resurrection, the "first day" of the new creation,

whose first fruits are the Lord's risen humanity, the pledge of the final transfiguration of all created reality. It also proclaims "man's eternal rest in God".

The little horn has eyes of man, and a mouth speaking great things. Daniel 7:8 Implementing its power through its own times & laws

In this way, Christian spirituality incorporates the value of relaxation and festivity. We tend to demean contemplative rest as something unproductive and unnecessary, but this is to do away with the very thing which is most important about work: its meaning. ... Rest opens our eyes to the larger picture and gives us renewed sensitivity to the rights of others.

And so the day of rest, centred on the Eucharist, sheds its light on the whole week, and motivates us to greater concern for nature and the poor. p, 237

Sunday observance for environmental reasons is inspired by the Papacy to regain its former power. Daniel 7:25 says the 'little horn', 'thinks to change times and laws.' Times and laws are the source of her power and will bring the might and surveillance of the United States to affect that change world-wide change.

Young people such as Greta Thunberg are the front for the globalist agenda with millions of schoolchildren and students around the world marching or holding events as part of the movement. But she is not alone as film crew followed her journey. 'In the space of a year, Ms Thunberg has gone from her lone protest to speaking at Davos, the European Union, the US Congress and this week the United Nations, on the heels of last Friday's marches in cities across the world.'

This is a very insightful comment from a young person about the climate agenda Rio de Janeiro. 'The summit has attempted to involve otherwise powerless people of society in the process. But by observing the process we now know how undemocratic and untransparent the UN system is. Those

of us who have watched the process have said that UNCED has failed. As youth we beg to differ. Multinational corporations, the United States, Japan. The World Bank, The International Monetary Fund have got away with what they always wanted, carving out a better and more comfortable future for themselves...UNCED has ensured increased domination by those who already have power. Worse still it has robbed the poor of the little power they had. It has made them victims of a market economy that has thus far threatened our planet. Amid elaborate cocktails, travelling and partying, few negotiators realized how critical their decisions are to our generation. By failing to address such fundamental issues as militarism, regulation of transnational corporations, democratization of the international aid agencies and inequitable terms of trade, my generation has been damned.' The Rio de Janeiro Earth Summit- The United Nations Conference on Environment and Development (UNCED held in Rio de Janeiro from 3 to 14 June in 1992.

We see some of the goals of Agenda 21 having already to a large degree been achieved such as the end of national sovereignty with privatization of utilities and infrastructure, native title, laws on land ownership changing as well as urban development changes and the rising cost of private property in western countries. The restructure of family with gender roles changing and many other aspects of family life.

'More directly linked to the impact of technology, it involves the gradual appearance of a more

controlled and directed society. Such a society would be dominated by an elite whose claim to political power would rest on allegedly superior scientific know-how. Unhindered by the restraints of traditional liberal values, this elite would not hesitate to achieve its political ends by using the latest modern techniques for influencing public behavior and keeping society under close surveillance and control.' **Zbigniew Brzezinski**

The technocratic era involves the gradual appearance of a more controlled society. Such a society would be dominated by an elite, unrestrained by traditional values. Soon it will be possible to assert almost continuous surveillance over every citizen and maintain up-to-date complete files containing even the most personal information about the citizen. These files will be subject to instantaneous retrieval by the authorities. **Zbigniew Brzezinski**

'The trajectory is to have 626 million face recognition cameras installed by 2020 in China. That is one camera for every 2.2 people using artificial intelligence soft wear.' China is surprisingly a model of the world to be. The Jesuits might have had some problems with communism as it once appeared at Tiananmen square but not a problem with the changes brought about since with the technocracy model of China today with absolute surveillance and control and state recognized churches. Pope Francis like many other Jesuits admire a form of Marxist communism and oppose western materialism.

The earth has actually become greener since the 1990s according to satellite images due to the Chinese and Indian environmental programs. A Chinese citizen is given a 'social credit score' and according to that score the future citizen will be allowed educational and work opportunities, housing. This will involve him or her also being a model environmentalist and the future key to environmental issues amongst other things is to have a worldwide Sunday family and environmental day. The Papacy's power lies in the times and laws that the world follows- this is its distinguishing mark; for example we follow the Pope Gregory calendar, Easter, Sunday worship instead of the day given in the commandments of God. Evangelicals in American office are also keen to legislate 'Christian values and worship.' So the mark is placed on the hand by force or in the forehead by a conscience agreement.

The Sunday movement is now making its way in darkness. The leaders are concealing the true issue, and many who unite in the movement do not themselves see whither the undercurrent is tending. . . .

They are working in blindness. They do not see that if a Protestant government sacrifices the principles that have made them a free, independent nation, and through legislation brings into the Constitution. principles that will propagate papal falsehood and papal delusion, they are plunging into the Roman horrors of the Dark Ages.--RH Extra, Dec. 11, 1888. {LDE 125.3}

The Jesuit and UN agenda are one

Fr General Arturo Sosa SJ, Superior General of the Society, on 19 February 2019 announced the four new Universal Apostolic Preferences (UAPs), or priorities. The Society of Jesus has named climate change, migrant rights and social exclusion among its priorities for the next decade, and says it wants to **promote the Spiritual Exercises of St Ignatius as an alternative to modern secularism**. The Jesuit general also known as the Black Pope, will attend the upcoming climate summit in New York September 2019.

The world bank and international money fund are American based banks that are trading debt of the poorer nations for land corridors under the control of conservation. An example of the activities of the world bank years ago is India who were told to allow international fishing trawlers into their waters leaving the locals without food and work. The point is they dictate to a country

Having placed countries in irreversible debt by institutions such as the world bank, land for 'Ecological purposes' is swapped for debt allowing resource control of the rich over the poorer nations.

Genetics

False science embraces evolutionary science and the result if carefully thought through is war with its mass destruction and world contamination. The law of genetics is given in the Bible by God Himself written in His Holy law on the second commandment. Warning not to make or serve other gods and breaking God's law would have the result passed down to the third and fourth generation but healing would be given to those who follow His commandments. How is that possible? When the mind is hormonally balanced and the food eaten complies with health standard given by the Bible such as clean and unclean animal and beyond this, we use our intelligence to physically look after the body in a contaminated world, at this point we are beyond being presumptuous and God can add His blessing.

I the LORD thy God [am] a jealous God, visiting the iniquity of the fathers upon the children unto the third and fourth [generation] of them that hate me; And showing mercy unto thousands of them that love me, and keep my commandments. {Exodus 20:5,6}

In the time of the antediluvians Lucifer inspired men to break natural law and cause confusion of the species as seen in the following quote: **Every species of animals which God had created was preserved in the ark. The confused species which God did not create, which were the result of amalgamation, were destroyed by the flood.** Since the flood, there has been amalgamation of man and beast, as may be seen in the almost endless varieties of species of animals, and in certain races of men. {1SP 78.2}

And Enoch also, the seventh from Adam, prophesied of these, saying, Behold, the Lord cometh with ten thousands of his saints, to execute judgment upon all... {Jude 14,15}

But as the days of Noe [were], so shall also the coming of the Son of man be. For as in the days that were before the flood they were eating and drinking, marrying and giving in marriage, until the day that Noe entered into the ark, {Matthew 24:37,38}

Gates Foundation Hired PR Firm to Manipulate UN Over Gene Drives

Due to CRISPR-Cas9, the gene editing technology harnessed from bacteria, gene drives are becoming very easier for researchers to build. Despite the public perception that conservation and public health are what motivates gene drive research, it is known that, besides the contribution of the Gates Foundation, **most gene drive funding comes from the DARPA, the technology foresight arm of the US Dept of Defense.** *"The fact that gene drive development is now being primarily funded and structured by the US military raises alarming questions about this entire field."*

Independent science news for food & agriculture. Jonathan Latham, PhD December 4 2017.

Gene drive can be used to drive populations extinct such as mosquitoes and malaria but it also has the potential to drive the human species extinct.

Bill gates said **'The next epidemic could originate on the computer screen of a terrorist intent on using genetic engineering to create a synthetic version of the smallpox virus ... or a super contagious and deadly strain of the flu.'** Guardian 9th February 2017. Such a telling statement prior to the covid pandemic.

The Defense Advanced Research Projects Agency (DARPA) is racing for the 'good of all humanity' to use plant-based RNA vaccine technology which is new and unproven. 'To produce an mRNA vaccine, scientists produce a **synthetic version of the mRNA** that a virus uses to build its infectious proteins. This mRNA is delivered into the human body, whose **cells read it as instructions to build that viral protein**, and therefore create some of the virus's molecules themselves.' There are many unknowns in this technology because it has never been used before on humans.

..'Researchers are attempting to bring the mammoth back with the use of gene editing, including the controversial CRISPR gene editing tool.'

The mammoth displayed in this museum was sewn back together and testifies to the violence of a terrible calamity that overtook it. In many cases the grass was still found in their mouth. Evidence of the Biblical flood was found at Fairbanks in the early 1900s gold rush with a variety of animals frozen solid and strewn one on top of another in the layers of the river bank.

Genetic engineering and the confusion of species was present in the antediluvian times and contaminated the world. **'The confused species which God did not create, which were the result of amalgamation, were destroyed by the flood.'**

The biotech company Oxitec began releasing hundreds of thousands of genetically engineered mosquitoes in the city of Jacobina (Brazil) between 2013 and 2015. The idea is that genetically modified (GM) males would mate with wildtype females and pass on a gene that kills their offspring before they themselves can breed, ultimately knocking down Jacobina's mosquito populations. According to a genetic analysis

of mosquitoes in the area, it appears the engineered stock has bred with wild mosquitoes and created viable, hybrid insects, scientists reported in *Scientific Reports* last week (September 10). Oxitec disputes these claims Kerry Grens Sep 17, 2019 *The scientist*.

From something reminiscent of Dr Strange love during 1956, the US dropped uninfected female mosquitoes on the civilian population in Georgia and Florida as one of many such experiments on their own population, In operation dropkick. In **Operation Big Itch they released fleas to test their ability as a bioweapon in 1954.**

Foreseen disease & suffering

Prophecy: As religious aggression subverts the liberties of our nation, those who would stand for freedom of conscience will be placed in unfavorable positions. For their own sake they should, while they have opportunity, become intelligent in regard to disease, its causes, prevention, and cure. And those who do this will find a field of labor anywhere. There will be suffering ones, plenty of them, who will need help, not only among those of our own faith but largely among those who know not the truth.--CH 506 (**written 1892**). {LDE 80.2}

I wish to tell you that soon there will be no work done in ministerial lines but medical missionary work.--CH 533 (**1901**).

The ancient world revered the works of the wicked race God had destroyed, and their deeds are being repeated. **God will destroy those that destroy the earth. {Revelation 11:18}** For they turned their long life and superior intellect and skills to evil.

Now therefore fear the LORD, and serve him in sincerity and in truth: and put away the gods which your fathers served on the other side of the flood, and in Egypt; and serve ye the LORD. And if it seem evil unto you to serve the LORD, choose you this day whom ye will serve; whether the gods which your fathers served that were on the other side of the flood, or the gods of the Amorites, in whose land ye dwell: but as for me and my house, we will serve the LORD. {Joshua 24:14,15} The heathen nations deified their antediluvians heroes from before the flood.

In the parable of the sower the question was asked the master, "Didst not thou sow good seed in thy field? from whence then hath it tares?" The master answered, "An enemy hath done this" (Matthew 13:27, 28). All tares are sown by the evil one. Every noxious herb is of his sowing, and

Pharmaceutical companies saw an advantage of using animal-human chimeras to test their drugs that was difficult to test on human subjects because of restrictions by law. In the past poor nations were used as guinea pigs but these practices put the companies in a bad light. Chimeras are what stem cell technology is derived from. Stem cells are being used primarily to treat cancer.

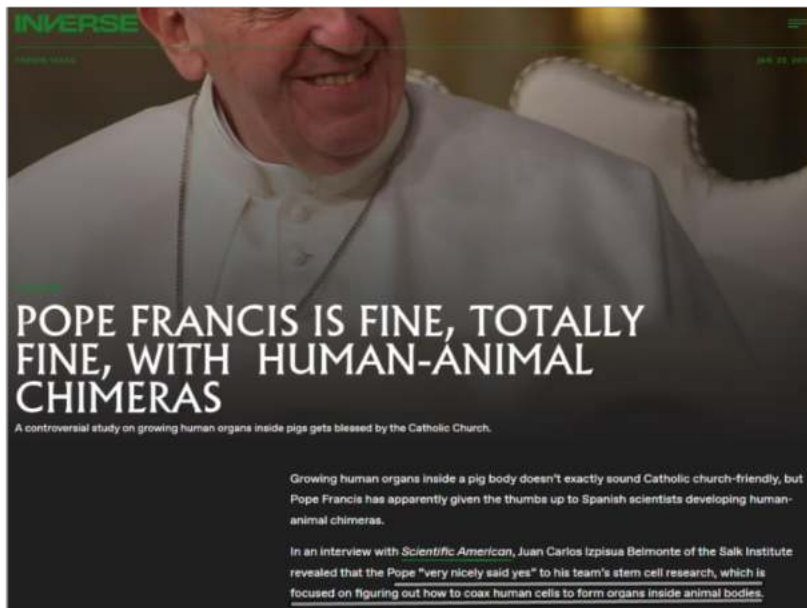

Young centaur from Greek mythology found in the Museum Capitolini Rome depicts half man half horse. Legends of the antediluvian era when men lived out their long lives, destroying the environment and nature that God had given into their trust. This represents as in the days of Noah so shall it be in the days before the coming of the son of man.

A chimeric embryo is created when pluripotent stem cells (that is cells that can become any cell in the body) are added to an embryo from the same or another species.

In 2017, Portuguese researchers created a chimera virus, a mouse virus with a human viral gene, which enables them to investigate new ways to treat cancer caused by human herpes virus infection. The team found out that when the cancer-causing virus loses a protein, called LANA, it also loses its ability to cause cancer.

Note herpes virus pops up everywhere. It was present as a side effect in chicken pox and Bell's Palsy to mRNA vaccines. herpes virus

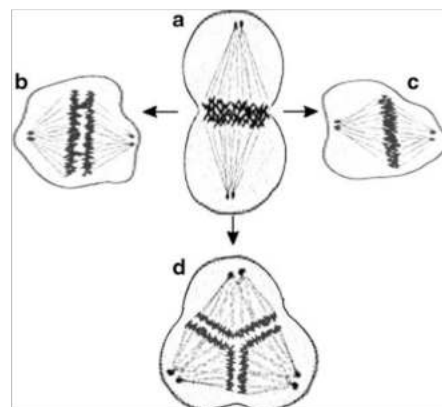

The first individual human cell grown in the lab was a tumor cell in 1951, when researchers collected and stored Henrietta Lacks' cancer cells that had the advantage of endless replication, to make the first immortal cell line called HeLa.

HeLa cells are
hypertriploid and have a
modal chromosome number
of 82, with four copies of

chromosome 12 and three copies of chromosomes 6, 8, and 17. It turns out ordinary human cells can only divide between 40 and 60 times before they undergo a violent, pre-determined death. This strict cut-off is known as the 'Hayflick limit'. HeLa meant cells were now studies outside the human

body. The cells Gey collected from Lacks are still the most commonly used in research today in the human genome, disease and vaccine research. American

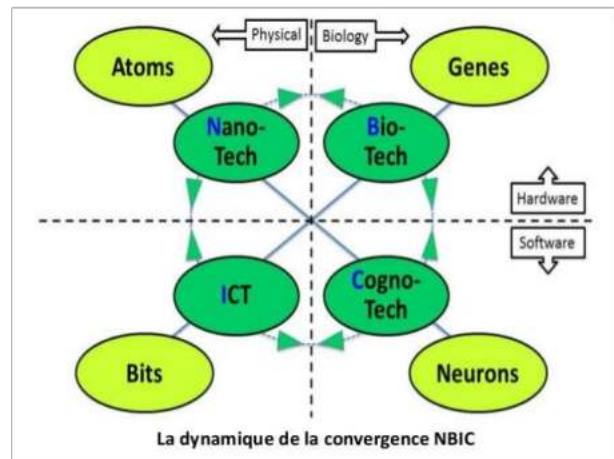

Virologist Angela Rasmussen, says Lacks' cells were used to study the effect of SARS-CoV on humans, providing inputs for the development of a mRNA vaccines to identified the infectivity of the virus SARS-CoV-2 in humans. The polio vaccine was the first to be

developed from the immortal line in the 1950s. HeLa cells have been used to test the effects of radiation, cosmetics, toxins, and other chemicals on human cells. The immortal cell line has been used for gene mapping and coincided with the discovery in 1953 of the double helix by Crick and Watson both evolutionary scientists.

[https://www.bbc.com/future/article/20201103-the-controversial-cells-that-saved-10-million-lives.](https://www.bbc.com/future/article/20201103-the-controversial-cells-that-saved-10-million-lives)

Man playing God says, 'Evolution for the survival of the genes now entered a new phase, evolution under reason. Man become master of his destiny and power has been transferred from nature to science.' The aim of transhumanism is immortality. Now we see the convergence of sciences called NBIC.

Using computer science can slice the genetic at will.

The World Economic Forum associated with the United Nations has a very comprehensive plan for the world including biotechnology and genetic engineering. We see the results of transgenics well established with over 70% of foods sold in the US from genetically modified crops. In January 2021 the forum meets for the 'Great Reset' following the Covid 19 pandemic with an aim of directing every aspect of our life from how we will live, to what food we will have, to how we will be monitored and it's not a matter of free choice.

DARPA is well underway with genetic modification to create an elite army of super soldier. For example, 'Soldiers will be capable of telepathy, run faster than Olympic champions, lift record-breaking weights through the development of exoskeletons, re-grow limbs lost in combat just like a salamander, possess a super-strong immune system, go for days and days without food or sleep...' DARPA is interested in improving every sense to give it the advantage and has launched the BBrainSTORMS project to test the technology in hopes that it will allow soldiers injected with the nanoparticles to communicate with military systems with just their thoughts. As man has the

opportunity to get into the genetic code created by either nature, he can enhance the evolutionary process and play God.

But if there was one sin above another which called for the destruction of the race by the flood, it was the base crime of amalgamation of man and beast which defaced the image of God, and caused confusion everywhere. We think that this practice is new but the Bible simply says there thoughts were continually evil despite their intellectual supremacy.

Why do the heathen rage, and the people imagine a vain thing? He that sitteth in the heavens shall laugh: the Lord shall have them in derision. Then shall he speak unto them in his wrath, and vex them in his sore displeasure. {Psalms 2:2; 4,5.}

There are laws by which humanity operates which God has spoken to us about. It is about internal hygiene which determines the microbial activity. The study of such a science looks at factors influence positively the commensal virome.

When these laws are followed God says, 'If you diligently heed the voice of the LORD your God and do what is right in His sight, give ear to His commandments and keep all His statutes, I will put none of the diseases on you which I have brought on the Egyptians. For I *am* the LORD who heals you.' {Exodus 15:26}

Playing with the genetic code and crossing species, following evolutionary theories, while disobeying hygiene laws and practices that are God given and ignoring natural laws will destroy the planet and God says **'He will destroy those that destroy the earth.'** Believing that men and women can use technology to create immortality by integrating the evolutionary sciences is one of the biggest threats to humanity at this time.

Global Village

The Jesuit maxim comes from Aristotle— 'Give me the child for the first seven years and I'll give you the man.' In September 2019 Pope Francis announced renewed initiative to form an international and interreligious alliance, which he described as "global village" to educate each child and promote care for the earth. an international event hosted at the Vatican on May 14, 2020 on "Reinventing the Global Educational Alliance," which "the most significant personalities of the political, cultural and religious world" will be invited to attend. "According to an African proverb, 'it takes a whole village to educate a child.' We have to create such a village before we can educate," Francis said. "Education is a formidable tool for consolidating a process of inclusion that extends to the entire human family," "Democracy: An educational urgency in multi-cultural and multi-religious contexts." By May 14, 2020 the pope was praying for the end to the pandemic.

The global village has been around us for a long time. In the councils, schools, universities, on the news and current affair programs pushing the false science and inclusion of transgender right into many of the churches.

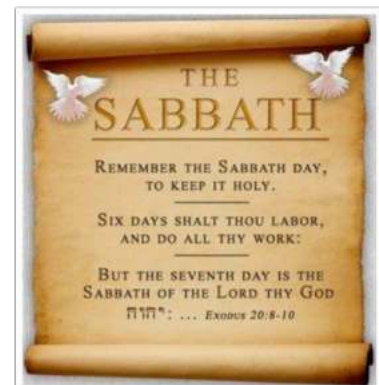

In 2021 the pope launched a 7 year action plan. The pope explained that the action plan also has seven goals: the response to the cry of the earth, the response to the cry of the poor, ecological economics, adoption of simple lifestyles, ecological education, ecological spirituality, and community involvement. The Laudato si' Action Platform will focus on seven sectors: families, parishes, schools, hospitals, businesses, organizations, and religious orders. In addition to the Vatican dicastery, Eco-Jesuit, the Pan-Amazonian Church Network (REPAM), the Global Catholic Climate Movement, the Union of Religious Superiors in Rome, and other Catholic groups are involved with the organization of the seven years of programming.

Already there is a young army of activists with school strikes starting Greta of course, gluing themselves to the pavement, public speaking, heading into law. Connecting climate change with sustainability and feminist and indigenous rights.

The sign or mark of the beast or the seal of God

At the core of *Laudato Si'* and therefore the Paris Agreement is the sabbath. Quote: On **Sunday**, our participation in the Eucharist has special importance. Sunday, **like the Jewish Sabbath**, is meant to be a day which heals our relationships with God, with ourselves, with others and with the world. Sunday is the day of the Resurrection, the “first day” of the new creation, whose first fruits are the Lord’s risen humanity, the pledge of the final transfiguration of all created reality. **It also proclaims “man’s eternal rest in God”**. In this way, **Christian spirituality incorporates the value of relaxation and festivity**. We tend to demean contemplative rest as something unproductive and unnecessary, but this is to do away with the very thing which is most important about work: its meaning. ... Rest opens our eyes to the larger picture and gives us renewed sensitivity to the rights of others. And so the day of rest, centred on the Eucharist, sheds its light on the whole week, and motivates us to greater concern for nature and the poor. *Laudato Si'*, 237

Speak thou also unto the children of Israel, saying, Verily my sabbaths ye shall keep: for it [is] a sign between me and you throughout your generations; that [ye] may know that I [am] the LORD that doth sanctify you. Ye shall keep the sabbath therefore; for it [is] **holy unto you**: every one that defileth it shall surely be put to death: for whosoever doeth [any] work therein, that soul shall be cut off from among his people. Six days may work be done; but in the seventh [is] the **sabbath of rest, holy to the LORD**: whosoever doeth [any] work in the sabbath day, he shall surely be put to death.

Wherefore the children of Israel shall keep the sabbath, to observe the sabbath throughout their generations, [for] a **perpetual covenant**. It [is] a **sign** between me and the children of Israel **for ever**: for [in] six days the LORD made heaven and earth, and on the seventh day he rested, and was refreshed. {Exodus 31:13-17}

The mark of the beast is not hard to understand if we understand the importance of the law in relation to the gospel as Jesus stated in John 14:21-23. The sign or mark of God is clearly stated in exodus 31:12-18. The mark of the beast is the very opposite of the mark of God.

Having been most specific and detailed in this commandment found twice in the Bible which says remember the only commandment in such detail which we are to remember, the Christian community as a whole have kept a day dedicated to the sun god and observed by a corrupt compromising church.

Remember the sabbath day, to keep it holy. Six days shalt thou labour, and do all thy work: But the seventh day [is] the sabbath of the LORD thy God: [in it] thou shalt not do any work, thou, nor thy son, nor thy daughter, thy manservant, nor thy maidservant, nor thy cattle, nor thy stranger that [is] within thy gates: For [in] six days the LORD made heaven and earth, the sea, and all that in them [is], and rested the seventh day: wherefore the LORD blessed the sabbath day, and hallowed it. {Exodus 20:8-11} This the day Jesus kept and He repeated again and again if you love me keep my commandments.

Blessed [are] they that do his commandments, that they may have right to the tree of life, and may enter in through the gates into the city. {Revelation 22:14}

The mark of God is a day and it is the day the Son of God kept and made Holy. It is a mark of the Son in creation and His work in redemption but was instituted after the creation of men and women The mark of the beast is a day and it is not the day specified or kept by Christ.

As the sign of the authority of the Catholic Church, papist writers cite "the very act of changing the Sabbath into Sunday, which Protestants allow of; . . . because by keeping Sunday, they acknowledge the church's power to ordain feasts, and to command them under sin."--Henry Tuberville, An Abridgment of the Christian Doctrine, page 58. What then is the change of the Sabbath, but the sign, or mark, of the authority of the Roman Church--"the mark of the beast"? {GC 448.1}

People have problems understanding prophecy because they follow the ideas of men in a gospel that that does not follow the example and commands of Christ. They subtract from the Bible the Old Testament leaving it as a dead letter thereby destroying also the new and their keys to understanding this life and they life to come. They disregard the keys to the kingdom in John 14:21-23.

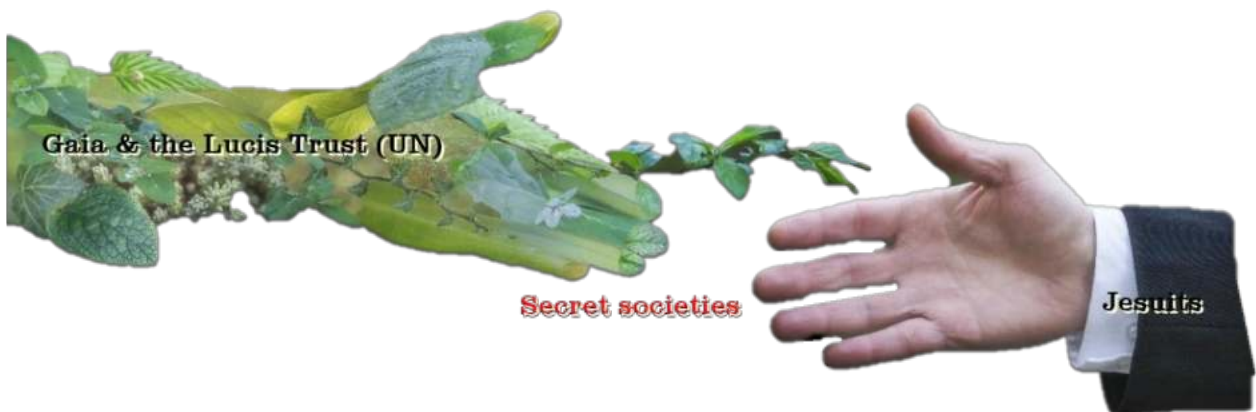

Three angels' messages

Three angels' messages of Revelation 14 are a call to salvation and worship and a warning against losing your soul. The UN has gathered unto itself occult teachings of Alice Bailey working through the Lucas or Lucifer Trust and Gaia. The warning is very strong because the Bible say the dragon that is Satan gave is power and seat unto the beast and the world worshipped the beast and the worshipped the dragon. The beast was so strong it says who is like unto him? Who is able to make war with him?

'When God sends to men warnings so important that they are represented as proclaimed by holy angels flying in the midst of heaven, He requires every person endowed with reasoning powers to heed the message. The fearful judgments denounced against the worship of the beast and his image (Revelation 14:9-11), should lead all to a diligent study of the prophecies to learn what the mark of the beast is, and how they are to avoid receiving it. '

It is through the beast, and those that follow the dragon or the occult and ecumenical or apostate Protestantism that Lucifer himself is introduce to the world as Christ returned. The dragon is Lucifer's symbol as it is also a symbol of Rome. However Lucifer comes not in the appearance of a dragon but an angel of light with the appearance of Christ as described in Revelation.

The Father through His Holy Spirit directs the angels who work through His children to give a warning to the world. Babylon that great tower in which all the nations of the world has gathered will be destroyed. Not only is a wakeup call about worship, it's about your personal liberty, ownership and your future.

And I saw another angel fly in the midst of heaven, having the everlasting gospel to preach unto them that dwell on the earth, and to every nation, and kindred, and tongue, and people, Saying with a loud voice, Fear God, and give glory to him; for the hour of his judgment is come: and worship him that made heaven, and earth, and the sea, and the fountains of waters.

And there followed another angel, saying, Babylon is fallen, is fallen, that great city, because she made all nations drink of the wine of the wrath of her fornication. And the third angel followed them, saying with a loud voice, If any man worship the beast and his image, and receive [his] mark in his forehead, or in his hand, The same shall drink of the wine of the wrath of God, which is poured out without mixture into the cup of his indignation; and he shall be tormented with fire and brimstone in the presence of the holy angels, and in the presence of the Lamb: And the smoke of their torment ascendeth up for ever and ever: and they have no rest day nor night, who worship the beast and his image, and whosoever receiveth the mark of his name.

Here is the patience of the saints: here [are] they that keep the commandments of God, and the faith of Jesus. And I heard a voice from heaven saying unto me, Write, Blessed [are] the dead which die in the Lord from henceforth: Yea, saith the Spirit, that they may rest from their labours; and their works do follow them. {Revelation 14:6-13}

Proselytism a grievous sin

The Pope has repeatedly said: 'Proselytism among Christians, therefore, in itself, is a grave sin and the Church is not a soccer team that goes around seeking fans.'

Proselytism is the policy of attempting to convert people's religious and the Pope has repeatedly said this in direct contradiction to Christ's commission to His disciples.

Go ye therefore, and teach all nations,
baptizing them in the name of the Father, and
of the Son, and of the Holy Ghost: Teaching
them to observe all things whatsoever I have
commanded you: and, lo, I am with you
always, [even] unto the end of the world.

Amen. {Matthew 28:19,20} But you know

they are word smiths so they twist and turn according to the environment. Teaching and seeking the lost as Jesus commissioned does not fit in with ecumenism and the common good.

The pope called 'proselytism the strongest poison against the ecumenical path' when meeting with Lutherans in John Paul VI hall before commemorating the 500th year of the Protestant Reformation and 50 years of dialogue between Catholics and Lutherans. His words spoken next to a decorated statue of Martin Luther in the audience hall. Luther would be shocked by the events transpiring in our day.

UN-Forum Partnership

2019 June 13th, 'the UN-Forum Partnership was signed in a meeting held at United Nations

headquarters between UN Secretary-General António Guterres and World Economic Founder and Executive Chairman Klaus Schwab to accelerate the implementation of the 2030 Agenda for Sustainable Development

The partnership identifies six areas of focus – **financing the 2030 Agenda, climate change, health, digital cooperation, gender equality and empowerment of women, education and skills** – to strengthen and broaden their combined impact by building on existing and new collaborations.'

Klaus Schwab influence by 'Red priest' Helder Camara who met at the WEF in 1974 and also by Henry Kissinger. Schwab founded the European Management Forum, which was renamed the WEF in 1987, Guterres' political career began in 1974, when he became a member of the Portugal Socialist Party and Prime Minister, president of Socialist International in November 1999, devote catholic.

Heading closer to one world religion

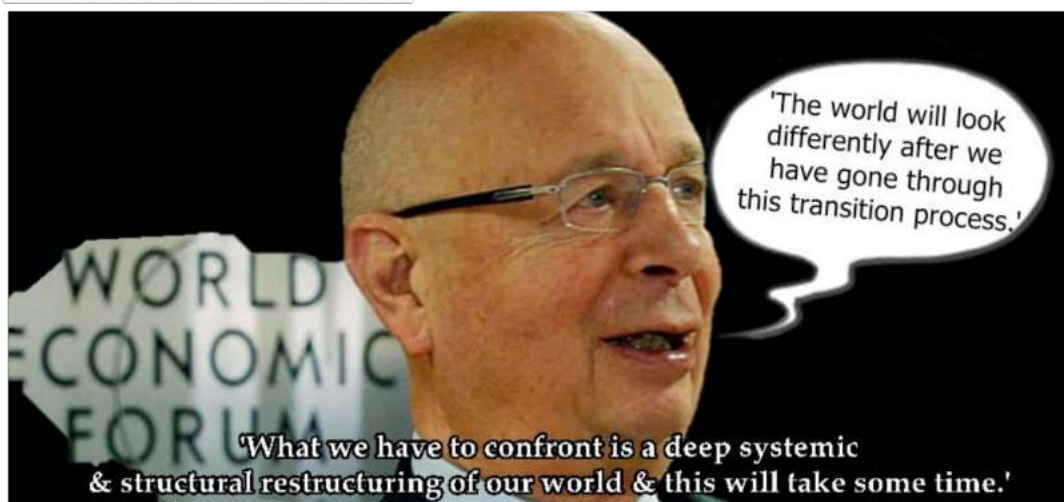

In February 2019, Sheikh Ahmed al-Tayeb the most important imam in Sunni Islam, and he arrived at the signing ceremony in Abu Dhabi with Pope Francis "hand in hand in a symbol of interfaith brotherhood.". According to a British news source, the signing of this covenant was done "in front of a global audience of religious leaders from Christianity, Islam, Judaism and other faiths"

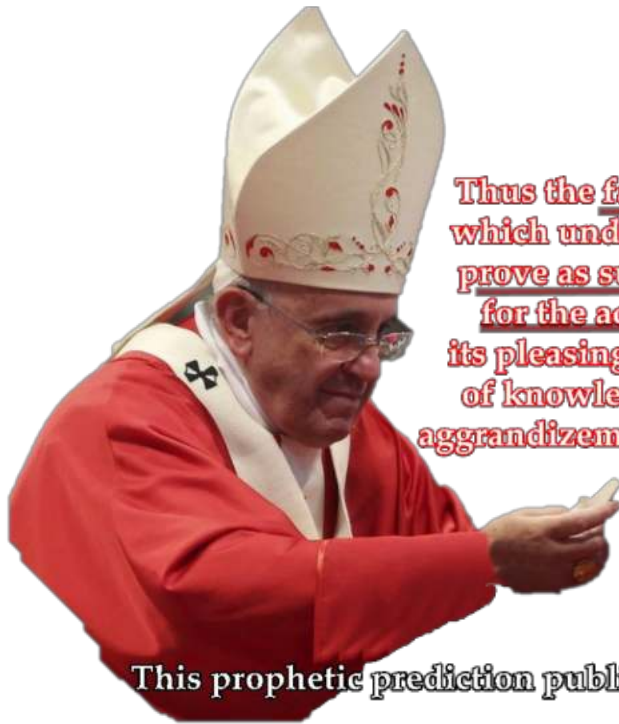

It states: In the name of God and of everything stated thus far, Al-Azhar al-Sharif and the Muslims of the East and West, together with the Catholic Church and the Catholics of the East and West, declare the adoption of a culture of dialogue as the path, mutual cooperation as the code of conduct, reciprocal understanding as the method and standard.

Turning the tide in the Corona vehicle

Under the leadership of Satan there are men who today are **doing all in their power to plunge the world into commercial strife.** Thus Satan is trying to bring about **a condition of things that will make the world uncivilized.** He desires to see **strange things acted out,** which God, who is too wise to err, has not ordained. But the Lord, yes, our God, will be Ruler of the heavens and the earth. If men and women will carry out His requirements, it will be seen that He is Ruler, carrying out His divine will.--Letter 114, Oct. 27, 1910, to Elder A. G. Daniells, president of the General Conference. {TDG 309.6}

Thus the false science of the present day, which undermines faith in the Bible, will prove as successful in preparing the way for the acceptance of the papacy, with its pleasing forms, as did the withholding of knowledge in opening the way for its aggrandizement in the Dark Ages. {GC 572.3}

This prophetic prediction published in 1911.

The steady trend of events has accelerated since Covid and has set off a chain of events. Those who are asking wisdom from God see the current events as the pages of history that belong to Revelation 13 & 14. Many Christians have lost the understanding of the gospel and its associated prophetic foundation.

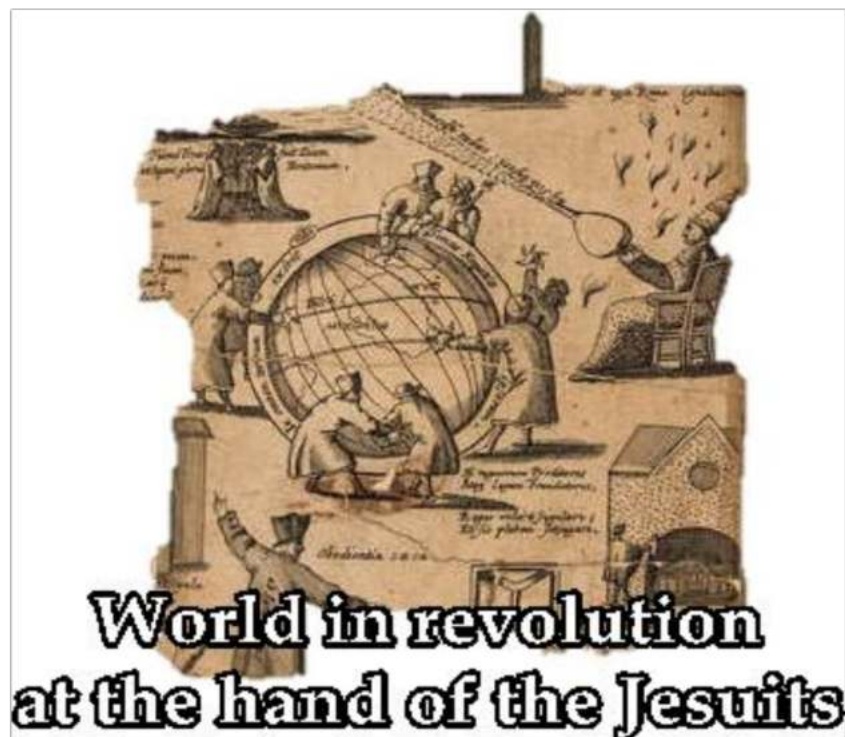

Others live in the past as if all the details of what we see in Revelation 9 and written for our understanding in books such as 'Daniel and the Revelation' by Uriah Smith are not present today but this is a mistake. The church of Laodicea has many and various concepts of the events and theology of our time and not walking in all the light which leaves us in darkness. Laodicea is joined with the world calling this 'conspiracy,' meaning conspiracy theory which is a term used initially by the CIA to turn people away from the scent of their tracks. At this time there could not be a more ominous and looming crisis that confronts people everywhere for which the warnings of Revelation 14 were written. Significant historical past events are being repeated.

The Jesuits alone flourished in the decaying nation, and ruled with dreadful tyranny over churches and schools, the prisons and the galleys." {GC 279.2}

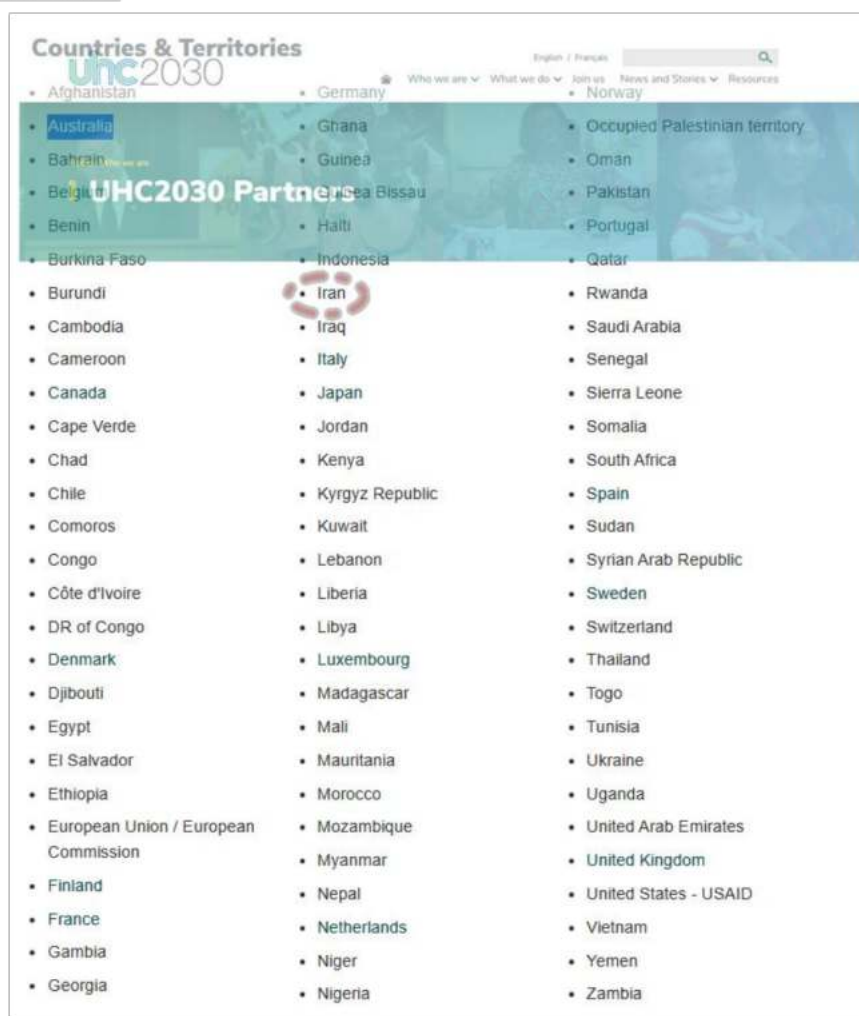

Yielding blindly to her false teachers, Paris, like Jerusalem of old, knew not the time of her visitation nor the things which belonged unto her peace. For two years the word of God was preached in the capital; but, while there were many who accepted the gospel, the majority of the people rejected it. {GC 223.1}

The whole world will be involved in ruin more terrible than that which came upon Jerusalem of old.-- GC 614 (1911). {LDE 239.3}

The premise for health almost everyone can acknowledge is that the microbiome (microbes & it's virome) changes according to the conditions in which they find themselves to support life and conception or cause disease, and most important for health and body defences is the gut microbiome. Trillions upon trillions of viruses are produced by the microbiome's bacteria, parasites, protozoa, and fungi. The Virome is nature's messengers between the microbes. In order to know what side of the fence you are on in relation to treatment you need to have thought about the definition of disease. The old way of thinking was to just destroy germs but that is archaic thinking

which it is the premise of modern-day treatments because of its financial success. Microbes fortify the immune system and they are not determined by taking 'inner health' probiotics. If one carefully thinks this through, we are not working from this basic premise for good health. Instead, we are encouraging a state of disease for cure. This is a second-rate method to approach disease and stated adverse health outcomes as listed above include autoimmune disease, stroke, arthritis, cardiovascular disease.

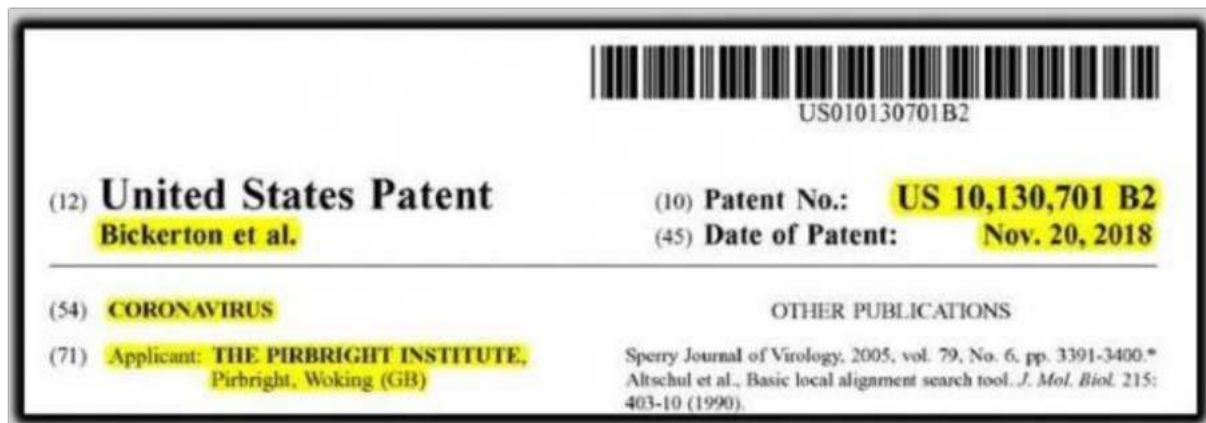

"Assessment of the virome of 8,240 healthy adults (not known to have infectious disease) living in the US and Europe viruses—42 percent of the participants tested positive for the presence of 94 known viruses. The presence of the HIV virus, the hepatitis B virus, the hepatitis C virus, and the influenza virus was found in many individuals." Puts to light the phrase 'genetics loads the gun but lifestyle pulls the trigger'. Question? Are the mRNA vaccines loading the gun?

The cycle of life is a simple explanation of the positive and negative role of the virome which works for or against us according to lifestyle and environmental factors. It is God's way of dealing with sin. Its not about making money or war so its something that big business and higher learning choose to ignore.

DARPA a department closely associated with the CIA gave funding to develop the new vaccines which would have been otherwise impossible. This was followed by private investment by Silicon Valley entrepreneurs such as Bill Gates. Also, in this interrogate web is Fauci's relationship to Gates

and to gain-of-function technology, as to vaccine development and the obvious side stepping of the truth by Fauci when under oath in congress. So those creating the problem present the solution. The

financial gains and controls are staggering!

The details of initial transmission no one will ever know. It appears almost too obvious by the trail

Influenza as a bioweapon

Two years ago, we published a case-control study with the surprising finding that influenza immunization reduced the risk of recurrent myocardial infarction by 66%.¹ Simultaneously, Siscovick and colleagues reported that influenza immunization was associated with a 49% reduction in the risk of sudden cardiac death.² A subsequent report described a 50% reduction in risk of stroke in association with influenza immunization,³ and later a randomized control trial pointed to a 50-75% reduction in the risk of adverse endpoints and cardiovascular death.⁴ Furthermore, an ecological study suggests that the 1918 influenza pandemic may have contributed to the epidemic of coronary heart disease mortality registered in the 20th century.⁵

These data caused us to re-examine the usual estimate that, in the USA, influenza kills 20 000 a year.⁶ From more recent studies of all-cause mortality, we suspect that the total is closer to 90 000. The Spanish flu epidemic in 1918 killed 20-40 million people.⁷ Less severe epidemics were the Asian flu in 1957, Russian flu in 1977, and Hong Kong flu in 1978.⁷ In addition to such spontaneous mutations, we must, since the terrorist attacks of September and October 2001, consider the possibility of malicious genetic engineering to create more virulent strains. Sequencing of the genome of the 1918 Spanish influenza virus is nearly complete; once it is published, unscrupulous scientists could presumably utilize candidate virulence sequences.^{8,9} Recently, the possibility of synthesizing an infectious agent solely by following instructions from a written sequence has moved from theory to practice.¹⁰

Influenza is usually transmitted by direct contact but can also be transmitted by aerosol (e.g. on a passenger plane).¹¹ Indeed, international transmission is increasingly frequent. Notably, aerosol transmission of influenza requires up to 27 000 times fewer virions to induce equivalent disease.¹² Taken together with the

of research on the part of the Chinese and Americans that corona virus was 'lab-driven' by Shi Zhengli and her team of virologists with US funding. This was evident from the beginning for those who were seriously looking at the unusual situation developing. The crisis exposed dangerous research being carried by many biolabs around the world. The crisis had all the surrounding traits of the 2008 financial meltdown with the Covid crisis perhaps temporarily preventing a financial meltdown with money pouring out of the

nations into Big US Pharma. Monopolies and billions accelerated while small business lockdown and closed their doors. Governments were committed to buying vaccines on the recommendations of the WHO and implementing the plan by cohering needles in arms, (just how determined to get needles into arms was to reject one's natural immunity after catching Covid and still insisting on vaccination) having learnt lessons from the failed swine flu pandemic whose vaccination efforts had failed. In the UK millions was spent on unused vaccines for the swine flu epidemic. This time contracts were signed by governments worldwide with the drug companies and followed through. This was the world economic forum's way forward into the 4th industrial revolution which includes mRNA vaccination, that is gene therapy.

'Once in your blood circulation, the spike protein binds to platelet receptors and the cells that line your blood vessels. When that happens, it can cause platelets to clump together, resulting in blood clots and other side effects. The vaccines can deliver viral genes into many kinds of

human cells and turn them into a factory producing the virus's spike protein. The importance of this is: Blood flow and blood quality is our lifeline for self-repair and self-healing. A person may have undetected and unperceived mini clots that develop over time and the initial damage creating scar tissue will not repair in certain organs. "The blood clots we hear about which the media claim is very rare are the big blood clots which are the ones that cause strokes and show up on CT scans, MRI, etc. The clots I'm talking about are microscopic and too small to find on any scan. They can thus only be detected using the **D-dimer test.**' **The reason that covid and associated vaccines caused multiple side effects as stated earlier by the CDC and FDA before the vaccines even rolled out, is its effect on circulation.**

Scientists are particularly concerned about the breakdown of the blood brain barrier. This protective layer breaks down in Alzheimer's disease and other dementias. Reality is that every disease that enters the body such as chicken pox never leaves the system and is manifest again when the immune system runs low. Disease as a result of sin has permanent physical effects which eventually kill us. Therefore, where possible internal hygiene should be maintained. What enters the body remains in the system as a 'seed'. When the immune system is compromised the disease returns but has changed form and location. Chickenpox presents as Shingles or Bell's Palsy for example. Chickenpox is a very appropriate example as herpes infection (chicken pox) is linked to COVID-19 vaccine, where risk increases among people with autoimmune inflammatory rheumatic diseases.

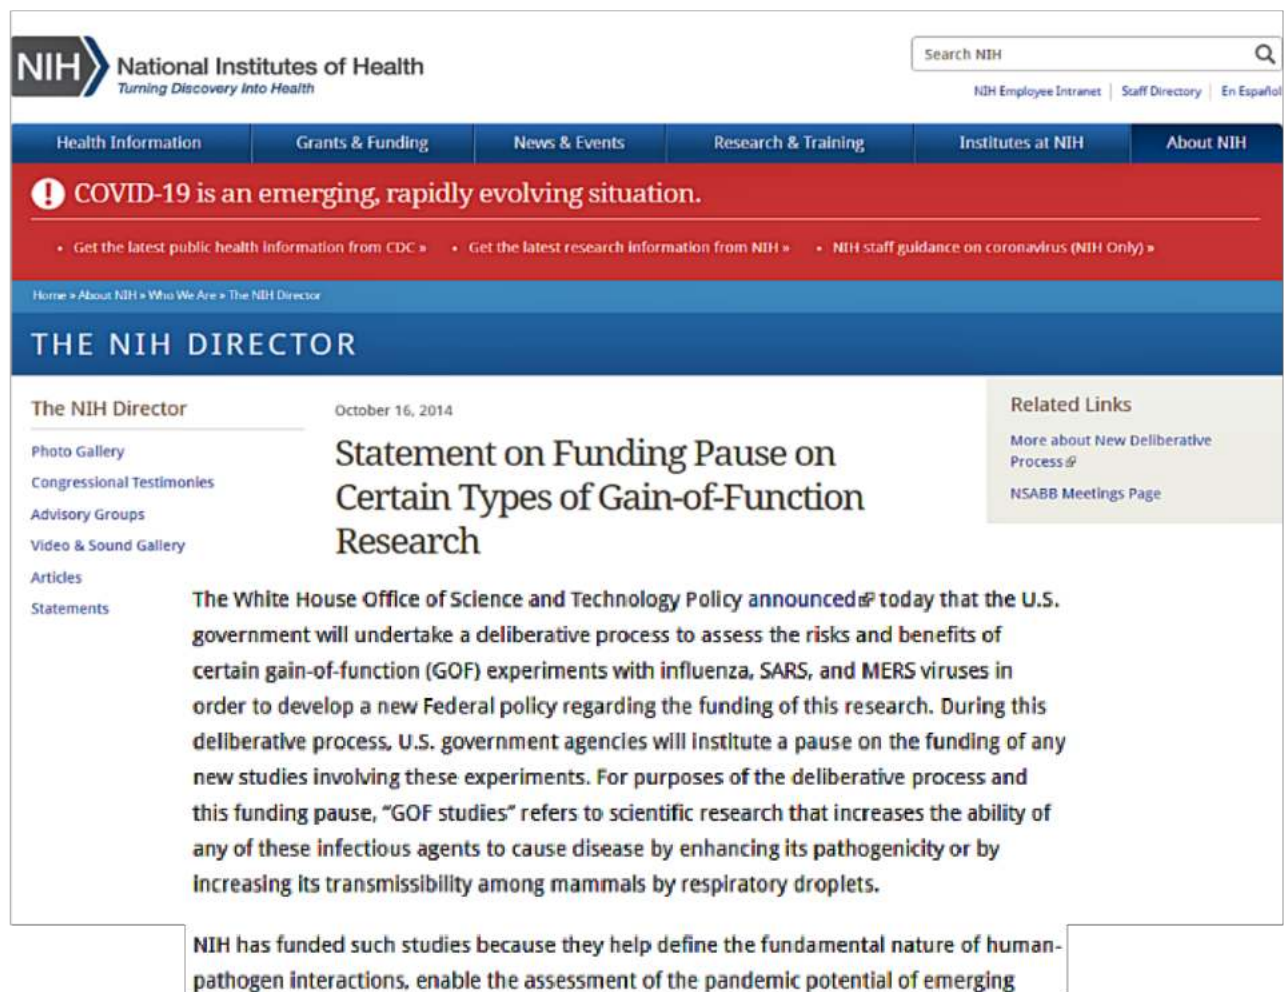

NSW Cabinet minister Victor Dominello was an example of developing Bell's Palsy from the Covid vaccine. An underlying disease in the body can have serious complications down the track. Any disease diminishes the life force and longevity and compromises the immune system. Creating a diseased state in a healthy person, to illicit an

immune response, compromises the body's defences and such is self-evident by the stated side effects but is even more critical to the venerable, the very ones we set out to protect. Internal hygiene cannot be stressed enough.

Our natural immunity in response to covid being superior was said to be insufficient with the need to still be vaccinated and herd immunity dictated to protect the venerable. We were not meant to be born with a needle in our arm.

While gain-of-function was paused because of its dangers in the US when Obama was in office, the research continued through grants in China.

The screenshot shows the NIH website with a red banner at the top stating "COVID-19 is an emerging, rapidly evolving situation." Below this, there are links to get the latest public health information from CDC, the latest research information from NIH, and NIH staff guidance on coronavirus (NIH Only). The main heading is "THE NIH DIRECTOR" dated October 16, 2014. The article title is "Statement on Funding Pause on Certain Types of Gain-of-Function Research". The text states: "The White House Office of Science and Technology Policy announced today that the U.S. government will undertake a deliberative process to assess the risks and benefits of certain gain-of-function (GOF) experiments with influenza, SARS, and MERS viruses in order to develop a new Federal policy regarding the funding of this research. During this deliberative process, U.S. government agencies will institute a pause on the funding of any new studies involving these experiments. For purposes of the deliberative process and this funding pause, 'GOF studies' refers to scientific research that increases the ability of any of these infectious agents to cause disease by enhancing its pathogenicity or by increasing its transmissibility among mammals by respiratory droplets." A quote box at the bottom states: "NIH has funded such studies because they help define the fundamental nature of human-pathogen interactions, enable the assessment of the pandemic potential of emerging

'The US National Institutes of Health, a government agency, awarded a \$3.7million research grant to the Wuhan Institute of Virology. The lab is the center of several conspiracy theories that suggest it is the original source of the coronavirus outbreak. The institute experimented on bats from the source of the coronavirus. They were captured more than 1,000 miles away in Yunnan. Sequencing of the Covid-19 genome has traced it to bats to Yunnan's caves. The U.S. government funded research on coronavirus transmission in the lab over the past decade.' By Frances Mulraney and Glenn Owen, Daily Mail 12 April 2020

Medical scientists were able to isolate the protein that is a key to human cell receptors, to make an artificial virus that is self-replicating by cutting and pasting two different viruses with similar genetic sequencing to HIV. 'Researchers in China are warning that similar characteristics and tactics used by both HIV and SARS-CoV-2 could mean that humanity will have to adapt to life with

the coronavirus, perhaps indefinitely.' The Chinese had accomplished **cross species infection, or had they? Or was it really the US had accomplished cross infection and were funding a Chinese lab to do their dirty work?** Time revealed the answer was at the least US involvement.

Professor Chumakov, chief researcher at the Engelhardt Institute of Molecular Biology in Moscow, said: 'In China, scientists at the Wuhan Laboratory have been actively involved in the development of various coronavirus variants for over ten years. 'Moreover, they did this, supposedly not with the aim of creating pathogenic variants, but to study their pathogenicity. They did absolutely crazy things, in my opinion. For example, inserts in the genome, which gave the virus the ability to infect human cell.

Trump on his re-election campaign bragged that he had rushed through the development of the mRNA vaccines, something that would not sit well with his supporters and then Biden finished the job by mandating it. Reality was it was a CIA/DARPA development long underway before Trump arrived. Not only has the US but Australia's CSIRO and Australian universities participated in at least ten joint projects with the Wuhan Institute of virology over the last decade while looking into gain-of-function research. Gain of function means that a virus more deadly that has not existed in nature before, gains new abilities or property. Emails showed Fauci was looking at the beginning of the pandemic if the coronavirus is 'inconsistent with the expectations of evolutionary theories' and if not, was it artificially created. Cambridge working group campaigned to stop gain- of -function

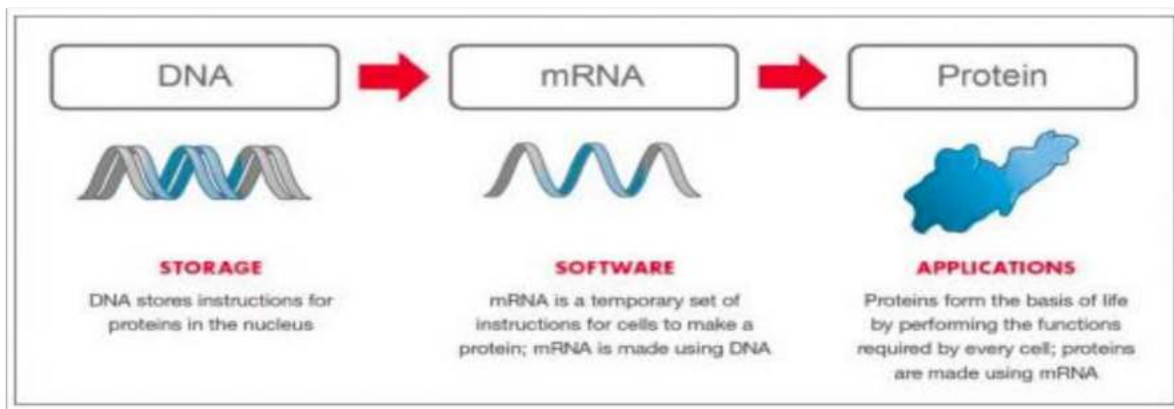

research, years before the pandemic. Cooperative bio-engagement program- DARPA 25 countries including Liberia, Sierra Leone as shown on the world map.

'In late March, Steffen Kotré,

an AFD MP in the Bundestag, claimed that the US was using Ukraine as a bridgehead to destabilize Russia. The lawmaker also noted at the time that *"if we talk about that, we should also talk about the bio labs that are directed against Russia"* – an apparent reference to Moscow's claims that the US had set up such secret facilities in the Eastern European country.' Of course, all the nations were participating in bioweapons.

Most scientists being evolutionists come up with this idea: 'The way the virus' spike proteins interact with a part of human cells called ACE2 is most likely the result of **natural selection**....' The premise on which they start is evolution and so the result of their finding is flawed.

It is interesting that Moderna markets its technology as the software of life but it fails to recognise the basic determinants of life considered in all life cycles. It does not recognise the basic premise of disease that determines life or death.

Anthony Fauci (known as America's doctor) has run the National Institute of Allergy and Infectious Diseases for thirty-six years, through six Administrations and a long procession of viral epidemics:

H.I.V., SARS, avian influenza, swine flu, Zika, and Ebola among them. As Fauci came to the headlines so did his background and objections to his changing advice on mask wearing and lockdown recommendations. It's important to look at cause to effect. By finding the cause we have an answer to how to approach treatment or make recommendations which is exactly what health experts are

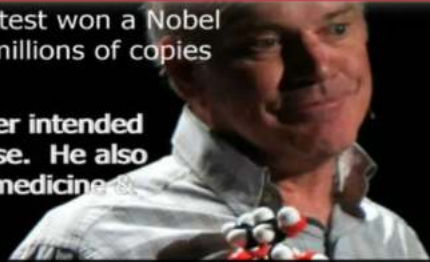

paid for such as Fauci. The Spanish flu was brought back from the WWI in which men fought and died in inhuman and unhygienic conditions. Ebola virus came from the civil war in Sierra Leone with cannibalism and no basic sanitation. Fauci's approach to Coronavirus 'was changing the rules as he goes and lying directly into the camera'

Understanding the science of health is understanding and applying the laws of internal hygiene which is a broad Biblical principal, and not playing with the genome or locking up healthy people. This was an unbiblical absurdity. Quarantine the sick is Biblical but it was in government interests to make everyone a suspect to lockdown using track and trace.

Kary Mullins was the inventor of the PCR test currently used as a covid diagnostic and won a Nobel Prize for this work. Mullins said the PCR test was never designed to be used as a test for infectious disease. He had also worked with Fauci and criticised his handling of HIV for which the PCR test was also used to detect genetic material, called RNA. Mullins said Dr Fauci is an administrator and knows nothing about medicine and what happens at the ground level. He should not be in the position he is in. Though Mullins died unfortunately, the same year as the covid outbreak his comments about Fauci exactly match his changing stance on public health issues during the outbreak.

Mullis shared discovery of the PCR test won a Nobel which allowed scientists to create millions of copies of a single DNA molecule.

Mullis stated the PCR test was never intended as a diagnostic for infectious disease. He also stated Fauci does not understand medicine & should not be in that position.

Kary Mullis, Inventor of the PCR Technique, Dies

The Nobel laureate was a proponent of LSD, a consultant for O.J. Simpson's legal defense, and the creator of a company that infused jewelry with celebrities' DNA.

Kary Mullis, whose invention of the polymerase chain reaction technique earned him the Nobel Prize in Chemistry in 1993, died of pneumonia on August 7, according to [MyNews18.com](https://www.mynews18.com). He was 74 years old.

According to a 1998 profile in *The Washington Post*, Mullis was known as a "weird" figure in science and "flamboyant" philanderer who evangelized the use of LSD, denied the evidence for both global warming and HIV as a cause of AIDS, consulted for O.J. Simpson's legal defense, and formed a company that sold jewelry embedded with

WHO and Big Pharma were rejected by big Pharma when President John Magufuli of Tanzania said COVID-19 Vaccines are 'Dangerous and Unnecessary. I do not expect to announce a lockdown even for one day because our God is living, and he will

continue to protect Tanzanians.' Magufuli belonged to the Church of God. When Magufuli sent samples of fruit and animals to test the validity of Covid 19 testing which proved unreliable, his term of office was likely to be short lived. Magufuli died shortly after, replacing him with a pro-vaccination UN president.

Jesuit under oath

Senator Rand Paul particularly called Fauci out on this in congressional hearings, as Fauci played on his words and changed his narrative. Despite findings that were denied by Fauci under intense congress questioning of funding coronavirus gain-of-function research, a second grant was given to China. 'You awarded this new grant to EcoHealth despite NIAID's parent agency, the National Institutes of Health (NIH), finding that EcoHealth had failed to comply with the terms of previous coronavirus grants and even cancelling a subaward to the Wuhan Institute of

Virology (WIV) for potentially dangerous research that may have contributed to the COVID-19 pandemic.' Note the name ecohealth and the whole business is related to implementing climate change lockdowns.

Just imagine is Fauci had not answered carefully and admitted culpability for the covid outbreak? What would this have meant for so many players? They would have hung him at high noon.

Rand Paul and Fauci both received death threats but it was senator Paul who really faced threats over the years when he was assaulted and ended up with broken ribs leading to breathing issues which contributed to Paul developing pneumonia in 2017. In 2018 police arrested a man who allegedly threatened to murder Paul's family with an ax. By 2021 Paul was the second Republican official to receive white powder in the mail.

Covid brought Fauci to notoriety, and it this, his proud Jesuit training and not just a broad level of training, he was part of an elite intellectual group. Jesuits are the military arm of the catholic church and not just priests, but assume any form, can marry nuns and be any profession but their aim is to influence politicians and statesmen and work with the priests and for the pope of Rome. Says Fauci 'The Jesuit order of the Roman Catholic Church is driven by intellectual curiosity—rigorous

academic pursuits, openness and honesty without having any intellectual constraints put on you.' It appears there were no moral restraint either.

'Xavier disciple of Ignatius Loyola used many Malayalam Vedas texts on Science, Medicine and Mathematics just as the Jesuit spread the teachings of Confucius to Europe as stated in the book 'The Jesuits' by Thomas Worcester. It is from Xavier that Europe came to know about medicinal leech vaccination (among other things), and later Freemason Edward Jenner made a name for himself. The ancient Maharishis from Kerala, like Imhotep, has been vaccinating the Pharaohs of Egypt, 6500 years before Edward Jenner. (The Hindu sexual rites in temples promoted homosexuality and sex with animal and were portrayed on the temple walls as stated in the Vedas texts. It was a filthy religion as seen in the state of the people under Hinduism)

The practice of introducing the content of a pustule from an infected person to a healthy person to protect against subsequent smallpox exposures was known as variolation. The practice of variolation extended from China and India to western Asia and Africa, and arrived in England and continental Europe by the mid-18th century. Despite the success of this procedure, variolation was responsible for a myriad of unwanted side effects: severe scarring, transmission of the infection to others, and transmission of syphilis, as well as fatal outcomes in nearly 2% of cases.'

Anthony Fauci will end a public service career, five decades old, marked by the HIV pandemic at the beginning and the new coronavirus at the end, with the claim he worked always under the principle of 'fidelity to science'.

It was a false science which highly recognised doctors such as Dr Peter McCullough disputed. Dr. Peter McCullough at the end of 2022 is accused of spreading 'misinformation,' as an outspoken COVID-19 vaccine critic and is facing the loss of his registration in cardiology and internal medicine. He is one of the most cited experts in

the medical field, presenting his finding to congress. McCullough has 677 scientific publications to his credit but for standing for conviction of conscience has suffered great personal as well as professional expense. Galileo was sentenced to life in prison under the inquisitors.

Former MP and Australian Medical Association (AMA) president Dr Kerry Phelps took aim at both the Therapeutic Goods Administration (TGA) for failing to adequately follow up vaccine injuries, and the Australian Health Practitioner Regulation Agency (AHPRA) for threatening doctors against speaking out.

Dr Kerry Phelps former head of the Australian Medical Association (AMA), a very public figure who had represented the doctor's association on national health issues and also been a politician, broke her silence about a 'devastating' Covid vaccine injury having both her and her wife suffered serious side effects, slammed the Australian regulator AHPRA for 'censoring' public discussion with 'threats' to doctors. The Australian Health Practitioner Regulation Agency (AHPRA), oversees Australia's 800,000 registered practitioners and 193,800 students, warned during the pandemic not to "undermine" the national Covid vaccine rollout or face deregistration or even prosecution. Practitioners were even warned not to even 'like' anything thus showing support for anything considered anti-vax.

Yet NSW chief health officer Dr Kerry Chant said being vaccinated against Covid is best and safest thing. Once they head done a certain safe its difficult to about face because they don't want to lose face.

AHPRA stated 'any promotion of anti-vaccination statements or health advice which contradicts the best available scientific evidence or seeks to actively undermine the national immunisation campaign (including via social media) is not supported by National Boards and may be in breach of the codes of conduct and subject to investigation and possible regulatory action' thus following the WHO or UN policies.

From the inception of mRNA vaccines there was warnings of enhanced immune response. In other words, vaccination could allow mutations of the virus to result that would exacerbate the problem rather than the explanation that it is a pandemic of the unvaccinated. "The potential for vaccination against SARS-CoV-2 to be associated with disease enhancement is of theoretical concern, given similar observations with other respiratory viruses in general, and in animal models of highly pathogenic coronaviruses in particular.. Immune enhancement of disease can theoretically occur in two ways.

Firstly, non-neutralizing or sub-neutralizing levels of antibodies can enhance SARS-CoV-2 infection into target cells. Secondly, antibodies could enhance inflammation and hence severity of pulmonary disease ...

Abstract

Go to:

This is a Brighton Collaboration Case Definition of the term "Vaccine Associated Enhanced Disease" to be utilized in the evaluation of adverse events following immunization. The Case Definition was developed by a group of experts convened by the Coalition for Epidemic Preparedness Innovations (CEPI) in the context of active development of vaccines for SARS-CoV-2 vaccines and other emerging pathogens. The case definition format of the Brighton Collaboration was followed to develop a consensus definition and defined levels of certainty, after an exhaustive

It is clear that Fauci mixes with the globalists. Fauci joined the Bill and Melinda Gates Foundation in 2010 to create a Global Vaccine Action Plan- for the next 10 years to be a decade of vaccines. Fauci and the Obama administration were fully aware of the possibilities of using influenza as a bioweapon.

Says the Washington Post Anthony Fauci sets stage for mandatory -- lucrative! -- vaccine.

Bill Gates making \$200 billion from vaccines? Microsoft co-founder explains math behind 'returns'

Bill & Melinda Gates Foundation has so far ploughed billions of dollars into developing medicines. For instance, it has committed over \$3 billion in HIV grants to organizations globally and over \$1.6 billion to the Global Fund to Fight AIDS, Tuberculosis and Malaria. It has also committed over \$300 million to the global Covid response.

Victoria To Become Home Of mRNA Vaccine Manufacturing

Good news for Premier Dan Andrews who gives the state of Victoria the longest Covid lockdown in the world, lasting 262 days.

14 December 2021

Victoria will become the first place in the southern hemisphere to manufacture mRNA vaccines, after the Victorian Government reached an in-principle agreement with the Commonwealth Government and Moderna.

Under the deal – announced by Acting Premier James Merlino and Prime Minister Scott Morrison today – Moderna's new manufacturing and finishing facilities and Australian research centre will all be based in Victoria.

The manufacturing facility will be capable of producing 100 million doses per year from 2024 to combat future pandemics.

It is expected to create up to 500 jobs during construction and around 500 ongoing roles across the broader industry – driving the development of a local mRNA ecosystem that does not currently exist in Australia. mRNA has not only created a new frontier for vaccine development but also become a promising new weapon in the fight against a range of diseases.

National Institutes of Health Director Dr. Francis Collins and National Institute of Allergy and Infectious Diseases Director Dr. Anthony Fauci meet with Bill Gates of the Bill and Melinda Gates Foundation to discuss research opportunities in global health in June 2017 at NIH. We find Fauci and Gates in weekly communication as Fauci gives Gates the latest updates in biotech advances.

We find Gates, Collins and Fauci and CEO of Pfizer meeting with the Pope.

Pope Francis privately held undisclosed meetings with the CEO of Pfizer Albert Bourla in 2020, as the Holy See chose that company's vaccine over others. Since the vaccine program began

in early 2021, the Holy See Press Office has ceased reporting new cases of COVID-19, in contrast to 2020, when it regularly announced if any personnel or residents had been tested positive.

"Unite to Prevent and Unite to Cure" 'Several leading U.S. healthcare officials, the heads of two major companies that developed coronavirus vaccines and a number of celebrities will be taking part in a virtual Vatican-sponsored conference on advances in medical technology scheduled for May 6 to 8, 2021.'

'Pope Francis has said the coronavirus pandemic is one of 'nature's responses' to humans ignoring the current ecological crisis.' Here is the primary aim of the crisis and the one creating the crisis.

He also said that 'vaccination was an act of love. To get vaccinated not just for themselves but for the **greater good (or common good)** of society, calling health-care "a moral obligation."

Note the 'common Good' are the words continually pushed forward. The NOW for your 'Greater Good.'

Pope Francis reveals strongest COVID stance yet, labelling vaccines a 'moral obligation'

The religious leader has generally shied away from speaking about vaccination as a 'moral obligation'. But now he's amped up his stance.

There are US biolabs set up all over the world experimenting with viruses using gain of function techniques to make more virulent strains of the virus.

Pope Francis & the Pontifical Academy of Sciences, President Biden for mandates, Dr Francis Collins heads NIH and director of US public health Dr Anthony Fauci, Jesuit stooge all were heading and directing the covid campaign & in regular communication between the Vatican & the USA. Francis has more than matched the reputation of Jesuits before him to subvert & interfere with the nations of the world political processes for which they were expelled.

While Fauci was coping the
frontline abuse the main
perpetrators were in Rome. We
find ourselves afraid and lost
says Pope Francis while taking a
solidarity service midst the
coronavirus lockdowns with St
Peters square empty. 'Thick
darkness has gathered over our

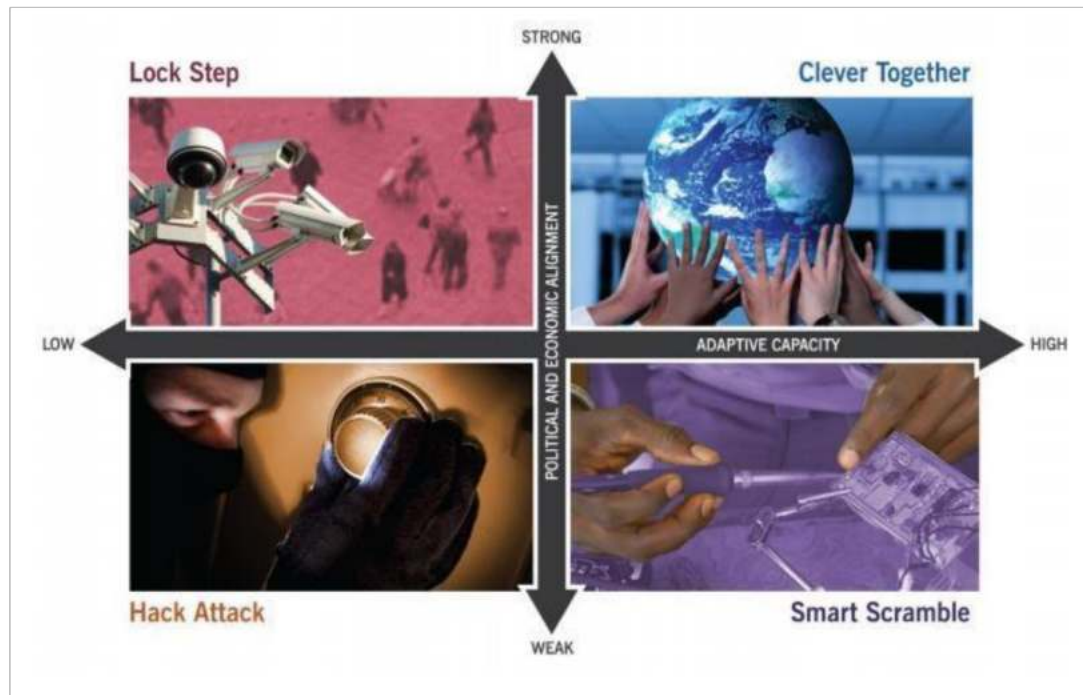

squares, our streets and our cities. It has taken over our lives, filling everything with deafening
silence and a distressing void that stops everything as it passes by. We feel it in the air, we notice
in people's gestures, their glances give them away. We find ourselves alone and lost.' Well yes
only if we follow his narrative.

**Daniel 7:25 the key to Vatican power is through the times and laws it has instituted which are in
direct opposition to God's laws..** There have been calls from many quarters for Sunday observance
for ecological reasons since the shutting down of world economies and the ecological advantages
that have ensued.

Prediction that has come true during the pandemic: **'The false science of the present day, which

the papacy, with its pleasing forms, as did the withholding of knowledge in opening the way for its

Lockstep comes to light

Scenarios for the Future of Technology and International Development from the Rockefeller Foundation 2010 PDF

In 2010 four scenarios were given for what the coming world might experience and what role technology and philanthropists would play in it. Interestingly enough this paper is from the year Bill Gates joined the Rockefeller Foundation. Four future scenarios are given-the first three are moving forward at this present time.

1. Lockstep- Coronavirus leads government stepping their citizens in line with quarantine measure despite loss of job, house and money. Driving the countries in debt help monopolies, gave more power to government and gave big business more control of nations
2. Hack Attack- an explosion in the West of hacks meant government power weakened, order rapidly disintegrating, and safety nets evaporating, violence and crime grew more rampant. Hacks ranged from vaccines to personal data mining to turning off computer system that control the grid or water wars.
3. Clever together – ‘global cooperation on a range of issues drives technological breakthroughs that combat disease, climate change, and energy shortages. International oversight entities like the UN took on new levels of authority, as did regional systems like the Association of Southeast Asian Nations (ASEAN), the New Partnership for Africa’s Development (NEPAD), and the Asian Development Bank (ADB)..... Flexible and rapid mobile payment systems drive dynamic economic growth in the developing world, while the developed world is hampered by entrenched banking interests and regulation.’

4. Smart Scramble- As the world failed to develop economically local communities grew tighter. Micromanufacturing, communal gardens, and patchwork energy grids were created at the local level for local purposes.

*LOCK STEP – A world of tighter top-down government control and more
authoritarian leadership, with limited innovation and growing citizen
pushback*

The following scenario was put forward in 2010 by the Rockefeller Foundation and Global Business network, that matches exactly the COVID 19 pandemic of 2020. In 2012, the pandemic that the world had been anticipating for years finally hit. Unlike 2009's H1N1, this new influenza strain — originating from wild geese — was extremely virulent

*and deadly. The pandemic also had a deadly effect on economies:
international mobility of both people and goods screeched to a halt, debilitating industries like tourism and breaking global supply chains.*

*Even locally, normally bustling shops and office buildings sat empty for months, devoid of both employees and customers. The mission of the **Biosecurity Engagement Program (BEP)**
May 2010*

Now take a look another scenario. Criminal networks also grew highly skilled at counterfeiting licit goods through reverse engineering. Many of these “rip-offs” and copycats were of poor quality or downright dangerous. In the context of weak health systems, corruption, and inattention to standards — either within countries or from global bodies like the World Health Organization — tainted vaccines entered the public health systems of several African countries. In 2021, 600 children in Cote d’Ivoire died from a bogus Hepatitis B vaccine, which paled in comparison to the scandal sparked by mass deaths from a tainted antimalarial drug years later. The deaths and resulting scandals sharply affected public confidence in vaccine delivery; parents not just in Africa but elsewhere...

Lockstep is an army working in unison and portrays the action of governments worldwide to bring citizens into line.

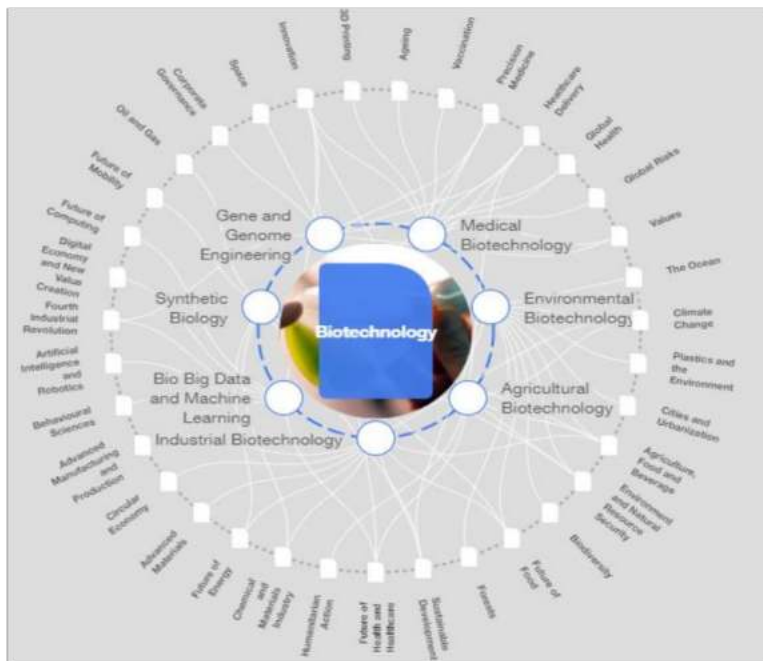

Image left from the World Economic Forum targeting biotechnology.

But the Christian world have shown contempt for the law of Jehovah; and the Lord will do just what He has declared that He would—He will withdraw His blessings from the earth and remove His protecting care from those who are rebelling *Satan* is at work. In accidents and calamities

by sea and by land, in great conflagrations, in fierce tornadoes and terrific hailstorms, in tempests, floods, cyclones, tidal waves, and earthquakes, in every place and in a thousand forms, Satan is exercising his power. He sweeps away the ripening harvest, and famine and distress follow. He imparts to the air a deadly taint, and thousands perish by the pestilence. These visitations are to become more and more frequent and disastrous. Destruction will be upon both man and beast. It is God that shields His creatures and hedges them in from the power of the destroyer. {GC 589.3}

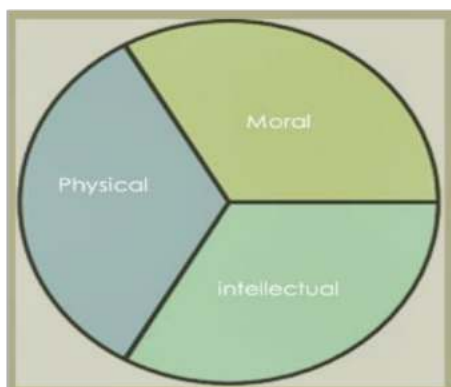

The earth also is defiled under the inhabitants thereof; because they have transgressed the laws, changed the ordinance, broken the everlasting covenant. Therefore hath the curse devoured the earth, and they that dwell therein are desolate: therefore the inhabitants of the earth are burned, and few men left. {Isaiah 24:5,6}

So, the servants of the householder came and said unto him, Sir, didst not thou sow good seed in thy field? from whence then hath it tares? He said unto them, An enemy hath done this. {Matthew 13:27,28}

‘Satan works through the elements also to garner his harvest of unprepared souls. He has studied the secrets of the laboratories of nature, and he uses all his power to control the elements as far as God allows. When he was suffered to afflict Job, how quickly flocks and herds, servants, houses, children, were swept away, one trouble succeeding another as in a moment. It is God that shields His creatures and hedges them in from the power of the destroyer.’

As God works through His Spirit and through His Spirit and sends His angels to guide and assist His servants so Satan works through his spirits that inspire his servants to study and contaminate the natural world.

The battle for the soul is physical, intellectual and moral as Satan seek to enter through any of these avenues. This is a spiritual battle on all fronts. Those who have had opportunity but have rejected the health message are disqualifying themselves for the service of God and the endowment of the Holy Spirit. They may be found as the 5 foolish virgins without oil in their vessels and miss the bridegroom. God’s word is

tested, the intellect is tested as is faith in whom God's people will choose to believe in. Will they be swept into the tide of delusions?

Track and trace

By 2020 QR code were in full implementation throughout the states of Australia. QR codes are two-dimensional, so it can contain over 50,000 characters- so it can record a lot of information about an individual. They were used for permission to enter a building for work or to be notified by the government to isolate when a covid case had been detected. While many people may have relaxed since the mandates have relaxed, they will be called for again at the sign of any sniffle or more to the point the real intension is to implement a climate lockdown.

Thousands of residents in Singapore and Shanghai were screaming from their apartment towers with entire apartment blocks running out of food and medical supplies. Protests broke out in Chinese cities because of the zero tolerance covid measures.

At the G20 summit 2022, the Health Minister of Indonesia called for the use of vaccine passports ready for the next pandemic so there can be the movement of people without total shutdown. It really wasn't anything new just going back to what had already been trailed. Twenty participating world leaders signed a declaration to introduce vaccine passports for their respective nations, with the intention of creating a global verification system to facilitate safe international travel.

As we recall at the height of the pandemic lockdowns if you had family across the border, you were unable to visit them even if they were dying or had died. One lady told me her grandson suddenly died after the vaccination but they were unable to visit him across the border which she was quite upset about. People died in isolation all alone without family able to visit them. This man was in his early 30s but in the next breath the lady said she was about to get her second booster shot. Just incredible. Someone you loved just died from what she believes is the result of vaccination and your upset that you were unable to go to their funeral and yet your off for a booster shot! That's the mentality of a lot of this.

If you had a house or wanted to sell or buy or look after your property across state borders, it just wasn't going to happen, even if you had sold your house and had to move. You could come by

plane only, without your belongings, go into quarantine at your own expense which was thousands of dollars, to later find a way to get your things transported interstate which was difficult.

The most ridiculous statements and decisions were made at this time by the medical officials and the premiers drunk on power. While squeezing people's jobs, they claim that they forced a 95% vaccination level in Australia which is questionable and now the general reports on YouTube which were heavily censored show the mRNA vaccines do not stop the transmission which anyone who

Why China's COVID-tracking QR codes raise surveillance concerns

Chinese police have extensive surveillance capabilities at their disposal – including a vast network of mounted cameras that canvass public places – as they pursue protesters who spoke out last month against China's stringent COVID-19 policies. Yet even more ubiquitous than the cameras is a relatively new tracking tool: the individual digital health QR codes that live on the cellphones of nearly all residents.

Designed for contact tracing, the health codes are key to enforcing China's COVID-19 rules, and now constitute one of the most widely used population control technologies in the world.

Chinese who took to the streets to demand freedom from lockdowns and

had the sense to investigate already knew. The commercial media reported some of the failures of the vaccination after the fact as if they are an investigative news worthy platform.

Smile your on camera

As I travelled with very few others on the freeway during covid lockdowns, it felt a little eerie. There was restriction of movement in the suburbs except for essential workers in Sydney and Melbourne. There were few cars on the main freeways and not many

interstate trucks but spasmodic cars and an occasional police vehicle. As I travelled on the highway, I considered the day when highway technology will be used against those who are perceived enemies of the state, as I had previously considered but this time the situation was not longer futuristic.

In every aspect of our life camera are tracking movement. 'These cameras operate 24 hours a day, 7 days a week, 365 days a year day or night and those images are being stored for three years. I don't have any criminal background, criminal record. That I know of, I'm not under any criminal suspicious. Yet, the government knows where I am, where I go, what I do, who I hang out with, who I talk to, who my doctor is. I am very concerned that information is not being safeguarded properly. And it's

being misused, quite frankly.' Raul Mas was suing the state over Automatic License Plate Recognition as a constitutional violation and a judge in 2019 ruled against the city of Coral Gables Florida, because of one man's actions.

Recall Edward Snowden covering his computer's camera so he could not be tracked or recognised. SMART technology to slowly take us into the police state and give us a carbon credit score.

We need to consider large chain stores that suck the life out of the community, because money is not being circulated within the community who share personal data with other agencies while tracking your footprint. Western government are privatising their agencies and personal data given to private companies are being hacked, to steal information and identities. The melding of government agencies with private corporations is the new fascism.

The use of facial recognition or 'faceprint', which captures and stores unique biometric information would come as news to most customers. This came to light as major Australian retailers such as K-Mart, Bunnings and the Good Guys put a temporarily halt to their use in July 2022 pending clarification in relation to the Privacy Act regarding this technology. There was little upfront signage to tell people they were under surveillance and their private information and faceprint being stored.

Madison Square Garden used facial recognition under the direction of billionaire James Dolan to ban its enemies. Computer software was used to identify hundreds of lawyer's profile photos representing people suing it, but also the attorneys at their firms to enable them to ban them from entering MSG Entertainment venues.

Riot 2020

Was this something from the French revolution?
People mugged on the street and murdered by roaming gangs. Blacks killing blacks and committing felonies against whites or anyone who was in their way. Burning police precincts. It was chaotic but organised.

What do the police have to say in New York? 'Stop treating us like ANIMALS and THUGS': NY police union boss EXPLODES on politicians and the press.

Likewise also as it was in the days of Lot; they did eat, they drank, they bought, they sold, they planted, they builded, but the same day that Lot went out of Sodom it rained fire and brimstone from heaven and destroyed them all. Even thus will it be in the day when the Son of man is revealed. {Luke 17:28-30}

The story of Sodom is not only about sodomy but they would take Lot by force to take the two men who had visited the city to warn Lot and his family of the coming destruction. The judgement of God in the land are soon to arrive as demonic spirit take possession of many in the cities. The same spirit of sodomy and revolutionary violence is present.

On May 25, 2020, footage showed George Floyd shouting 'I cannot breathe' and 'Don't kill me!' George Perry Floyd, a black man, brutally and unnecessarily killed by police in Minneapolis, United States. But this did not justify the lawlessness that followed as black and white were killed and

insulted. Protests began in Minneapolis that ended up in curfews across at least 40 cities and the situation was reminiscent of the 1990s LA race riots with perhaps greater ferocity and being more wide spread. Not only protests were marshalled worldwide including riots in

France in typical French style, in London Winston Churchill memorial was violated

during the protests. There were peaceful but illegal protests in Australia (due to the Covid 19 restrictions) with thousands turned out in solidarity. So, the people went into lockstep

and did what they were told until these protests were marshalled. Leading the pack is the media. Today the media is finely tuned to direct the public into a future of oblivion. Riots are called protests and police abuse is focused on more than the need for a return to law and order while **Black Lives Matter** turns into criminal violations.

In the US this went beyond race riots to a civil war against the US government itself! During Russiagate Trump had said that if he was removed from office there would be a civil war and here it is. The greatest challenge to his presidency is this

democracy riots on the streets. Here is demonstrated democracy as a lynch mob where the people run riot and burn down police stations and police and FBI in many instances are supporting by showing solidarity as do democratic state leaders also support the protestors.

‘Most Americans and even most Democrats, don’t want a president who would set out to abolish capitalism;’ that would be too extreme and, in your face, ‘instead, they appear to favor a president who is genuinely committed to making capitalism work for them.’ It’s called inclusive capitalism with climate change steering the way. Racial intolerance is a way forward for the democrats to implement this change. Says Joe Biden, ‘The next person that tells me I’m not religious, I’m going to shove my rosary beads up their ass.’ Thanks for letting us know Joe!

The first Catholic bishop to take the knee at a Black Lives Matter rally got a call from Pope Francis

- On Monday, El Paso, Texas, Bishop Mark J. Seitz became the first Catholic bishop to publicly take the knee in symbolic recognition of racial injustice and police brutality in America.

‘Bishop Seitz and other Catholic clergy take the knee during a Black Lives Matter rally in Memorial Park, on June 1, 2020. Pope Francis congratulated him for speaking out, Seitz said, telling him he also called Archbishop Jose Gomez, the president of the U.S. bishops’ conference, to convey

support and solidarity during the civil unrest. Pope Francis spoke out against police brutality during his weekly Angelus prayer at the Vatican. 'The first Catholic bishop to take the knee at a Black Lives Matter rally got a call from Pope Francis' (K. Thor Jensen Jun 5, 2020) **The Pope was reported as having direct political interference and was helping to insight a revolution by BLM movement.**

In 2015 Pope Francis addressed congress alluded to the Black Lives Matter movement. Francis referred to 'Merton a thinker who challenged the certitudes of his time,' a 'man of dialogue, a promoter of peace between peoples and religions,' wasn't afraid to challenge state authority in the name of justice. 'The violence that threatens us to the point of possible self-destruction is endemic in the whole of society, and **more especially in the establishment itself, the military, the police, the established forces of 'order'** -- they are all infected with a mania for overkill, rooted in fear..... 'Instead of preaching the Cross for others and advising them to suffer patiently the violence which we sweetly impose on them, with the aid of armies and police, **we might conceivably recognize the right of the less fortunate to use force, and study more seriously the practice of non-violence and humane methods on our own part** when, as it happens, we possess the most stupendous arsenal of power the world has ever known.' Thomas Merton, a Trappist monk. Says the headline of the quotes from this article, **'Pope Francis Basically Just Retweeted Black Lives Matter.'** His calls for justice and equality were unmistakable. Huffpost Ryan J. Reilly, Julia Craven

James Martin editor of America the Jesuit review says **'The Holy Spirit is moving us to act against racism.'** (It is actually demonic spirits seen in terrorist acts across the nation actuated by liberation theology.) "Racism, as St. John Paul II said, is one of the most

"persistent and destructive evils" in the United States. Racism is, as, the Rev. Bryan Massingale, a Catholic theologian, says, a sickness of the soul. This sickness has been spread since the first Africans were forcibly brought to America and sold as slaves 600 years ago. Our nation is one founded and continuously shaped by white supremacy.

'White supremacy,' writes Father Massingale, 'fundamentally is the assumption that this country, **its political institutions, its cultural heritage, its social policies and its public spaces** belong to white people in a way that they do not belong to others." **The Jesuits then would change the political institutions, do away with cultural heritage, change social policies and public space to reflect a catholic country and its institutions which are steeped in superstition and poverty in which they are the overlords.** The Jesuits who with others priestly societies fuelled the civil war of the USA during Lincoln's time, are presently behind the ideology that drives this nation and through it the west is on the brink of ruin. From the beginning of the foundation of the United States, Rome was at war with democracy and the constitutional foundation of America. The masters of the inquisition support the violence while condemning it and the Pope also adds his condemnation to racism. To the right picture of David Dorn, 77, shot in the torso about 2:30 a.m. He died on the sidewalk in front of the shop, Lee's Pawn & Jewelry while trying to stop the thieves. The slaves of Georgetown University

'The human cargo was loaded on ships at a bustling wharf in the nation's capital, destined for the plantations of the Deep South. Some slaves pleaded for rosaries as they were rounded up, praying for deliverance.

But on this day, in the fall of 1838, no one was spared: not the 2-month-old baby and her mother, not the field hands, not the shoemaker and not Cornelius Hawkins, who was about 13 years old when he was forced onboard.

Their panic and desperation would be mostly forgotten for more than a century. But this was no ordinary slave sale. The enslaved African-Americans had belonged to the nation's most prominent Jesuit priests. And they were sold, along with scores of others, to help secure the future of the premier Catholic institution of higher learning at the time, known today as Georgetown University." The New York Times By Rachel L. Swarns. April 16, 2016.

'Descendants of the 272 enslaved sold by Jesuit priests in 1838 participate in a Liturgy of Remembrance, Contrition and Hope on the campus of Georgetown University on Tuesday.

Most of the men and women who filed into an ornate chapel at Georgetown University to the sounds of 'Amazing Grace' had never set foot on the Gothic college campus before.

But all of them — close to 200, from schoolchildren to elderly men and women — were intimately connected with the college: Their ancestors were sold as slaves to finance the college's future.

The media is calling the riots protests, and democratic states are allowing the riots to go ahead therefore supporting the riots. The democrats also support the New World Order and the destruction of nationalism just as the Pope, Bill Clinton and lady Rothchild all call for inclusive capitalism — a Marxist system with equal rights for the poor and marginalised including gay and indigenous rights, in other words liberation (Jesuit) theology which actually spells slavery. So, hiding behind the banner for such human rights is the UN an American institution and behind the UN is the Pope with his encyclical which is the basis for the Paris climate agreement.

They are trashing the stores yet 'Many corporations, big and small, have joined the conversation, issuing statements vowing to stand with the Black Lives Matter movement. Some tech behemoths -- like Apple, Amazon, Microsoft' and others such as Walmart, target, home depot and fast food chains are sending millions -- accelerationists. "Accelerationism" may also refer more broadly, and usually pejoratively, to support for the intensification of capitalism in the belief that this will hasten its self-destructive tendencies and ultimately lead to its collapse."

Notice Karl Marx words on free trade agreement: Karl Marx 1848 "On the Question of Free Trade":

But, in general, the protective system of our day is conservative, while the free trade system is

destructive. It breaks up old nationalities and pushes the antagonism of the proletariat and the bourgeoisie to the extreme point. In a word, **the free trade system hastens the social revolution. It is in this revolutionary sense alone, gentlemen, that I vote in favor of free trade.**

So, we have the work of government presidents using free trade agreements with countries on a totally different platform to their own, China most notably.

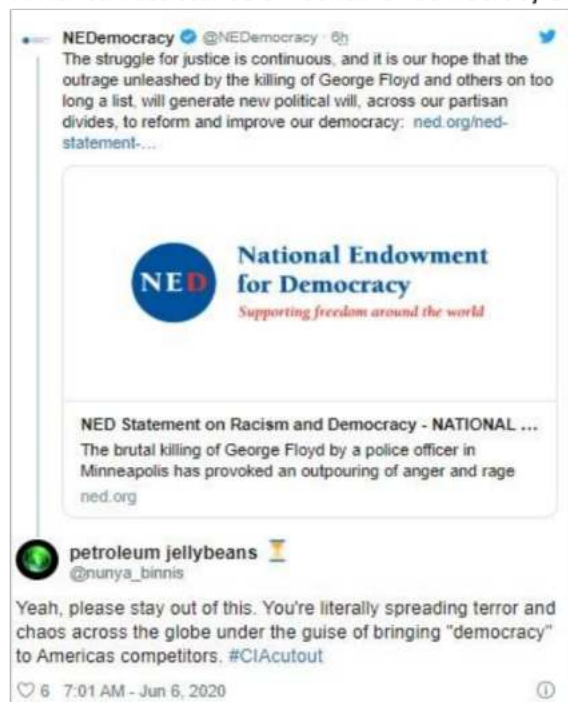

‘Since Donald Trump tweeted recently that antifa would be declared a terrorist group, the term has gained broader currency on the American right and is seen as a dire threat. In fact, it simply means ‘anti-fascist’ and is used to describe a wide spectrum of leftist and anarchist groups and individuals. It has no existence as a separate organization. NBC News has reported of antifa involvement in violence linked to the Floyd protests and one supposed antifa group posting violent rhetoric on the internet was in fact linked to white supremacists. Right-wing vigilantes were on armed patrol after fake rumours of antifa threat.’ The Guardian June 6 Jason Wilson.

Attorney General William Barr said the federal government has evidence that the radical left-wing antifa movement as well as other extremist groups have "hijacked" legitimate protests around the country to incite violence, and said certain "foreign actors" are seizing on the unrest to sow discord in the U.S.

Who is behind the right- or left-wing groups? Could it be CIA, special forces, NATO? If so it is consistent with post war history of Europe and who is behind the terrorist attacks? The answer is obvious.

The National Endowment for Democracy (NED) formed in the early 1980s, with the idea that American assistance on behalf of democracy efforts overseas has now looked with in to endorse

protests against police brutality at home and at this time has this to say, ***“Such a movement is needed not just for the sake of our own country, but for the benefit of brave people on the frontlines of democratic struggles around the world.”***

NED was accused of influencing the anti-Beijing sentiment in Hong Kong in recent years. Following the Rockefeller Commission, the Pike "Report," and the Church Committee the CIA had to find a new way to channel funds for countries who did not agree with U.S policy. Henry Kissinger, Zbigniew Brzezinski, Paul Wolfowitz, Madeline Albright, Elliot Abrams are among its board directors. That in itself

should tell you enough.

‘In interviews and posts on social media in recent days, current and former U.S. intelligence officials have expressed dismay at the similarity between events at home and the signs of decline or democratic regression they were trained to detect in other nations.’ (oh surprise, surprise!) “I’ve seen this kind of violence,” said Gail Helt, a former CIA analyst responsible for tracking developments in China and Southeast Asia. **‘This is what autocrats do. This is what happens in countries before a collapse. It really does unnerve me.’** The CIA because of its foundation as Catholic intelligence and as stated in Revelation 13 will destroy the United States bastion of the free world. Just exactly how is its demise stated? Here it is in plain English. **‘Protestants will throw their whole influence and strength on the side of the papacy. By a national act enforcing the false Sabbath they will give life and vigor to the corrupt faith of Rome, reviving her tyranny and oppression of conscience.’ Maranatha 179 1893.**

Trump outside St John's church known as the church of presidents where Abraham Lincoln also visited.

Trump stands in front of a church after the military clear the square from protestors with tear gas to make a point for evangelical America.

June 2020- Trump's nemesis speaker of the house Nancy Pelosi has reaffirmed her position as a liberation theology advocate & to Trump's dismay the supreme court voted in favor of LGBT rights. Pelosi also called for Washington to erase monuments to the confederacy

Abraham Lincoln

June 8th, 1864,

"This war would never have been possible without the sinister influence of the Jesuits. We owe it to Popery that we now see our land reddened with the blood of her noblest sons. Though there were great differences of opinion between the South and the North, on the question of slavery, neither Jeff Davis nor any one of the leading men of the Confederacy would have dared to attack the North, had they not relied on the promises of the Jesuits, that, under the mask of Democracy, the money and the arms of the Roman Catholic, even the arms of France, were at their disposal, if they would attack us. I pity the priests, the bishops and the monks of Rome in the United States, when the people realize that they are, in great part, responsible for the tears and the blood shed in this war; the later the more terrible will the retribution be. I conceal what I know, on that subject, from the knowledge of the nation; for if the people knew the whole truth, this war would turn into a religious war, and it would, at once, take a tenfold more savage and bloody character. It would become merciless as all religious wars are. It would become a war of extermination on both sides. The Protestants of both the North and the South would surely unite to exterminate the priests and the Jesuits, if they could hear what Professor Morse has said to me of the plots made in the very city of Rome to destroy this Republic, and if they could learn how the priests, the nuns, and the monks, which daily land on our shores, under the pretext of preaching their religion, instructing the people in their schools, taking care of the sick in the hospitals, are nothing else but the emissaries of the Pope, of Napoleon, and the other despots of Europe, to undermine our institutions, alienate the hearts of our people from our constitution, and our laws, destroy our schools, and prepare a reign of anarchy here as they have done in Ireland, in Mexico, in Spain, and wherever there are any people who want to be free, etc."
